We refer our readers to the advertisement of Benjamin Franklin, Esq., Chief of Detectives of Phila., who is engaged in recruiting a brigade of veterans for Hancock's corps. Mr. F. is an energetic man, and stands deservedly

high in the estimation of the National Government. His official position has enabled him to obtain full knowledge of the bogus substitute, bounty-jumping business, loafers and swindlers generally, and he is therefore competent and anxious to protect the veter-

ans against all sharpers.

WAR NEWS.

The movements now progressing are culminating towards some decisive events which will have an important bearing on the war. Sherman must soon be met by the rebels, for if he once succeeds in effecting a junction either with Sheridan on the left or Schofield on the right, he will have an army capable of giving battle to Lee's forces even without the direct aid of Grant. His it must be remembered are no undisciplined forces, but the flower of that army which drove the rebels from forts, entrenchments, ridges, mountain sides, fortified cities, river banks, and other advantageous situations in Tennessee and Georgia, and we have therefore no fears that his victorious march will be stopped by anything short of Lee's best troops, and then only by a preponderance of numbers. These we think Grant will not permit Lee to furnish, for if the latter once begins to weaken his lines, either by the withdrawal of his best troops or replacing them by new recruits, white or black, the fate of Richmond is sealed. The month of March may witness great events, for the rebels cannot be ignorant that every day in that month will add thousands to the Union army, which no effort of theirs can neutralize, and that if they delay attack until Spring their condition will be more hopeless than ever.

Official Report of Gen. Schofield. General Schofield makes the following report of the capture of Fort Anderson: FORT ANDERSON, Feb. 19, 1865.

General: I have the honor to report the success of our operations against Fort Anderson and the adjacent works on both sides of Cape Fear river.

Yesterday, while the guns maintained a heavy fire upon Fort Anderson, I pressed the enemy on both sides of the river, and sent a force under Gen. Cox about sixteen miles around a swamp to turn the enemy's right. This force made its way along a narrow defile between two swamps, and completely turned the enemy's position.

As soon as the movement became known to the enemy he abandoned his works and retreated towards Wilmington. We captured ten guns, uninjured, and a considerable amount of ammunition. We have about fifty prisoners.

The loss in killed and wounded is small on either side. The troops are pursuing the enemy, and the gunboats are moving up the river. Fort Anderson and its collateral works are very strong, and rendered almost inaccessible by swamps. A small force could have held them until their supplies were exhausted.

My information is that the rebels have a line of defence beyond Tom Creek, where they propose to make a stand. If so, it can probably be only a short one.

Capture of Wilmington.

Washington, Feb. 24, 1865-11. 30 P. M .- The following official report of the capture of Wilmington has been forwarded by General Grant.

Our troops entered Wilmington on the morning of the 22d inst. After the eyac-

directed Cox to follow its garrison towards Wilmington, while Terry followed Hoke on the east side of the river.

The latter took up a new line, four miles from Wilmington, but was so closely pressed by Terry that he could send no troops to the west side. On that side the rebels made a stand behind Tom Creek, but on the 20th Cox crossed his troops below them, on a flatboat, attacked them in the rear, and routed them, taking two guns and three hundred prisoners. On the 21st Cox pushed to the Burnswick river, opposite Wilmington, where the bridges were on fire, and on his arrival the rebels began burning cotton and rosin in the city, and left it that night.

Our captures, including Fort Anderson, amount to about 700 prisoners, and 30 guns. Citizens state that the rebels burned over 1,000 bales of cotton, and 15,000 barrels of flour.

The Union feeling showed itself quite

strong in the city. Terry followed Hoke northward.

Capture of Charleston, S. C. NEW YORK, February 21.

The purser of the steamer Fulton, which arrived here this morning from Port Royal, on the 18th, at six o'clock. p. m., stated that Charleston was evacuated by the enemy on the night of the 17th, leaving the several fortifications uninjured, besides two hundred guns which they spiked. The evacuation was first discovered at Fort Moultrie, in the morning at 10 o'clock. Part of the troops stationed at James Island crossed over in boats and took possession of the city without opposition. The upper part of the city is on fire.

