

LOCAL AFFAIRS.

POST OFFICE PAPERS.—As the Postmaster refuses any longer to receive papers for distribution at the post office, except to those who have boxes, our subscribers who have heretofore received them there are requested to designate where they should be left after this week.

UNSEATED LANDS.—Our columns contain the Treasurer's advertisement for the sale of Unseated Lands. So far as it was possible to do so, all known or believed to be assessed were traced up and struck from the list, but from the general failure of owners to return the names of the original warrantees to the commissioners, as the law directs all persons to do, it is quite likely there are a number of tracts, or parts, yet in this list which may be assessed.

THE DRAFT.—John A. McKee, esq., who had been sent west to trace up the rolls of the Logan Guards, returned last week, having followed up a paymaster to Decher, Tenn., where he procured a copy. He also ascertained that after leaving for the west the rolls would be forwarded on the 24th ult. The credits to which the borough is entitled from that company, including four enlisted here, are 23 in number, and as the draft comes off on the 15th we suppose a few days will determine whether we are out of the woods.

LOCAL LEGISLATION.—Mr. Stanbarger had a bill passed increasing the pay of Jurors in this county to \$1.50 per day, and the Jurors at April term realized its benefit, being the first paid that amount. A bill will also probably be passed increasing the pay of witnesses. This is very different local legislation from most that we have usually had—the whole benefit being reaped by the people at large, while the old patent democratic system was to legislate for the benefit and advantage of the few, and call it for the good of the public!

ITEMS.—Our cash receipts last week were \$212.65, but just as we were congratulating ourselves over the amount, in came a bill of \$144.50, another of \$20, and several of less amount.—A considerable force is at work at and about the furnace, and it is calculated that in three months it will be put in blast.—J. Irwin Wallis has removed his tin and stove establishment to the stand lately occupied by G. W. Gibson, which has been fitted up into an elegant store-room.—Felix has removed to the corner opposite his old stand, and is making extensive alterations.—Messrs. Pratt are fitting up Felix's old stand for their place of business.—Will Blymyer, son of Jacob, got a good ducking on Monday last by falling into the canal from a boat.—The river rose on Sunday last until it covered the tow path below town, but commenced falling rapidly on Monday. The level below town having thus been filled without leave or license from the company, several boats, two of them laden with grain, left here on Monday for the east.—Mr. Graham lost a cow last week, it falling through the mow floor, where she got by the barn door being left open, and breaking her neck, and another came near floundering by getting at the screenings.—Jim Smith is fitting up a photographic gallery at the corner of the diamond, Zach Ormer's old stand.—The Hunt Ingdon Minstrels had tolerably good houses on Friday and Saturday evenings.—The act authorizing the Commissioners to assume the bounties paid last summer, the money for which was furnished by a number of citizens, is now a law.—The Town Council at their last meeting appointed Wm. Rüssel, Treasurer; A. J. Sturges High Constable and Lanplighter, Mr. Boyer having declined to serve as High Constable; and the Chief Burgess and Mr. Zerbe committee on lighting.—We had the pleasure of shaking hands with Col. T. F. McCoy of the 107th regiment the other day.—Holmer's exhibition of missionary and other scenes, by calcium light was not so well attended by the public as it deserved to be.

Yesterday was appointed by the Christian Alliance for special prayer throughout the world for God's blessing upon the children of all lands. In the morning at 9 o'clock an interesting meeting was held in the lecture room of the Lutheran church.

THE WEATHER.—Wednesday cloudy; Thursday clear, pleasant. Friday clear, Saturday rain. Sunday cloudy in forenoon, clear in afternoon. Monday cloudy in morning, clear in afternoon. Tuesday clear till evening; rain.

COURT PROCEEDINGS.—The criminal business before court last week consisted of a few cases of fornication and bastardy, larceny, breach of the peace, &c., but one of which was tried, with the usual sentence. Four boys, indicted for disturbing a public school in Derry township, were sentenced to pay a fine of 50 cents each, costs of prosecution, and ten days in jail, where they now are. We need more examples of this kind, and if the jailer will feed them on bread and water, all such may not wish to get there a second time. Nearly all the saloons in town were indicted for keeping gambling houses, but none of them tried.

All the applications for liquor license were granted except Ehrman's at Newton Hamilton, which was rejected, and Jeffries at the same place continued until next Saturday. The Petit Jurors were discharged on Tuesday, and the Grand Jurors on Wednesday.

