ITEMS.-McClintick's sorrel mare, a very fine animal, was stolen from his stable in this place on Sunday morning last. The only trace of the thief that could be found was that he crossed the river below McVeytown, and thence no doubt made his way into the mountains towards Black Log-a course which these thieves now seem to take .- A considerable quantity of rain fell on Friday night last, mixed with some hail. The wind was also high and knocked trees and fences about considerably. The company from this place is now full, about 50 additional men having left on and since Monday. Yesterday a considerable number from the valley took the cars for Harrisburg, making at least two companies from this county, independent of those who expatriated themselves by credits elsewhere. Jno Matthersbough of Decatur also took down a number of men yesterday.

THE DRAFT.—The Valley townships d d Derry are the only districts which have made strenuous efforts to fill their quotas, and from appearances are all ikely to succeed. Lewistown by an extra exertion on Monday got another ppropriation from the authorities, and now we believe full. So Poor Richard, assumed anything-replied, "I suppose, Mr. Smith, you know a great deal better than I do what to do with your money, and how to invest; for I never had much, and all I got I had to work hard for. But I have looked round a good deal upon my neighbors, and seen what they did with their money, and I will tell you some things I saw and what I thought of it. One very rich man was always dealing in money, and he made a great deal, but was never satisfied without high interest. So he lent most of his money to some people who he thought were very rich, at a very high rate; and he often told how much he got, till one day the people he lent went to smash. He

Then the debt will be paid, anyhow, no matter how long the war. Besides did you ever hear of a Government that broke before the people did? U. S. 7-30 Loan.

THE Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum-principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the government may elect. They will be issued in denominations of \$50,\$100,\$500 \$1000 and \$5000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U.S. notes, considers that it is paying in the best circulating medium in the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals

Convertible into a 6 per cent. 5-20 Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now

worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per an-

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inlucements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, shile the whole property of the country is held to se cure the discharge of all the obligations of the United
