Pumpkins Among Corn.

culture says; 'Many farmers plant pumpkins with ikes as much nourishment to grow a good ized pumpkin as a good hill of corn. this be the case, where a number of loads are grown to the sere, we think the pumpkin cannot be of so much value as the corn is diminished.'

The sentiment here expressed is held by many. Now, who has ever known that pumpkins injured corn? Uncertain knowledge is no knowledge at all, so to speak. Who has any knowledge of pumpkins injuring the corn?

The corn has the first chance at the sun and air, at the dew and showers, at the soil and manure. The pumpkins are planted later, and where the corn fails or is thin, or perhaps are planted uniformly over on hand which will be sold cheap.

the field and at most there will not be and-tf BILLY JOHNSON. more than one pumpkin vine to twenty-five corn plants. Corn takes one class of substances from the earth, the pumpkins quite a different class, and so it seems to us that That the Cheapest and Best Boots and Shoes with the knowledge of many a load of fine pumpkins raised among corn, and no proof that materially or any less corn is raised, it is safe to plant pumpkins with all small stalked, low growing kinds of corn at any amount of fodder lost by using a small stocked variety of corn will be more than made up by the yield of the pumpkins .-Large varieties of corn shade the ground so that the pumpkins seldom do well .-

How to Get Rid of Boulders.

One of the easiest ways to get rid of boulders, or 'hard heads,' as they are called in some parts of the country, is to sink them. If not wanted for wall building, it | Price List: will cost more to drill and blast and haul Men's Boots, away, than to dig a pit and tumble them in, so that the upper surface will be at least a foot under ground and quite out of the way of plowing. Examine the stone and select the lower or most favorable side and dig a pit, going partly under the stone, and deep enough so as to be sure to have room, and then with crowbars, levers, or oxen, tumble the stone into the pit and level the how easy you have got rid of a troublesome occupant of your field, A man will sometimes bury a stone in a day that could not be blasted and hauled out for five dollars.

PAINTED BUCKETS at 25 cts. each. feb14 JOHN KENNEDY & C.o Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filthed of the behing the approximate and and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints

of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appe-tite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness,

Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the emmunity have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. be forgotten.
