Monster Gun .- The Pittsburg Dispatch says that a twenty-inch Rodman gun was successfully east at the Fort Pitt Works in that city, on Thursday last. This is the largest gun ever cast, and its success is a high tribute to the skill and genius of the parties engaged in the work. In twenty-five minutes after the furnaces were tapped the mould was filled, and in that time 170,000 pounds of metal was passed through the pool, nearly 7,000 pounds per minute. The weight of this monster gun, when finished and turned from the lathe, will be 115,000 pounds. The whole length, from breech to muzzle, will be 243.33 inches, a little over twenty-one feet. The length of the bore will be 210 inches, seventeen and a half feet. The maximum diameter will be sixty-four inches, and the minimum thirty-four inches. The solid twenty-inch ball will weigh 1,000 pounds, and the shell about 700 pounds. The charge of powder will vary, according to circumstances, from sixtyfive to eighty pounds. THE ENROLLMENT BILL.

The following is the enrollment bill

as amended by the House: It provides that the quota of each ward of a city, town, township, precinct, or election district, or of a county, where the same is divided into wards, towns, townships, precincts, or election districts, shall be as nearly as possible in proportion to the number of men resident therein subject to draft, taking into account, as far as practicable, the number which has been previously furnished therefrom; and in ascertaining and filling the same quota there shall be taking into account the recent number of men who have heretofore entered the naval service of the United States, and whose names are borne upon the enrollment list as already returned to the office of the Provost Marshal General of the United States. Any person enrolled under the provisions of the enrollment act, who may hereafter be so enrolled, may furnish at any time previous to the draft an acceptable substitute, who is not liable to draft nor at the time in the military or naval service of the United States, and such persons so furnishing a substitute shall be exempt from draft, not, however, exceeding the time for which such substitute shall have been accepted. But no private soldier, musician or non-commissioned officer being actually in the military service of the United States, shall be procured or accepted as the substitute. The boards of enrollment are to enroll all persons liable to draft under the provisions of this act, and of the enrollment act, whose names may have been omitted by the proper enrolling officers; and all persons who shall have arrived at the age of 20 years before the draft; all aliens who shall declare their intention to become citizens; all persons discharged from the military and naval service of the United States, who have not been in such service two years during the present war, and all persons who have been exempted under the provisions of the second section to which this act is a supplement, but who are not exempted by the provisions of this act; and the boards of enrollment shall release and discharge from draft all persons, who, between the time of the enrollment and the draft, shall have arrived at the age of forty five years, and shall strike the names of such persons from the enrollment. Any person drafted into the military service of the United States may, before the time fixed for his appearance for duty at the draft rendezvous, furnish an acceptable substitute, subject to such rules and regulations as may be prescribed by the Secre tary of War. If such substitute is not liable to draft, the person furnishing him shall be exempt from draft during the time for which such substitute is liable to draft, not exceeding the term for which he was drafted, and if such substitute is liable to draft, the name of the person furnishing him shall be liable to draft in fil ling future quotas; and if any drafted

A despatch from Memphis says that on the 5th instant General P. G. T. Beauregard through his agent, paid his United States tax on property in that city, amounting to over \$100. portion thereof. The iron-clad gunboat Chickasaw was launched at Carondolet, Mo., on Wednesday morning. A sad accident marred the occasion. A coil of rope attached to the anchor spun out so rapidly as to carry overboard a daughter of Captain Eads, three other ladies and a son of ex-Mayor Filley. ### WAR NEWS.

Richmond papers of the 10th instant contain a manifesto from Jeff. Davis to the Rebel army. He is extravagant in his eulogiums of the Rebel soldiers who have re enlisted-in the face of a wholesale Conscription act that would have forced them back into the army-and contrasts their action with what he terms 'the halting and reluctant service of the mercenaries who are purchased by the enemy, at the price of higher bounties than have hitherto been known in war.' He says that the 'brave battle cry' of the Southern legions in the coming spring campaign will ring through the land of the enemy and 'will silence the vainglorious boastings of their corrupt partizans and their pensioned press, and will do justice to the calumny by which they seek to persuade a deluded people that you are ready to purchase dishonorable safety by degrading submission.' These are big words, the like of which we used to hear early in the rebellion, when the rebel army was to march to New York and dictate terms of peace. Part of it is merely bnncombe, but there is undoubtedly an intention on the part of the rebel leaders to make their final and desrebel leaders to make their final and des-perate struggle in the coming spring, and of the "Rescue of Arthur Steele," illustrative it behooves us to be promptly and fully prepared to meet it.

Colonel Streight, who with one hundred and nine other Union officers recently escaped from the Libby Prison at Richmond. has safely got within our lines. A despatch from General Butler states that Colonel Streight, with seventeen of the officers who escaped with him, had arrived at Williamsburg, where our forces under Gen. Wistar are encamped.

Despatches from Vicksburg state that the town of Jackson and Yazoo city are in the hands of General Sherman. This movement is understood to be in connection with a movement at Chattanooga.

The steamer Fulton, arrived at New York, brings advices from Port Royal to the 9th and Charleston bar to the 10th. An expedition had gone to Florida, its object being to capture Tallahassee, the capital of the State. General Gilmore had left Port Royal for Florida. The British war steamer Petrel had been refused permission to communicate with the British Consul at Charleston, by Admiral Dahlgren. The Sanannah Republican gives a gloomy account of rebel affairs, and states that only one month's subsistence is in possession of the rebel Commissary. Admiral Dahl-

green had also gone to Florida. The rebel guerillas on the line of the Baltimore and Ohio railroad are proving themselves accomplished highwaymen and practice pocket-picking on an extensive scale. On Thursday night the express train going west was stopped beyond Harper's Ferry by throwing the engine off the track. The rebels then took possession of the cars and robbed every passenger on board who had anything worth taking. Money and watches were principally looked after, but even smaller articles, such as pocket knives and tooth-picks, were not overlooked. Oh, the chivalry.

This brief notice was written by herself some time before her death, and left with the request that there should be nothing added to it. It may not be improp-er however to state here what will be made known in another way that she made a will in which she be-queathed a considerable sum of money to various christian and charitable institutions. She was lovely in life and peaceful in death; her memory is now pre-cious and her bliss is doubtless perfect.

At a special meeting of Aughwick Lodge, No-472, I. O. of O. F., held at Newton Hamilton, February 15, 1864, the following preamble and resolutions were unanimously adopted:
