THIEVING .- We had been in a great measure free from thefts, except on a small scale for sometime, but of late housebreaking has become quite common by sundry candidates for the penitentiary. Lydia Adams died in the Harrisburg Asylum on the 3d May, aged 57 years. She was well known in this county as an inmate of the Alms House for many years, her mind having been affected with that insanity which at times manifested itself in anger and mischief, and at others in a courteous demeanor worthy of a refin ed lady. She was well informed, quick at repartee and sarcasm, and but for her unfortunate malady might have been an ornament in any household. Life's fitful fever o'er we trust she sleeps well.

Accident -- Two accidents and several narrow escapes have occurred at the first railroad bridge above town, where workmen are engaged in widening the abutments preparatory to laying a second track. Nicholas Lightner THE undersigned, intending to relinquish (not Nighthart as published last week) had his leg broken on Saturday a week, and since then a man from Mifflintown was killed by the windlass rope breaking and a stone falling upon him.

Weather continues pleasan'.

U. S. 10-40 BONDS.

THESE Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds ssued under this Act shall be EXEMPT FROM TAX-ATION by or under any state or municipal authority Subscriptions to these Bonds are received in United TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semiannually The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Conpon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium.) or receive them drawing interest from the date of subscription and deposite As these Bonds are

Exempt from Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax lovies in various parts of the country.

At the present rate of premium on gold they pay Over Eight Per Cent. Interest

It is believed that no securities offer so great inducements to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the oming fiscal year will be \$45.937,126, while the cutoms revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000, per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$159,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa.

Third National Bank of Philadelphia, Pa. AND BY ALL OTHER BANKS

which are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depositary Banks,) will furnish further infor-AFFORD EVERY FACILITY TO SUBSCRIBERS.
