Seedling Strawberries.

Mr. Fuller, of Long Island, recently gave an interesting account of his labors in procuring seedlings. He said:

In attempting to produce a new variety of strawberries from seed, it should first be decided what are the qualities desired, and then, by selecting two varieties that possess these qualities as near as may be, and by fertilizing one with the other, we can come nearer to the object in view than we could by sowing seed collected indiscriminately from varieties not properly fertilized.

For instance, let us take the Wilson, which is very prolific, quite large, and firm, but is rather acid, and too dark color, with a calyx that does not part readily from the berry, and the Peabody, which is not prolific, though large, and is of superior color, and sweet, and has a calyx that parts read-

Now, let us place these two varieties at some distance from other varieties, but in close proximity to each other, so that they can be the more readily operated upon .-When they come into bloom we remove the stamens from as many flowers as desired, and then with a fine camel's-hair pencil take the pollen from the other variety, and dust it over the pistils of the flower from which the stamens have been removed. It is well to place a fine netting over the plant operated upon, to prevent insects from fertilizing it with pollen from inferior varieties.

The flowers should have the pollen applied several times, a few hours between each application, so that the fertilization shall be complete. It is well to use both varieties as parents, and fertilize the Wilson with the Peabody, and vice versa, as it cannot be determined which will produce the best until proved by actual experiment. I do not mention the Wilson and Peabody believing them to be the best to raise seedlings from, but only to illustrate the principle. From my own experiments with them I have been somewhat disappointed, for nine tenths of the seedlings from the Wilson fertilized by the Peabody were more acid than the parent, although I succeeded in getting the color, and some of the other characteristics of the Peabody. But using the Peabody as the parent, I have had better success-getting a better colored berry, sweeter, and some plants that were quite prolific, with almost invariably the longneck, which is a peculiar characteristic of the Peabody.

Any two varieties of the same species, or two distinct species (unless too far removed, like the Alpine, which I believe sale by will not hybridize with any of the others,) may be brought together and valuable varieties grown from the mixture.

But it must be remembered that the varieties now in cultivation have been so mixed and cross-fertilized that it is almost impossible to get a true cross between any two varieties.

The effect of fertilization of previous generations will sometimes show itself when and where least expected. Sometimes the best results will be obtained by merely sowing seeds of any good variety, trusting to its inherent good qualities being transmitted to the offspring.

From the Austin I have got seedlings all of which resembled the parent, but were inferior; and I have noticed that all of this class, such as the Downer, Iowa, Charlton, Georgia, Mammoth, &c., are very likely to produce varieties no better than the wild Western berry from which they evidently all originated. It is very easy to get a large variety from this class, but seldom a good one. From the Bicton Pine I have grown large, sweet orange-colored fruit, but, like the parent, unproductive.

From the Oscar, which is a poor grower, I have produced fine growers, and those that were moderately prolific; but the fruit was sweet and dry.

The results of some of my experiments are exceedingly curious, such as producing five distinct varieties from the Bartlett, all of which had entire leaves, not lobed. They were very similar to those described by Duchesne as raised by him at Versailles in 1761, and called the Monophylla, it being just 100 years (so tar as I have been able to learn) since the first one-leaved strawberry was grown until the second was fruited by me in 1861. But neither were of any value, except as a botanical curiosity.

From the Iowa I produced a five-leaved variety, and one with leaves having a beautiful silver stripe, but of no value to the cultivator.

To Measure Haystacks.-Says an old farmer, 'More than twenty years since I copied the following method for measuring hay, from an old publication, and having verified its general accuracy, I have both bought and sold by it, and I believe it may be useful to many farmers where the means of weighing are not at hand. Multiply the length, breadth and height into each other. and if the hay is somewhat settled, ten solid yards make a ton, Clover will take from ten to twelve solid yards per ton.'

which will be sold very low. But above all things bear in mind that our terms are strictly Cash, for at our prices we cannot afford to charge. All goods to be paid for before taken away, and in all cases where they do not suit the money will be refunded, should they be

CATHARTIC PILLS

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Amexed we give Directions for their use in the complaints which they have been found to cure.

