

LOCAL AFFAIRS.

THE NEW CALL.—The call for 500,000 men by the President, with the option to serve for one, two or three years, makes it incumbent on all interested—and who that is enrolled is not?—at once to take measures to secure volunteers. We have no special data to go on, but as near as we can figure it out, the borough's quota will be in the neighborhood of 80 men. Whether this number can be raised will depend upon the spirit that is manifested by the people at large. If men will promptly reach into their pockets, and furnish means to pay a liberal bounty in addition to that offered by the government, we think it can be put through for the reason that many will be willing to go for one year who have strong objections to a greater length of time. We would suggest then that a public meeting be at once held, let all who can attend it, and determine whether that effort shall be made, or quietly await the draft. \$16,000 would pay \$200 per man, and that sum in addition to the \$100 government bounty we believe would bring them. Can it be raised, is the simple question?

A meeting was called for last evening, and although a considerable number of persons attended, but at a late hour, nothing further than taking some preliminary steps towards raising a bounty was done. We have no doubt the Borough will offer \$200 bounty for one year's men, which with the government will make \$300 for that time.

GREAT DROUGHT.—With the exception of a few slight showers, too light to be of much service, we have now been six weeks without rain in this neighborhood. In some parts of the county, though in narrow strips, occasional rain has fallen, but taken as a whole the corn crop may be set down as irreparably injured—much of it being in tassel without signs of ears. Potatoes are also extremely backward, and unless late ones will be more favored the crop will be quite short. It may not however be generally known that by selecting good ground, and with anything like favorable weather, it is not yet too late to plant potatoes, as good crops have frequently been raised when planted as late as the middle of August. This is an important consideration at the present time, and we recommend every one who has a patch of vacant ground to try it. The wheat we judge is rather more than half a crop, of first rate quality, and most of it housed in excellent condition.

The company of 100 days men from Lewistown is nearly full. A. B. Selheimer has been elected Captain, S. B. Marks 1st and C. B. McClean 2d Lieutenant.

We have in our possession a view of Market street from Sample's hotel west to the jail, photographed by C. C. Burkholder of this place, which fully justifies us in recommending Mr. B. as a first class artist, deserving the extensive patronage of a picture-loving public. Some of his photographs, which are scattered here and there over an area of many miles, are much admired. We take it he is of no mean reputation among his "fellows of the trade," and hope he may produce still greater triumphs of artistic skill.

We were also presented a photograph view of the Court House the other day by the McEwen brothers, which brings to light a beautiful picture of that architectural building, and which certainly adds to the credit which these young artists are fast contracting. Their ear continues in diamond, where all may be accommodated with pictures plain or fancy.

Sabbath School Library For Sale. Containing over six hundred volumes. The Presbyterian Sabbath School committee have been authorized to dispose of the above books at a very reduced price, because their contents have become old to the school, yet the books themselves are in good condition. The library was selected with great care, and consists of some of the choicest books from three Boards of Publication. We propose to give to purchasers an opportunity of selecting such books as they may want from the cases, which is much preferable to a catalogue selection. Those wishing to see the library will please call on J. IRVIN WALLIS, or R. W. PATTON, Committee.

ITEMS.—Judge Wilson, who has been extremely feeble from paralysis for some time, had a fall on Saturday last in his yard, which injured his well arm severely.—Mr. McAtee's babe was accidentally let fall on Monday evening, receiving severe bruises on its head, requiring the aid of a physician.—The circus and menagerie on exhibition here on Monday was largely attended, the admission price of 50 cents not having any seeming effect on a number too poor to pay for a home newspaper, or some women who often represent themselves as without bread, meat, &c., but managed to raise money enough to take in themselves and children. The scenes enacted on the outside during the evening, principally by hangers on of the shows, are said to have been of the most disgraceful character.—Don't forget the concert by the blind in the Town Hall on Thursday evening. Those who had 50 cents for fun on Monday surely ought to have 15 cents for philanthropy.—The weather still continues hot, hot, hot—the thermometer having again reached 96 on Sunday. Men and women are praying, birds whistling, and frogs croaking for rain, but so far it has not come! The weather prophets however now tell us three fish, two watermen and full moon in the almanac are sure signs, so nous verrons.

The Draft to fill up our quota came off at Hollidaysburg yesterday. The following were drawn for the borough of Lewistown:

Matthias Benner, John M. Stauber, R. W. Patton, James McNamara, J. B. Selheimer, David B. Wilson, Robert S. Rowe, Lewis R. Morton, Jacob Smith, John Kinley.

Five of the above must either pay commutation or go.

At the time we go to press the draft for the township has not come to hand.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein the impurities are competent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children into the third and fourth generation;" in fact, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children." The disease it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antiseptics that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of public testimonials, and the numerous cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies have failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done. Prepared by DR. J. C. AYER & CO., Lowell, Mass. Sold by all druggists every where. Sold by Chas. Ritz and Dr. R. Martin, Lewistown; H. S. McNabb & Co., Belleville; Jacob Metz, Allentown; Mrs. Mary Brehm, McVeytown; Joseph Strode, Strode's Mills; and by dealers generally. Jy 13

FIRST AMENDMENT. "SECTION 4. Whenever any of the qualified electors of this Commonwealth shall be in any actual military service, under a requisition from the President of the United States, or by authority of this Commonwealth, such electors may exercise the right of suffrage in all elections by the citizens under such regulations as are, or shall be, prescribed by law, as fully as if they were present at their usual place of election."