At nine o'clock the flag was raised amidst cheers. As fast as the forces could be thrown into the city they were set to work to put out the fire, which up to the time of leaving was raging fearfully in different parts of the city. Old men, women and children were rushing frantically to and fro in an agony of despair at the loss of their homes and the killing and mutilating of their friends. It is impossible to estimate the amount of cotton destroyed. Several thousand bales were collected in different parts of the city and set on fire almost simultaneous with all the hospitals. There is no doubt the rebels intended to burn the city to the ground, despite the misery it would entail on thousands of women; children and old men, of which class the inhabitants of Charleston are now almost entirely composed. It was the opinion of Gen. Gilmore and staff that in all probability two-thirds of all that we have is firmly held for the payment of printhe city would be destroyed before the fire could be extinguished, with the keep their gold and greenbacks idle and locked up, imperfect means of subduing it at

The last or rear guard of the rebels lett Charleston at four this morning, and there are various and conflicting rumors as to their destination, but the prevailing opinion is that they intend concentrating in the vicinity of Florence, to which point they have railroad communication from Charleston, unless it has been recently destroyed by the expedition to Bull's Bay.

Several hundred rebels who secreted themselves in different parts of the all parts of the country in disposing of them to the city, when the main column was retreating, had given themselves up and taken the oath. They tell the story of being tired of the war, halt starved, &c. They express a desire to be allowed to take the oath of allegiance to our Government and to remain in the

The first flag over Sumter was raised by Capt. Henry M. Bragg, an aid on Gen. Gilmore's staff, having for a staff an oar and boat-hook lashed together.

ative to the 7.30 U.S. Loan. Mr. Jay Cook, of Philadelphia, who for so long ime had the management of the popular 500 million 5.20 Loan, has just been appointed by Secretary Fessenden, the General Agent to dispose of the only popviz.: the "SEVEN-THIBTY."

In entering upon his duties he desired to answer plainly the large number of questions daily and hourly propounded to him, so that his fellow countrymen may all understand what this "Seven-Thirty Loan" is -what are its peculiar merits,-How they can subscribe for or obtain the notes, &c.

1st Question. Why is this Loan called the "Seven-Ansicer. It bears Interest, in currency, at the rate

Seven Dollars and thirty cents, each year, on every hundred dollars; making the interest as follows: Once cent per day on each \$50 note.
Two cents " " 100 " 2d Question. When and how can they be obtained?

Answer. They are for sale, at par, and accrued interest, by all Sub-Treasuries, National and other Banks and all Bankers and Brokers. 3d Question. When is the interest payable and how

Answer. The Coupons or Interest Tickets are due 15th of February and 15th of August in each year, and can be cut off from the note, and will be cashed

by any Sub-Treasurer, U. S. Depository, National or her Bank or Banker. 4th Question. When must the Government pay off

these 7.30s? Answer. They are due in two years and a half from 1867

5th Question. Must I receive back my money so

soon as 1867? Answer. No! not unless you yourself prefer to do -the Law gives you the right to demand from the Government, at that time, either your money or an equal amount at par, of the famous and popular 5.20

Gold Bearing 6 per cent. Loan. 6th Question. How much do you consider this privi-Ansicer. 5.20s bearing Gold Interest from 1st of November, are to-day worth 9 per cent. premium. If hey are worth no more at the end of two years and half, when you have a right to them, than they now are, this premium added to the interest you receive. will give you at least 10 per cent. per annum for your

money-but the opinion is that they will be worth more than 9 per cent. premium at that time. 7th Question. What other vesting in the 7.30 Loan? What other advantage is there in in-

or Cities, and this adds from one to three per cent. per annum to the net income of the holder, according and stocks, except those of the United States, and all mortgages, &c., are taxed, not only by the Government, but by States, Counties and Cities.