For Costiveness.—Take one or two Fills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

For Dyspersia, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the heartburn, bodyburn, and southarm of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a FOUL STOMACH, or Morbid Inaction of the Bowels, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

For Nervousness, Sick Headache, Nauspa, Pain in the Stomach, Back, or Side, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

F

For Scrofula, Erystfelas, and all Diseases of the Skin, take the Pills freely and frequently, to keep the bowels open. The cruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To Purify the Bloon, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

Liver Complaint, Jaunnier, and all Bilium.

LIVER COMPLAINT, JAUNDICE, and all Bilious

LIVER COMPLAINT, JAUNDICE, and all Bilious Affections arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhea, prevails. Feverish symptoms, languor, low spirits, weariness, afternately costiveness and diarrinea, prevails, Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to billous fever, billious colie, billious discrebed desember. As a medium does of three discrebed desembers. diarrhea, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, and all Inflammatory Ferrors are remidly every the profession of the processor.

respectively. Gott, and all replanmatory revers are rapidly cured by the purifying effects of
these Pills upon the blood and the stimulus which
they afford to the vital principle of Life. For these
and all kindred complaints they should be taken in
mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

PREPARED BY

DR. J. C. AYER & CO., Practical and Analytical Chemists, LOWELL, MASS., AND SOLD BY

Charles Ritz, Lewistown, Jacob Metz, Allenville, H. S. McNabb & Co., Belle ville, Mrs. Brehman, McVeytown, J. Strode, Strode's Mills, and by Dealers everywhere.

BERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND.

FEVER AND AGUE. And the various affections consequent upon a disordered STOMACH OR LIVER,

STOMACH OR LIVER,
Such as Indigestion, Acidity of the Stomach, Colicky Pains,
Heartburn, Loss of Appetite, Despondency, Cosiveness,
Blind and Bleeding Piles. In all Nervous, Rheumatic, and
Neuralgic Affections, it has in numerous instances proved
highly beneficial, and in others effected a sected cura.

This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated
Holland Professor, Boerhave. Its reputstion at home produced its introduction here, the domand commencing with
those of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. It is now offered
to the American public, involving that its truly wonderful
medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seat
of life, thrilling and quickening every nerve, raising up the
drooping spirit, and, in fact, infusing new health and vigor
in the system.

NOTICE—Whoever expects to find this a beverage will
be disappointed; but to the sick, weak and low spirited, it
will prove a grateful aromatic cordial, bossessed of singular
remedial properties.

READ CAREFULLY! The Genuine highly concentrated Borhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle, or six bottles for Five DOLLAR. The great demand for this truly celebrated Medicine has induced many imitations, which the public should guard against purchasing. purchasing.

Beware of Imposition. See that our name is on the label of every bottle you buy.

Bold by Druggists generally. It can be forwarded by Express to most points.

SOLE PROPRIETORS, BENJAMIN PAGE, JR. & CO MANUPACTURING

Tharmaceutists and Chemists PITTSBURGH, PA. For sale by Charles Ritz.

PATENT COAL OIL GREASE.

THIS Grease is made from COAL OIL. and has been found by repeated tests to be the most economical, and at the same time the best lubricator for Mill Gearing, Stages, Wagons, Carts, Carriages, Vehicles of all kinds, and all heavy bearings, keeping the axles always cool, and not requiring them to be looked after for weeks. It has been tested on railroad cars, and with one soaking of the waste it has run, with the cars, 20,000 miles! All railroad, omnibus, livery stable and Express companies that have tried it pronounce it the ne plus ultra.

It combines the body and fluidity of tallow, beeswax and tar, and unlike general lubricators, will not run off, it being warranted to stand any temperature.

I have it in boxes 2½ to 10 lbs. Also kegs and barrels from 30 to 400 lbs, for general use and sale. The boxes are more preferaole; they are 6 inches in diameter by 21 inches deep, and hold 21 lbs net; the boxes are clean, and hardly a carman, teamster, expressman, miller or farmer, that would not purchase one box for trial. F. G. FRANCISCUS. Lewistown, February 12, 1862.

LUMBER! LUMBER!!

Wm. B. Hoffman WOULD respectfully inform the public
