Stewed Peas .- Take a quart of young fresh-shelled peas, and lay them in a stewpan with two ounces of butter, or three if they be old, an onion cut in four, a very small sprig of mint, two tablespoonsful of gravy, and one teaspoonful of white sugar; stew gently until they are tender, take out the mint and the onion, thicken with flour and butter, and serve very hot; a lettuce may be chopped up and stewed with them.

Green Pea Soup .- Shell a peck of peas, and boil them till quite tender in two quarts of water. With a little cold milk, stir two tablespoonsful of flour, very smooth; add a little salt, black pepper, and a dust of cayenne pepper, and stir into the boiling peas, until the whole really boils again, and you will have a cheap and wholesome summer dish. Green pea soup may also be made by using broth, instead of the milk and wa-

Receipt for Tomato Sauce .- Cut six tomatoes in half, and having pressed out their juice, put to them some gravy, a bit of garlie, a little parsley, and a few drops of vinegar. These must be boiled together for a short time, and passed through a sieve.

To make Currant Cream, you should bruise some thoroughly ripe currants in boiled cream, taking care that the cream is almost cold before the fruit is put to it, or else it will be liable to curdle. Add some beaten cinnamon, and sweeten to your taste. Then strain the whole through a fine sieve and serve. Strawberries, or raspberries may be used in the same way, instead of currants; and it is considered best to sweeton the fruit before you put it to the cream.

From Godey's Lady's Book. Tomato Preserves .- Take the round yellow variety as soon as ripe, scald and peel then to seven pounds of tomatoes add seven pounds of white sugar, and let them stand over night; take the tomatoes out of the sugar, and boil the syrup, removing the scum; put in the tomatoes, and boil gently fifteen or twenty minutes; remove the fruit again, and boil until the syrup thickens. On cooling, put the fruit into jars, and pour the syrup over it, and add a few slices of lemon to each jar, and you will have something to please the taste of the most fastidious.

To Pickle Tomatoes .- Always use those that are thoroughly ripe. The small round ones are decidedly the best. Do not prick them, as most receipt books direct. them lie in strong brine three or four days, then put them down in layers in your jars, mixing with them small onions and pieces of horseradish; then pour on the vinegar (cold), which should be first spiced as for peppers; let there be a spice-bag to throw into every pot. Cover them carefully, and set them by in the cellar for a full month before using.

Spruce Beer .- Allow an ounce of hops and a spoonful of ginger to a gallon of water. When well boiled, strain it, and put ter. When well boiled, strain it, and put in a pint of molasses, and half an ounce or less of the essence of spruce; when cool, add a teacup of yeast, and put into a clean tight cask, and let it ferment for a day or two, then bottle it for use. You can boil the sprigs of spruce fir in room of the essence.

This Oil acts on the system with electricity—is of ure vegetable preparation. Not the slightest danger f applying it outwardly or inwardly. It at once gives permanent cure—in most cases from ten to twenty ninutes.

a permanent cure—in most cases from ten to wenty minutes.

The best physiologists of Europe have discovered that all organic derangement of the animal system is the effect of an obstruction of the physio-electric fluid in the organ diseased. A skillful application of this Oil puts in immediate motion the nerve fluid, and the cure is at once accomplished. No bleedings—no vomiting, purging, or blistering is resorted to.

None genuine without signature of Prof. C. Dz Graff. Labels signed in writing.

Principal Depot No. 30. South Eighth Street, three doors below Chestnut, Philadelphia. Country Dealers and Druggists can be supplied wholesale and retail. Price 25 cents, 50 cents, and 21 per bottle.

This is a vuriety regretable compound, prepared on strict highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principies, after the manner of the celebrated Holland Professor, Berhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this nighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the scot of life, thrilling and quickening every nerve, raising up-the drooping spirit, and, in fact, Infusing new health and vigor in the system.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this serofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; heir persons are invaded by this lurking inoction, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
