Government Taxation

It seems to us a great error was made by our legislators at Washington in increasing the duty on coffee, as between the duty and those public sharks, speculators, the prospect is that its consumption will be so materially lessened as in the end to yield less revenue at five cents per pound than if the duty had been 2 or 21. In this county-and we are informed it is the same case over the State-the consumption of that article has already decreased one hundred per cent, seven out of ten using onediscarding coffee altogether by substituting and those cereals. And what is most strange, we hear on all sides that heretofore inveterate coffce-drinkers declare that the mixed article is equal, and with others better, than the pure! Now whether it is so, or only imaginary, it is self evident to any discerning mind that a duty calculated, with the operations of speculators, to enhance the price of an article we cannot produce in this country beyond what the people are willing to pay, must result in its partial ex clusion from use, and consequently limited revenue. There are also other causes which until removed by a strict blockade of the Southern coa t, will keep up the price in the West Indies and South America. At a recent auction sale in Savannah, Geor gia, the eargo of a vessel which had elu ded the blockade, brought 66 cents a pound by the quantity, being at least three times the price on the northern seaboard. Consequently if a British, Spanish, or other merchant in the West Indies, should lose two cargoes, but succeed with a third in reaching a rebel port, he would still be a gaine: A vigorous blockade would soon cure this part of the speculation, and they would be glad to ship their coffee to open ports; there met by a moderate duty it would increase the demand and the government realize a handsome revenue.

Another error we think was committed by not at the start taxing liquors of all descriptions. Thus an excise duty of 25 or 50 cents per gallon on whisky and oth er liquors distilled or manufactured for sale in this country, would produce far more revenue than will ever be derived from coffee or tea. It would besides aid more effeetually in producing a moral revolution among those who now are daily endangering life and health by the intemperate use of liquor than any measure ever adopted. Even should it lessen the manufacture materially, it could still be made to yield au immense revenue -probably as great as that derived by Great Britain from tobacco, which, if we remember rightly, amounts to thirteen millions of dollars annually. Let the experiment then be made, and let every paper in the land ring into the ears of members of Congress, TAX WHISKY! It will harm no one, and do, what perhaps whisky never done before, some good.

As is generally the case, we furnished our citizens with the first copies of the Governor's message, and on Thursday supplied our subscribers over the county .-The document is an able one, and gives a clear exposition of the affairs of the State, as well as of the proud position we occupy in putting down the infamous rebellion got up by Davis and his Breckinridge coadju-

TERRIBLE TRAGEDY .- On the 18th ult., we learn from the Democrat, near Newton Hamilton, (but in Huntingdon county,) Robert Bell, (son of Samuel,) was instantly killed by the discharge of a rifle in his own hands. It seems he desired to know whether the gun was loaded, and adopted the foolish expedient of pressing his foot on the hammer and blowing in the muzzle. The hammer slipped and discharged the load, driving the ball through his brain .-He was about 18 years of age.

WAR NEWS.

The United States steamship Pensacola, which left her anchorage off Alexandria on Saturday morning, proceeded to Indian Head about twenty seven miles from Washington, where she remained until between five and six o'clock next morning, and then started to run the rebel blockade, which she did with entire safety. Twenty two shots were fired at her, but none struck. She did not return the fire. She was heavily laden with cannon and other appliances of war, and fully prepared for hostile service The safe departure of the Pensacola is a general subject of congratulation, as it is known that the rebels In the Senate on the 9th, Mr. Hale prehave been, for weeks past, reserving their fire, in order either to destroy this vessel or prevent her passage out of the Potomac river.

The Legislature of Ohio organized on Monday. The Governor, in his message, gives the number of Ohio volunteers at 77,844, of which 45,985 are serving beyond the limits of the State; it is estimated that 10,000 ad ditional citizens of Ohio have enlisted in oth er States. The Governor dissents from Sec retary Chase's plan of a national currency .-He deprecates immediate emancipation, but thinks the war will cause the ultimate ex tinction of slavery.

The Message of the Gevernor of New York says that the State has furnished, including resolution allowing tea, coffee and sugar in three months' men, 120,575 soldiers for the bond at the time of the passage of the act war, of which number 89,000 are now in the field, and 14,500 in the State preparing for

General Kelley's forces have again distin guished themselves. A portion of his brigade left Romney on Tuesday a week and at daylight next morning attacked the Rebels, who were posted two thousand strong at Blue Gap, east of Romney. The Rebels were completely routed, with a loss of fifteen killed, twenty prisoners, two pieces of cannon, wagons, tents, &c. From Western Virginia we also learn that a Rebel force in Tucker county have been dispersed, several prisoners ta ken, their stores captured, and the pursuit still kept up.

Gen. Sigel has resigned his position in the army; and we learn from a St. Louis paper that this is to be followed by the resignations of purchase money, was troadly characteriz- of other officers attached to him, who think he has been unjustly treated in being superseded in the command of the army of Rolla

We learn that the gunboats Essex, Lex ington and Tyler, made a reconnoissance down the Mississippi river to a point within two miles of Columbus on Tuesday morning. They went within two hundred yards of the range of the Rebel batteries, and on returning were fired upon by the Rebel gunboat Mohawk, but her shots all fell short. The reconnoissance was considered highly satisfactory, as all the points on the river were accurately examined.

The Confederate war tax is so odions in the Norfolk district that no one will accept the office of Collector. A saw mill in the Norfolk Navy Yard was fired by an incendiary on Sunday last, but soon extinguished .-Judge Hemphill, ex-Senator of the United States, and member of the Confederate Congress, has died at Richmond.

Advices from Springfield, Missouri, of last week's date, state that Price and McCulloch were both there, with twenty thousand men and forty six pieces of artillery. They were apprehensive of an advance upon the place by the National troops, and the Secession Home Guards in the surrounding counties had been ordered to report to Price at Springfield for service. Col. Montgomery, of Kansas, was at Bower's Mills, in Lawrence county, a por tion of his troops being at Carthage, Jasper county. He had raised the Union flag at Mount Vernon, Lawrence county, and threat ened to burn the town if the inhabitants per

mitted it to be torn down. During Saturday night the most of the vessels composing Gen. Burnside's expedition quietly left Hampson Roads, and the remainder were departing during Sunday lico Sound. It may there operate against Norfolk, from the rear, or against Beaufort and Wilmington, North Carolina. A few tion and object of the expedition.

An order was received in Boston on Monday for the debarkation of the troops belonging to Gen. Butler's expedition, who were on board the Constitution. This order was, on Saturday, countermanded, and the steamer was ordered to proceed to Fortress Monroe with the troops and stores, there to await further orders. It was expected she would sail yesterday.

The President, it is reported, will decline to receive Gen. Sigel's resignation, deeming him too valuable a soldier to lose, if it is possible to prevail upon him to remain in the service.

By an arrival at New York from Nassau we learn that on the 29th ult. the British ship-of-war Conqueror, 101 guns, struck on a sunken rock on the east side of Rum Key, and when last heard from the rock had pierced five feet through her bottom. The frigate Bull Dog had gone to her as-

The Louisville Journal discredits the report of the disbandment of Humphrey Marshall's rebel force.

From the Upper Potomac we learn that the rebel force had returned from Romney without making any attack there, and had again appeared opposite Hancock. They are supposed to be returning toward Winchester.

For the Gazette. Mifflin County Justice vs. School Teach ers.

Mr. Editor :- The verdict of the County Court held last week, in the case of Robert Sterrett, a teacher, seems worthy of the at-tention of all who are in any degree interested in the prosperity of Common Schools. To me it is utterly astonishing, that, with a knowledge of the facts, any jury would crim inate the teacher and compel him to pay half the cost of a trial into which a petty vindie tiveness had forced him. It was conclusive y proved .- by the testimony of the very girl whom the teacher had corrected, that force was resorted to only after the pupil had re fused to obey a very simple and reasonable direction, namely, to go forward and snell wird missed when in the spelling class; that it was continued only so long as she stubborn ly refused obedience, and as soon as she obeyed, the teacher immediately ceased to correct her. To be sure, the lawyer who pleaded the cause of the girl, indulged in the use of op probrious epithets toward the teacher, calling his conduct "brutal" and all that; but this must have been the product of an over stimulated imagination, or perhaps was only a pro fessional exaggeration, for no extraordinary severity was proved to be employed.

And yet the teacher must virtually be fined to the extent of half the costs, for what? If any one can give a satisfactory answer, scores of teachers and hundreds of intelligent citizens would be most glad to hear it. As it now stands, it is a pecuniary prohibition to every teacher of a common punish a pupil for any offence. It virtually ties the hands of teachers so that they can use only persuasion, and not wholesome fear, to secure obedience from scholars of any character. Doubtless it was not so intended by the jurors who gave that verdict, but is it not unquestionably so in fact? What teacher will avail himself of the salutary aid of corporal punishment, at the rate of \$25 for every case?

Is it the candid opinion of the people of this county that teachers must not correct their pupils under any circumstances? If not, shall teachers be hindered from performing their duty for fear some quarrelsome or weak-minded parent will prosecute them, and a jury composed of citizens will either convict them of assault and battery, or com

pel them to pay half the cost? This matter needs intelligent consideration; my cheeks tingle with shame, that in this county such a verdict, under such circum-

stances, could be given. JUSTICE.

Gen. Simon Cameron has resigned his post as Secretary of War, and has been nominated Minister to Russia. His successor is Edwin M. Stanton, formerly of North Carolina.
