### LOCAL AFFAIRS.

We have had some pleasant weather since our last, and but for the white mantle of snow still covering the mountains below us, from base to top, would say that spring build fortifications. has fairly opened.

A sword, duly labeled, was present ed to Captain Eisenbise on Saturday evening last by the Slemmer Guards. Lieut. Hoover made the presentation address.

Mr. Aaron Riden's team ran away on the Reedsville pike, between the two bridges, on Saturday last, killing one and injuring another horse, breaking the wagon, and scattering a considerable quantity of wheat.

THE LOGANS .--- A recent tramp of four companies of the 46th under Major Matthews, among which was company A, is thus described in the Harrisburg Telegraph :

The night was very dark, and rain began to fall before they left the camp. After marching through mud shee mouth deep, and in many places to their knees, they arrived, about an hour before daylight, on the Potomae, at a point called " Sir John's Run," six miles from their present camp. The men after they halted, suffered severely from the cold, as no fires were permitted to be made until the day had dawned. After several hours' rest, they crossed in a flat to the Virginia side. Here they found two companies of the Sixty-second Ohio regiment encamped, gnarding a bridge, which had been lately erected in place of one burned by the rebels on the 3c of Jan uary last.

Information had been received that several companies were on their march, via Bath, to destroy the present structure so lately built, and to prevent their approach the detachment was so suddenly called out. They arrived in Bath, about two and a half miles back of the river, and there learned that several companies, which had been encamped beyond there on the Winchester road, pulled up stakes and made a hasty retreat on their approach. They returned to camp that night, taking a different road home, and crossed the river opposte Hancock, seven or eight miles from Bath.

13 A correspondent sends us the following relative to a ver" small matter which recently occurred in the Lutheran church:

of war news, much of which however is. in a crude state. Enough is certain to say that the rebels are falling back, having evacuated Columbus in Kentucky, the Potomac river batteries, and Manassas, and that our troops are advancing on all sides. Whether the retreat of the rebels is owing and two o'clock, and by that time the Minne to the movements of our troops, to disaffeetion among themselves, or for the purpose of concentrating the whole band of traitors into one army, cannot yet be determined. Blows ought to be struck fast and thick, and no time given them to erect murderous batteries, concentrate army stores, or

We have stirring news from New Madrid, the greatest delight at the prospect of an ac Missouri. Gen. Pope's forces have reached that place, and commenced an attack on the rebel strongholds. The rebels are in large force there, and have several gunboats help ing them, but as Com. Foote's fleet has gone down to the scene of operation, it is probable that they will not be allowed to do much damage to our forces. If the rebel gunboats are driven off, we may expect to hear of another large capture of prisoners, as Gen. Pope's army has them surrounded so that they cannot retreat by land, while Com. Foote will attend to them by water.

Reports from Memphis state that the peo ple of that city are greatly alarmed, although they expect that Forts Randolph and Pillow will be able to protect the city from the attacks of the Federal troops. The Legislature. after several ineffectual attempts to organize, had scattered and gone in various directions. Gov. Harris is said to be greatly exci ted, in consequence of the failure of his efforts to enlist more men for the rebel cause. The people have turned the cold shoulder to wards him, and he does not find as much sympathy as he did before the evacuation of Nast ville.

Columbus. Ky., has been occupied by the United States troops. So ends all the boast-ed impregnability of the rebel works. Com. Foot telegraphs to the Navy Department that he captured there a large number of guus duced. and carriages, ammunition and stores, shot and shell, the chain cable stretching across the river, and a large number of torpedoes. Official Despatch from Gen. Halleck.

Sr. Louis, March 10 .- The following is an ficial despatch to Major General McClellan, Washington : The sriny of the southwest, under General

Curtis, after three days hard fighting near Sugar Creek, Arkansas, has gained a most glerious victory over the combined forces of Van Dorn, McCulloch, Price, and McIntosh. Our loss is estimated at 1,000 killed and rounded. That of the enemy is still greater Guns, flags, provisions, &c., have been cap tured in large quantities.

Our Cavalry are in pursuit of the flying epemy.

H. W. HALLECK, Major General Commanding.

On Saturday, our forces entered the with colors flying and bayonets fixed, town and immediately took possession of Forts Johnston, Benuregard and Evans. besides capturing a number of prisoners and a quantity of army stores. While our troops wers approaching the town, the rebels could be discerned through a glass in full retreat.

# FROM COM. DUPONT'S FLEET.

BALTIMORE, March 10. The United States steamer Alabama, Capt Lauier, arrived here this morning, direct from Fernandina, Florida, bringing Capt. Davis, late flag officer of the South Atlantic squadron, as bearer of despatches from Com. Du pont to the Navy Department, announcing the capture of Fernandina and Brunswick by the fleet under his command.

flag. She appeared to be very low in the wa-The city papers are filled with a variety f war news, much of which however is like the roof of a house. At her bows, on the water line, were two sharp iron points, re sembling ploughs, aboutsix or seven feetapart. Her number of guns is stated at twelve, but she might not have had so many at her bows. Two guns were seen projecting from her elip. tical port holes. The design of the enemy sota had got under way for the scene of action.