GREAT ATTRACTION AT SWAIN'S, who has just received at his variety store the choicest kinds of fresh Confectioneries, a splendid article of Prunes (which we have tested and can recommend.) Raisins, Currants, Oranges, Lemons, &c., together with a new supply of Stationery, embracing many useful articles not kept heretofore. Our readers had better call soon, as first come, first served. We would again call attention to his superb article for the teeth, called Sodozont which all who use pronounce to be the ne plus ultra of its kind—the very thing everybody wants.

Citizens of Harrisburg protest strongly against removing the Capitol.—Captain Wm. P. Brady, long an officer of the Pennsylvania Senate, died last week.

The Bedford Inquirer last week appeared in new type, with B. F. McNeil as editor and proprietor. The Erie City Dispatch is now published by B. F. H. Lynn. Both are excellent papers, bound to flourish.

Maryland has, by a large majority, voted a state convention and elected delegates favorable to a constitution abolishing slavery. The elections all indicate in unmistakable terms that the peace democracy is going down hill, never to rise again.

Self Mutilation.—The Chambersburg Repository says a young man named Upperman, who had recently joined the 21st Pa. Cavalry, chopped off the two middle fingers and horribly lacerated the fore-finger of his right hand while on a visit to a relative a few miles from that town. The wounds were dressed by Dr. John Montgomery. It is suspected that the act was committed in order to obtain a discharge from the army.

The Patent Medicine Democrat has not a word to say in answer to our proposition, but with his usual effrontery places his proposal again under the head of his paper. The truth is, were we to accept it as it stands today, he would find a loophole to creep out before a committee could decide a single question, and it was for this reason we attached a money forfeiture of \$100 to it. Why does he not accept it? As was remarked by a merchant, it is "fair for both sides, and if declined shows a weakness in the knees!" The truth is, facts do not suit that paper in this matter any more than politics, where a copperhead libel on our government and its institutions, giving aid and comfort to the rebels, is considered worth seven truths in favor of the legitimate Government.

Died. In Belleville, on the 31st ult., MARY S., wife of Michael Hiney, aged about 35 years. In Altoona, on the 9th ult., of small pox, WILLIAM SAMPLE, aged about 35 years. In this place, on Saturday, 8th April, WILLIE, son of Rev. S. Barnes aged 12 months. In Derry township, on the 5th inst., EL RIDGE G. DAVIS, aged 17 years, 1 month and 18 days.

In this place, on Thursday evening, 7th April, MARY S., wife of Hiram W. Junkin and eldest daughter of John and Amelia Evans, aged 31 years, 8 months, and 8 days. She was converted to God under the ministry of the Rev. Geo. Guyer in December, 1845, while in the 13th year of her age; from which time she remained a faithful, consistent member of the Methodist Episcopal church. Her illness was brief but severe. Her suffering assumed more the form of agony than pain; yet the religion of Christ, which in life's darkest scenes shines out in majesty and loveliness, was now her comfort and solace. It seemed as if she could look death in the face and smile, and indeed was enabled to rejoice in triumph over "the king of terrors."

Considerations of her approaching dissolution she asked that her four children should be brought, (three of whom were just recovering from scarlet fever,) and one by one she laid them adieu, commending them to God, and imprinting a mother's kiss, saying to the youngest, "Willie, you are a tender plant; I would like to take you along." She then took her leave of a fond husband in whose arms she "wished to die," (and so she did, but in the arms of Jesus as well;) also of father and mother, brother and sister, with other friends and neighbors, to each of whom she spoke with peculiar appropriateness. As if about to start upon a journey, she gave directions concerning her grave attire and where each article of dress could be found, and distributed other personal effects among her sorrowing friends. Having arranged all for this world, she expressed a desire to die; she "knew it would be peaceful," and said, "when you find I am going, sing—" "O, sing to me of heaven. When I am about to die."

And the Lord graciously granted her request as at length she quietly fell asleep in Jesus. I shall not soon forget the scene presented when it became manifest that life was extinct. While the ransomed spirit was winging its flight to glory, mother, husband and others, with all the cutting anguish of bereaved hearts, were pressing the now inanimate but loved form of the departed. On Sabbath, the 19th, her remains were committed to the dust, awaiting the call of her risen Saviour, at the "resurrection of the just." J. S. McMURRAY.

Hoyt's Hiawatha Hair Restorative. The standard preparation for the hair, warranted in all cases to restore faded and gray hair, and whiteners to their original color. It does not claim to make the hair grow in where it has once fallen out; nothing will do that, whatever may be ascribed to the contrary, but it will prevent it from falling out, make it soft and silky, cleanse it and the scalp from impurities and humors, and entirely overcome bad effects of previous use of preparations containing sulphur, essent. of lead, &c. It requires no washing, and hence for its application, use will not stain the skin, but is as easily applied and wiped from the skin as any hair dressing. It restores the natural shining of the hair with another, which gives it a lively appearance instead of the dull, uniform black of dyes.

Hoyt's Imperial Coloring Cream. Superior to any Hair Dressing in use. Oils and colors that last for the same time. Changes Hair and restores to a beautiful brown or black. Sold everywhere. JOSEPH HOYT & CO., No. 10 University Place, New York.

GREAT CENTRAL FAIR FOR THE SANITARY COMMISSION.

Office of the Committee on Labor, Incomes, and Revenues, No. 118 South Seventh street, Philadelphia, April 4, 1864.

THE Committee on "Labor, Incomes and Revenues," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the objects of the Fair. The most equitable plan for accomplishing this, and, at the same time, the easiest one, is to ask for the contribution of a SINGLE DAY'S LABOR from all classes in the community. Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor but, if attained, will be productive of immense results.

The success of the plan will depend upon the hearty co-operation of every element of influence within our limits, and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of patriotism and humanity. The Committee is charged with the following duty, to wit: 1st.—To obtain the contribution of "one day's labor," or earning, from every artisan and laborer, foreman, operative and employee; president, cashier, teller and clerk of every incorporated and unincorporated company, employing firm, bank, manufactory, iron works, oil works, mill, mine and public office; from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, finisher and artist; publisher, printer and mechanic; from every grocer, butcher, baker and dealer; farmer, horticulturist and producer of every manufactory, milliner and female operative; every individual engaged in turning the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pennsylvania, New Jersey and Delaware.

2d.—To obtain the contributions of one day's "Revenue," from all the great employing establishments, firms, corporations, companies, railroads and works.

3d.—To obtain the contribution of one day's income from every retired person, and person of fortune—male and female—living upon their means, and from all clergymen, lawyers, physicians, dentists, editors, authors and professors; all other persons engaged in the learned or other professions.

Much of this work must be performed by the personal influence and efforts of ladies and gentlemen associated with the Committee in carrying out this plan. The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing countries, the coal and oil regions, and in the agricultural districts,—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal regions. A day's earnings of the miners, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them.

The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secure the benefit of the day of labor from all within their control.

The Committee deem it unnecessary to do more, than thus to present the subject to the people of the three States named. In the coming campaigns of our armies, the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. S. M. Marks & Willis are retailing flour and feed as follows: Extra Flour, per 100, 4 00 Fine, do 3 25 Superfine, do 3 75 Family, do 4 25 MH Feed, per hundred, 1 50 Chopped Oats and Corn per 100, 1 80 Chopped Rye per 100, 2 50 Salt, 3 00 Salt per barrel of 280 lbs., 3 50

As it is desirable not to multiply circulars; no further authority than this circular will be necessary for any employing firm or company, or any respectable Committee of Ladies and gentlemen to proceed at once, in the work of this Committee; and it is hoped that under it, organizations will spring up in all the towns and busy regions of the States of Pennsylvania and New Jersey and Delaware.

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment will stimulate effort in other localities.

All subscriptions should be addressed to JOHN W. CLAGHORN, Treasurer, office of the Committee on LABOR, INCOMES and REVENUES, No. 118 South Seventh Street, Philadelphia.

All needful helps in Circulars and Posters will be forwarded to parties applying for them. Direct to the Chairman of the Committee as above.

THIS Institution is located at Academia, in Tuscarora Valley, Juniata county, Pennsylvania. It is situated 8 miles southwest of Mifflin, and 6 miles west of Perryville Station, Pennsylvania Railroad leading from Philadelphia to Pittsburgh, and is six hours' ride from the former place.

This situation has always been noted for its healthfulness. The scenery, for variety and grandeur, cannot be surpassed; the buildings erected upon a high eminence, command the enchanting view of Tuscarora Mountain and the valley for thirty miles in extent.

Tuscarora Academy; an Institution of high celebrity, and extensively patronized—being located here, persons having sons and daughters to educate, may have the opportunity of sending them to the same place, where they may enjoy each other's society while prosecuting their studies. None, however, but relatives, are allowed to visit the pupils, without a written permission from their guardians or parents. Libraries, Literary Societies, and occasional courses of Lectures on various topics, will be auxiliary to the main course of studies prescribed.
