RECIPES.

From Godey's Lady's Book. To Clarify Sugar .- Take the quantity of fine white loaf-sugar you intend to clarify, add to it of very clean warm water half a pint for every pound; when dissolved, add to it the white of one or two eggs, as the quantity may require, well whipped, put on the fire, and when it comes to a boil, pour into it an ordinary teacupful of cold water; on its rising again to a boil, remove it, and let it settle for twenty minutes; skim the scum from the top, pour off the syrup into a clean vessel with sufficient quickness to leave all the sediment at the bottom, and much steadiness as to prevent any of the latter rising and mixing with it.

To Preserve Strawberries .- To two pounds of fine large strawberries, add two pounds of powdered sugar, and put them in a preserving kettle, over a slow fire, till the sugar is melted; then boil them precisely twenty minutes, as fast as possible; have ready a number of small jars, and put the fruit in boiling hot. Cork and seal the jars immediately, and keep them through the summer in a cold, dry cellar. The jars must be heated before the fruit is poured in, otherwise they will break.

To Preserve Strawberries or Ruspberries for Cream or Ices Without Boiling .-Let the fruit be gathered in the middle of a warm day, in very dry weather; strip it from the stalks directly, weigh it, turn it into a bowl or deep pan, and bruise it gently; mix with an equal weight of fine, dry, sifted sugar, and put it immediately into small wide-necked bottles; cork these firmly without delay, and tie bladders over the tops. Keep them in a cool place, or the fruit will ferment. The mixture should be stirred softly, and only just sufficiently to blend the sugar and the fruit. The bottles must be perfectly dry, and the bladders, after having been cleaned in the usual way, and allowed to become nearly so. should be moistened with a little spirit on the side which is to be next the cork

Strawberries Stewed for Turts .- Make a syrup of one pound of sugar and a teacup of water; add a little white of eggs; let it boil, and skim it until only a foam rises; then put in a quart of berries, free from stems and hulls; let them boil till they look clear, and the syrup is quite House thick. Finish with fine puff paste.

Raspberry Jam - Weigh the fruit, and add three quarters of the weight of sugar, put the former into a preserving pan, boil and break it, stir constantly, and let it boil very quickly; when the juice has boiled au hour, add the sugar and simmer half an hour. In this way the jam is superior in color and flavor to that which is made by putting the sugar in at first.

Raspberry Wine .- Bruise the finest ripe raspberies with the back of a spoon, strain them through a flannel bag into a stone jar, allow one pound of fine powderstone jar, allow one pound of fine powder-ed loaf-sugar to one quart of juice, stir ly finished sets of light Harness equal to any these well together, and cover the jar closely; let it stand three days, stirring the mixture up every day, then pour off the experienced workmen, give him a call. clear liquid, and put two quarts of sherry JOHN DAVIS. clear liquid, and put two quarts of sherry to each quart of juice or liquid. Bottle it off, and it will be fit for use in a fortnight. By adding Cognac brandy instead of sherry, the mixture will be raspberry brandy

Currants Preserved .- Take ripe currants, free from stems, weigh them, and take the same weight of sugar, put a teacup of sugar to each pound of it, boil the syrup until it is hot and clear, then turn it over the fruit; let it remain one night, then set over the fire, and boil gently until they are cooked and clear; take them into the jars or pots with a skimmer; boil the syrup until rich and thick, then pour it over the fruit. Currants may be preserved with ten pounds of fruit to seven of sugar. Take the stems from seven pounds of the currants, and crush and press the juice from the remaining three pounds; put them into the hot syrup, and boil until thick and rich; put it in pots or jars, and the next day secure as directed.

Current Jelly .-- Pick fine red, but long ripe, currants from the stems, bruise them, and strain the juice from a quart at a time through a thin muslin, wring it gently to get all the liquid, put a pound of white sugar to each pound of juice, stir it until it is all dissolved, set it over a gentle fire, let it become hot, and boil for fifteen minutes, then try it by taking a spoonful into a saucer; when cold, if it is not quite firm enough, boil it for a few minutes longer.

Currant Wine .- Dissolve eight pounds of honey in fifteen gallons of boiling water, to which, when clarified, add the juice of eight pounds of red or white currants ; then ferment for twenty-four hours; to every two gallons add two pounds of sugar, and clarify with whites of eggs.

Gooseberries .- Put one quart of red eurrant juice to five pounds of loaf-sugar; set it on the fire, and when the sugar is dissolved, put in eight pounds of red, rough, ripe gooseberries, let them boil half an hour, then put them into an earthen pan and leave them to stand for two days; then boil them again until they look clear; put them into pots and let them stand a week to dry a little at the top, then cover them with brandy papers.

Cherries Preserved .- Take fine large cherries, not very ripe; take off the stems, and take out the stones; save whatever juice runs from them; take an equal weight of white sugar, make the syrup of a teacup of water for each pound, set it over the fire until it is dissolved and boiling hot, then put in the juice and cherries, boil them HAY Forks, Rope and Tackle Blocks, at my7 F. J. HOFFMAN'S.

gently until clear throughout; take them from the syrup with a skimmer, and spread them on flat dishes to cool, let the syrup boil until it is rich and quite thick; set it to cool and settle, take the fruit into jars and pots, and pour the syrup over, let them remain open till the next day, then cover as directed. Sweet cherries are improved by the addition of a pint of red currantjuice, and half a pound of sugar to it, for four or five pounds of cherries.

To Preserve Rhubarb .- To one and a quarter pounds of Rhubarb add one pound f sugar, half an ounce of bitter almonds, blanched and chopped very fine; boil all together rather longer than other fruit, or till it well set firm. If the fruit is quite young, the sticks should be peeled, being first wiped quite dry.

CATHARTIC PILLS

OPERATE by their powerful influence on the O internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other late it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the hearthurn, bodyburn, and soulburn of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a Foul Stomach, or Morbid Inaction of the Bowels, which produces general depression of the spirits and bad health, take from four to eight Pills

For a Foul Stomach, or Morbid Inaction of the Bowe's, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervousness, Sick Headage, Nausea, Pain in the Stomach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

For Scrofula, Erysipelas, and all Diseases of the Skin, take the Pills freely and frequently, to

For Scropula, Ernstfells, and all Diseases of the Skin, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

of the unclean diseases of the skin, because your system wants cleansing.

To Purify the Blood, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, and all Bilious Affections arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow bille to store cause. Integestor is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhœa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow: sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three

or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, and all Inflammatory Fevers are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

Such as Indigestion, Acidity of the Stomach, Colicky Pains,
Heartburn, Loss of Apportite, Despandency, Costiveness,
Blind and Bleeding Piles. In all Nervous, Rheumatic, and
Neuralgic Affections, it has in numerous instances proved
highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated
Holland Professor, Borhave. Its reputation at home produced its introduction here, the demand commencing with
those of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. It is now offered
to the American public, knowing that its truly woonderful
medicinal wirtuse must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seat
of life, thrilling and quickening every nerve, raising up the
dropping spirit, and, in fact, infusing new health and vigor
in the system.

NOTICE.—Whoever expects to find this a beverage will
be disappointed; but to the sick, weak and low spirited, it
will prove a grateful aromatic cordial, possessed of singular
remedial properties.