The Roanoke flag ship having been disabled by the breaking of her shaft some time since was taken in tow by the tug boats Dragon and Young America. At about the same time the alarm gun of the fortress was fired and the whole garrison turned out under arms.

The 10th New York regiment was briefly addressed by Col. Bender and all testified

After being under orders for some time the garrison was dismissed until they should be wanted.

The rebel boats steadily pursued their way to Newport News, and the Merrimac soon turned the point and was lost to view from the fortress.

The first shot was fired from the frigate Cumberland at a little past 2 o'clock. The Sewell.s Point battery then opened upon the Minnesota which was passing, and the Sawyer gun at the Rip Raps replied with a few shots at Sewell's Point. A thick smoke was soon seen to arise above Newport News Point, indicating that the battery there, as well as

the Cumberland and Congress, was engaged. The details of action could not be seen from the Fort, but a telegraphic dispatch was received announcing that the Cumberland and Merrimac were in close quarters. As the latter approached the Cumberland she did not pay any attention to the Congress, but after firing two guns struck the Cumber land with her sharp bows, making a jagged hole in her side at the water line, seven feet in extent. The Cumberland immediately commenced to sink, when the Merrimac, backing a short distance, run into her a second time, making another terrible hole which admitted the water at a furious rate. She continued firing until the water began to en tor her port holes, aud soon after she careen ed over slowly and finally sunk at about 3 o'clock.

The Newport News battery and the guns of the Cumberland fired continuously upon the Merrimac, but no apparent effect was pro

The Minnescta unfortunately got aground on the way up, and could offer but little as sistance.

Shortly before three c'clock the Jamestown and Yorktown arrived from up James river. The latter was disabled early in the afternoon by the Cumberland, and put in shore for re pairs. After sinking the Cumberland, the Merrimac turned her attention to the Congress, and in less than an hour afterwards a white flag was hoisted on board the latter. The Confederate gunboat immediately went along side her, the officers and marines being taken prisoners, the seamen were allowed to escape to shore.

The United States frigate St. Lawrence arrived here during the afternoon, and without dropping anchor proceeded up the river. She followed the example of the Minnesota and the Roanoke, in firing upon Sewell's Point, but like the others, the shot fell short. The gunboat Mystic was also towed up in the afternoon.

At sundown the Roanoke, St. Lawrence and

Mystic, all returned. After 4 o'clock, the Merrimae continued to throw shell into the camp at Newport News, while the Jamestown and other confederate gunboats commenced firing upon the Minne sota. The latter replied as vigorourly as pos sible, and the conflict was continued without any apparent effect until dark. During the evening the Congress was set on fire, and made a brilliant spectaele; at midnight she was blown up with a tremendous explosion.

During the evening the Monitor arrived ery opportunely, and at once proceeded the river, although not prepared for action, to take her part. During the night only an oc casional gun was fired. Reinforcements of men and ammunition were sent to Newport News early in the after noon. But little serious damage was done there, and no one was killed. This merning the conflict was renewed, until the presence of the Monitor was known to the Merrimac. The latter was engaged with the Minnesota, and but for the fortunate arrival of the Mon-iteur, the Minnesota might have been lost. The two iron-clad vessels engaged each other for two or three hours, at long and at short range. No perceptible effect was produced upon either. They went alongside once or twice, and scemed almost to run each other down, but they soon reappeared. The Erricson battery succeeded finally in forcing a large hole in the port side of the Merrimac, and with the whole confederate fleet, she then retired to Norfolk. At about 1 o'clock the U. S. gunboat Oregon was struck by the Merrimac in her boiler and was blown up. This morning the gunboat Zouave was also seriously damaged and was obliged to return. The principal loss of life was on board the Cumberland, where it is thought as many as one hundred and fifty must have been killed or drowned. But six lives were lost on the Minnesota, according to the report of her officers. A rebel gunboat was cut in two yesterday afternoon by the Cumberland. The crew of the Minnesota were brought on shore this afternoon, and with the assistance of the Spaulding she has been got off, and is now on her way here. She received numerous shots, but no serious damage. The Congress is supposed to have lost over one hundred, including but one officer. The escaped crews of the Congress and Cumberland have arrived here. The Monitor has come up to the expecta tions that we entertained of her, and has proved herself impregnable to the heaviest shot at close quarters. She behaved remar kably well on her passage from New York. and although the sea covered her decks cam pletely at times, her speed did not seem to be at all diminished. To her presence here may be attributed the safety of the Minnesota and other vessels in port, and the final disabling of the Merrimac, which had previously been proof against everything. Captain W of the Monitor, was wounded in the head while looking out of the wheelhouse. No other accident of any kind occurred to the battery or crew. We have not yet any list of the killed and wounded.

