Rhubarb Wine .- Will you or some of your numerous readers be so kind as to give a recipe, through the Rural, for mahing rhubarb or pie-plant wine? — C. A., Allen's Grove, Wis., 1861.

The stalks are usually ground and pressed in small portable eider mills, or the juice may be expressed in any way most convenient. One hundred pounds of stalks will make about ten gallons of juice. The custom is, we believe, to add about a gallon of water to each gallon of juice, and some six or seven pounds of sugar. Put into a cask, leaving the bung out, and fill up as fermentation progresses. When sufficently worked, bung up. It may be bot-tled off at leisure. Isinglass is sometimes

Sponge Cake. - One pound of sugar, three quarters of flour, ten eggs.

Long Island Cake .- One pound sugar, one pound of flour, half pound butter, one cup milk, one teaspoonful saleratus, three eggs, nutmeg and rose water to taste.

Cup Cake.-One cup sugar, one cup molasses, one cup butter, one cup of eggs, five cups flour, one teaspoonful saleratus, spice to your taste.

1, 2, 3, 4 Cake. - One cup sugar, two of butter, three of flour, four eggs, half teacup rose brandy; bake in a slow oven.

To prevent cake burning round the sides and on the bottom, place the pan containing it in one or two other earthen or iron pans, and if the oven is too hot on top, place over the pans two thicknesses of white paper. This should always be done with large cakes, requiring considerable time to bake thoroughly.

AGRICULTURAL.

Grinding Feed.

Some English writers have claimed, and we think justly, that if a proper machine was invented to grind hay, the result would approximate in value to unground oats, in producing fat and muscle. The opinion has been founded on the fact, that nineteen pounds of hay cut one inch long, would, for flesh-making, equal twenty-five pounds in the uncut state. This truth has given rise to machines for chaffing hay in England which are finding favor with cattle raisers. Their cost is too great for the American market, and manufacturers of cutting machines have recently succeded in producing those capable of cutting onefourth to three-eighth of an inch in length very best brands, and warranted pure and and at a cost of abut \$70, for a machine old. capable of cutting one ton per hour. Such be seen at our office A chaffing machine for brusing oats is now called for, and all who have observed the inability of the ho se to digest whole oats, must admit the fact that some means of dividing them before being fed should be adopted .- Working Farmer.

Blackberries.-The editor of the Homestead says that all black berries (except white blackberries) are red when they are green, except the Lawton; these are green when they are black, and ripe only when they are soft, and when a mere touch will disengage them from the stem.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD. And for the speedy cure of the following complaints And for the speedy cure of the industrial companies.

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Pimples, Pustules, Blotches, Bolls, Blains, and all Skin Diseases.

Orkland, Ind., 6th June, 1859.

J. C. Ater & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofilous infection, I have saffered from it in various ways for years. Sometimes it learns out in Ulcers on my head and arms; sometimes it learns out in Ulcers on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the disorder grew worse. At length I was rejoiced to read in the disorder grew worse. At length I was rejoiced to read in the disorder grew worse. At length I was rejoiced to read in the disorder grew worse, the went from your reputation that any thing you made must be good. I sent to Chreinnatianed got it, and used it fill it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottless. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostice of the age, and remain ever gratefully.

ours swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Chaming, of New York City, writes; "I most cheerfully comely with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Finale Disease of the Scrothous dithe-is. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by necrotion of the netron. The ulceration itself was soon cured. Nothing within my knowledge equals if for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous ovarian tensor on or of the females in my family, which had defied all the remedies we could caploy, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirgation could afford relief, but he advised the trial of your Sarsaparilla. Our physician thought nothing but extirgation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before curings, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Afth: Sir. I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sar-agarilla.

I have earlied with your Sar-agarilla.

I have earlied with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his mose, and the ulceration had eaten away a considerable part of it, so that I beheve the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating join in her joints and bones. She, to, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your historatory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours. G. V. LARIMER, M. D.

INDAPENDANCE, Presson Co., Va., 6th July, 1859.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to ne in spite of all the remedies I could find, until I tried your Savaparilla. Our bottle curred me in two weeks, and restored my general healths so maps that I am fair better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Larre, which destroyed my health. I tried every thing, and every thing falled to relieve me; and I have been a broken-down man for some years from no other cause than decongenent of the Liver. My beloved postor, the live, Mr. Espa, advised me to try your Savaparilla, because he said he knew you, and any thing you made was worth trying. This is a renedy so universally known to surpass any other for the care of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wenderful cures of pulmonary disease, lave made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their mists of its victory over the sabile and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this runedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
