## THE housekeeper.

Cheap Beer .- A very good, palatable, wholesome beer may be obtained from acorns and hops. It is slightly sparkling, eminently tonic, and a febrifuge. The acorns are steeped in water for fifteen or twenty days, the water being renewed four or five times. They are then transferred to a cask, hops are added, the eask filled up with water, and the bunghole lightly covered, but not stopped, as there is an escape of gas. In fifteen or twenty days the beer is fit for use, and as fast as it is drawn off fresh water may be poured on. It will supply four or five persons for eight months with a very excellent beverage .- London Paper.

White Cake .- 2 cups of refined sugar, the whites of 8 eggs, one half cup sweet milk, 3 cups of flour, and two teaspoonsful of baking powder; work the butter to a cream, add the sugar, then the whites, apl1 very well beaten, then the flour with the powder mixed in it, and stir it ton or fifteen minutes all together-that is, when all is in.

Best Cake in the World .- To 1 pound of sugar take 5 eggs, 1 cup of butter, 1 cup of sour cream or milk, 4 cups and a half of flour, 1 teaspoonful of soda, and 2 of cream tartar. Mix the soda in a little of the milk, and the cream tartar in the flour. Beat the sugar, butter, yolks and milk all together, not longer than fifteen or Extra Cheese, twenty minutes, then add the whites, beatento a froth, and then the flour, soda, and a few ciunamon drops. Stir a few minutes. and bake till done.

Silver Cake .- 1 pound sugar, 1 cup of butter, 1 cup of sweet milk, 41 cups of flour, the whites of 8 eggs, 21 teaspoonsful of baking powder, and a little mace. Beat the sugar and butter together, add the milk, then the whites, well beaten, and lastly the flour and mace. Stir well a few minutes.

#### Flax Cotton.

The Rhode Island Society for the encouragement of domestic industry, has shown a most laudable activity in encouraging experiments in the manufacture of flax, ever since there was any hope of making it a competitor of cotton. How diligent the Society has been is well known to those aware of its proceedings. In pursuance of its policy it now offers premiums to stimulate our citizens to compete for excellence in the preparation of flax for the use of the spinner. The experiments NAIL AGENCY .- As I am now selling which have thus far been made, served to Nails for Duncannon Iron Works, I am to encourage those, who are capable of judging, in the belief that flax may be used for the manufacture of a cheap and durable fabric, which shall serve for many, if not for all, the purposes of cotton. The social and political, as well as the economical 18000 Persons, VIZ: results of the substitution of flax for cotton, are too apparent and have been too often enlarged upon to render any words necessary at this time. The society deserves the thanks and hearty cooperation of all our citizens. We trust that many competitors may enter the lists for the prizes the society offers. Let Rhode Island obtain the preeminence in the manufacture of flax that she has reached in the manufacture of cotton. Ou: experience gives us some obvious advantages in experiments of the kind required for carrying to perfec- emy, has now on hand an extensive stock of tion the manufacture of flax .- Prov. Jour. ## Scrofula, or King's Evil, NEW ARRIVAL! WM FLINT:

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out n disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the constitution, descending " from parents to children unto the third and fourth generation ;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination ; and many destructive diseases of the liver, kidneys, brain and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous;

their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renthe blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

## Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SEIN DISEASES, ST. ANTHONY'S FIRE, Rose, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed. ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
