LOCAL AFFAIRS.

The Board of School Directors met last evening and made the following appointments:

- High School—Jos. S. Waream, Mary E. Stewart, Jos. H. Jacobs, Mary F. Shaw, Jane A. Kerr, Mary A. Miller, Juliana V. Elberty, East Ward—Male teacher to supply, " " Kate E. Stauber, " " Martha Stoner, Colored School—A. H. Peters.

Salary in the High School reduced \$5 per month—in the other schools \$4 per month—schools to open on the 23d of September.

Among the teachers employed at Hollidaysburg we notice the name of Miss Mary McCord, of this place.

We understand that a Second Lieutenant in the regular service has been conferred on Elias W. Eisenbise, late of the Logan Guards, and now Captain of the Slemmer Guards.

Teachers' Company.—Mr. A. G. Dickey has been authorized to raise a company to fill up Col. Irwin's regiment, and having received considerable encouragement here, has determined to make an effort to construct it from among the teachers of Mifflin, Centre, Huntingdon and other counties.

Should School Teachers Go to War? This question was discussed by some of the members of the Institute recently held here, and it seems sufficiently important to be published here.

I shall assume, what every loyal man will admit, that it is right, necessary and more than honorable for men to offer their services in defence of our country's government and the cause of Freedom.

An intelligent man would consent to have the public schools closed, until the condition of the country is so desperate that every other interest is lost in the one pressing necessity of saving the Government and popular Liberty from complete subversion.

Resolved, That in common with our fellow citizens of all other professions, we deeply deplore the present unhappy condition of our national affairs, and we will cheerfully cooperate with them in every legitimate measure for the maintenance of the government and the perpetuation of our free institutions.

Resolved, That the thanks of the teachers are due, and are hereby tendered to the Editor of the Lewistown Gazette and the True Democrat, for the column which they have generously opened to educational articles; and we request a continuance of the favor.

Resolved, That we hereby tender our grateful acknowledgments to Prof. A. and M. J. Smith for their attendance at this session of our Institute, and for the valuable instruction given us during its meetings.

The thanks of the Institute were tendered to G. F. Davenport, A. M., Prof. M. J. Smith, and A. Smith, for their able and instructive lectures; also, to Joseph S. Waream, for drilling the members so heartily and effectively.

The Economy of Health.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at \$2 a day, and their annual loss by sickness at an average of ten days in the year—this gives a total loss of \$240,000,000, or three times as large as the whole cost of the Government, including the Army, Navy, Post Offices, Legislators, Foreign Ministers and all. The amount weighs over six hundred tons in pure gold.

THE MILITARY.—On Thursday last Captain Lathur's Milroy company arrived in town and in the afternoon took the cars for Harrisburg, being escorted to the station by Col. Irwin's Regimental Band, under the leadership of Charles Caughling, Jr., of Newton Hamilton, Captain Zollinger's company, and the Slemmer Guards, who now parade with the Minnie muskets lately held by the Logan Guards.

The Cameron Guards of Boalsburg, Centre county, Capt. Boal, arrived here last evening, and will depart for Harrisburg to day.

PICTURES.—J. Smith & Son are again open at their old stand, over door south of the Town Hall, and with their fine light, are prepared to furnish ambrotype and photographic pictures, and guarantee satisfaction.

TEACHERS' INSTITUTE. The daily exercises of the Institute during its second week were similar to those of the first week and in continuation of them. Very satisfactory progress was made in all the subjects taught, and the attention and interest of the teachers were undiminished till the end.

Tuesday evening Prof. M. J. Smith delivered an interesting and able lecture, mainly upon "government," in which he suggested many valuable and practical ideas. He showed that while some professions have interests antagonistic to the general welfare of society, the teachers' interests are always identical with those of society and their efforts directly promotive of society's highest welfare and prosperity.

Thursday evening A. Smith, County Surrogate, lectured on the "Worth of Man." He ranked men in four classes, namely: those who worship and serve their bodies; those who possess energy, force of character, clear mind and strong will; those who prize intellectual culture for the grace it gives; and those who incline to live monkish lives, doing little for mankind very religiously.

Resolved, That the members of this institute heartily endorse the action of the Pennsylvania Teachers' Association relative to the purchase of a cannon to be presented to the Federal Government for the crushing of the present rebellion, and we pledge ourselves to do our share towards effecting this object.

Counties, Soldiers' Pay, Etc. The acts of the late session in reference to bounties, pay, &c., of soldiers, appears not to be generally understood.

1. By acts of the late Congress all bounties for enlistment were abolished, as well as the two dollar fee for bringing recruits to the rendezvous for enlistment.

2. For the first re-enlistment in the regular Army, the soldier is to receive two dollars per month in addition to his former pay, and one dollar for every subsequent enlistment.

3. Soldiers who now enter the service, either as regulars or volunteers, "for the war," and serve out their enlistment, shall, with their discharge, receive one hundred dollars bounty, or that amount will be paid to the legal representatives of such as die or are killed in the service.

4. After the 6th August, 1861, privates who receive eleven dollars will receive thirteen, and those who formerly received twelve dollars will also receive thirteen—privates and corporals receive the same pay—but no other change is made in the pay of non-commissioned officers, musicians, or artificers.

5. By the increase in the privates pay, the allowance of every officer who has a servant is increased thereby—either twelve or twenty-four dollars per year for each servant he is entitled to.

NOTE.—There is no authority for the offer of \$30 now made as an inducement to enlist. The additional bounty providing for enlistments at distant points is also abolished.—The fee for administering the oath is abolished; that duty is hereafter to be performed by a commissioned officer.

Edward Everett on the Rebellion. It is well known to you that I sustained the South at the almost total sacrifice of influence and favor at home, as long as I thought she was pursuing constitutional objects.

I certainly deplore the choice of a President exclusively by the electoral vote of one section of the country, though consenting with the greatest reluctance to be myself upon one of the opposing tickets.