The Jug .- The jug is a most singular The Bagle Calls ! The War has Begun ! utensil. A pail, tumbler, or pitcher, can be rinsed, and you may satisfy yourself by optical proof, that it is clean; but the jug has but a hole in the top, the interior is all darkness. No eye penetrates it, no hand moves the snrface. You can clean it only by putting in water, shaking it up and pouring it out. If the water comes out clean, you judge you have succeeded in cleaning the jug and vice versa. Hence the jug is like the human heart. No mortal can ever look into its recesses, and you can judge only of its purity, by what comes out of it

ated to conv v a false impression abroad Webster defines "emeute" to be "a seditious ommotion or a mob;" and as those at a dis tance, or school children, meeting with this formidable heading, would naturally inquire what the word meant, the impression would remain that something of the kind had really taken place. The truth is, beyond a looking round to see what was the matter, some wonder why the choir did not sing, and a general commenting on the conduct of the leader after the services, there was nothing to justify the transaction being called even an ordinar disturbance. The editor either drew largely on his imagination in calling it by that name, or did not know the meaning of the word. ARGOS.

BLAIR COUNTY .- We copy the follow

ing items from the Hollidaysburg Register :

On one of the cold nights last week, an aged man in crossing the R. R. bridge near Mr. Bouslough's, lost his balance, and fell down some twelve feet into the deep water below. After floundering in the water and ice for some time, he caught held of one of the piers, where he hung for three hours with his head just above water. A young man returning home about 11 o'clock heard his screams, and rescuing him from his perilous condition, took him to a neighboring house, and had him cared for. By morning the man was revived sufficiently to proceed on his way to the moun tains, thankful for his miraculous deliverance.

Sudden Death -- Mrs. Foust, wife of Jacob Foust of Gaysport, while attending the funer al of Miss Amy Rollin, and as the procession was crossing Walnut street, fell on the pave ment, and immediately expired. She was ta-ken into the house of Mr. Jno. Bollinger, where every means to restore consciousness was resorted to, but without effect, the vital spark having fled.

Dwelling House Burned .- During the high wind of last week, the dwelling house of Mr. Wm. Burkhart, in Allegheny tp., was entire-ly consumed by fire. The wind had blown the tin fender lose from the roof, and the store pipe falling against the shingles commu nicated fire to the roof. The inmates saved but a few articles of household goods: the remainder was entirely consumed, including about a thousand weight of pork. Mr. Burkhart is absent in the army, and the loss bears heavily upon his family, and they will require the assistance of their friends.

Another Fire .- We have just learned that the Stere House at Blair Furnace was burned last week, with all its contents. It is not known how the fire originated, as the clerk had been careful to extinguish all traces of fire before closing the store at night. This is the second loss sustained by the proprietor of Blair Furnace, within a short time, and leads to the suspicion that there is an incendiary

lurking about the neighborhoed.

We are indebted to Capt. Davis for an out line of the operations of the fleet since it left Port Royal.

About the first of March, on what was an nounced as an important expedition, the place of destination having been held back at the request of the Government, the first point of coast approached was Brunswick, Georgia .--The enemy abandoning their works, and fleeing at the approach of the gunboats, it was taken possession of and the gunboats left in charge. This gives the Government the control of the whole coast of Georgia, from South Carolina to Florida.

Brunswick being disposed of, the fleet mored twenty miles further, to Cumberland Sound, the entrance to the harbor of Fernandina, Florida. The fleet entered Cumberland Sound in the following order: The Mohican, flag ship, of Com. Dupont; the Ottawa, the Seminole, the Pawnee, the Flag. the Bienville, the Alabama, the James Adger, the Florida. the Senecs, the Huron, and the Pembina .-They were followed by the small armed steam ers, Isaac Smith, Pottowski and Penguin.

When the expedition came in sight of Fort Clinch, the rebels were discerned making a hasty flight, and fired two or three random shots from the barbett guns of the Fort. The shells of the fleet caused a hasty evacuation, and Fort Clinch was immediately taken pos-session of, and the flag of the Union raised on the old staff, which has been so long disgraced by the traitors colors.

This is the first of the old southern forts of the Union that has been recovered since the proclamation of the President, declaring that they must all be restored to the Union

## TERRIBLE NAVAL BATTLE.

### Loss of two Frigates.

FORTRESS MONROE, March 9.

The long expected rebel steamer Merrimac has at last made her appearance, and yesterday afternoon, with the assistance of two gun boats, which came out with her from Norfolk, aud the Jamestown and Yorktown, which came down from the James river, made an attack upon Newport News and the naval vessels stationed at that place.

The Merrimac was first seen from the ramparts of Fortress Monroe, on her way to New port News, at about a quarter before one 'clock.

The rebel gunboats followed her. They all carried the Confederate flag at the stern.

The gunboats had a French flag at their mast head, and the Merrimae had a flag at her bows, which was described by some as a commodore's blue flag, and by others as a black The noa-arrival of the Eastern train this

morning compels us to go to press without a full confirmation of the evacuation of