8th Question. How does the Government raise the

noney to pay the interest, and is it safe and sure? Answer. The Government collects, by taxes, interdred millions each year. This is nearly three times much as is needed to pay the interest on all the needed to pay the interest will be used in paying off the debt. Our Government has twice paid off all its debt, and can easily do so again. The interest is sure to be paid promptly, and the debt itself is the very safest investment in the world. It is as safe as a mortgage on a good farm, and pays a better interest. It is in fact a First Mortgage on all lands, all incomes, all railroad and canal bonds, and bank or other stocks,

Nothing can be safer, for we are all bound for it, and cipal and interest. How foolish those people are, who or purchase mortgages or railroad stocks and bonds, which pay only 5 or 6 per cent interest, when these Seven-Thirties pay (counting the premium on Five-Twenties.) over ten per cent, and are so much safer

9th Question. How many Seven-Thirties are there, and how much remains unsold? Answer, There are only about three hundred and twenty-five millions authorized by law, and only about

one hundred and ninety millions remain unsold.

10th Question. How long will it take you to sell the Answer. There are about 800 National Banks all en gaged in selling them; also a large number of the old banks, and at least three thousand private bankers and brokers, and special agents will be engaged in

11th Question. How long will it take to sell the

ty-Year Loan, and the Five-Twenties.

The above questions and answers, it is believed, will give full information to all. If not, the General Sub scription Agent, of any of the Banks or Bankers em ployed to sell the Loan, will be glad to answer all questions, and to furnish the Seven-Thirties in small r large sums (as the notes are issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000.) and to render it easy for all to subscribe-thus fulfilling the instruc tions of Mr Fessenden, who earnostly desires that the people of the whole land, (as well as the capitalists,) shall have every opportunity afforded them of ments.

"Mr. Trowbridge's last novel, The Three Scouts, has achieved a wonderful degree of popularity, which even envy must admit to be well won. A tale of the secession war, it abounds in adventure, and is full of those scenes to which such a contest must give rise, in which the valor and genius of daring spirits are happily displayed. Mr. Trowbridge never fatigues his numerous readers by repe tition, but from the stores of his inventive mind he draws ever new materials for the maintenance of that interest which he creates at the very beginning of his stories. Never was this peculiarity of his more signally displayed than in The Three Scouts, which to our mind is the very best of his clever productions. The book is very handsomely printed."—Boston Traveller.

Representative recruits receive the Government bounty. Volunteers, substitutes, and representative recruits residing in Philadelphia are credited to that city in coming drafts. Pay commences from day the enlistment is perfected. Letter by mail.

W. S. HANCOCK, Major General.

It is to be expressly understood that Veterans either of the INFANTRY SERVICE, CAVALRY. ARTILLERY, or NAVAL may be credited to the City, Town, County, or Township where they reside.

The following affidavit will exhibit at once the admirable demeanor of the recruits when they arrived in Washington, and how they were mustered in.

WASHINTON, D. C., Feb 19, 1865.

I hereby certify that as a Notary Public Iwas required to be present at Camp Stoneman, yesterday, the 8th, on the occasion of mustering in of Twenty-eight men, recruited by BENIAMIN FRANKLIN, Esq. Chief of Detectives of Philadelphia. That they were all sworn in and uniformed in my presence, and they acknowledge that they have been paid all of the bounties promised them by Mr. FRANKLIN.

"I further state, that all of the above men expressed themselves as satisfied with the conduct of Mr. Franklin. I further say, of my own knowledge, that efforts were made by persons about the Baitmere depol in Washington to induce the men to violate their engagements with Mr. Franklin, but to no effect. I say this for the credit of the men, whose names are given above." See Circular.

A. G. LAWRENCE, Notary Public.

CONCLUSION.

All Veterans who desire to have their interests looked after without being swindled by sharpers are directed to the Recruiting Agency, 10c South SIXTH Street, "Berry's Marquee," where the Rifle is to be seen daily which the Veteran is entitled to keep at the expiration of his term of service, which discharges sixteen shots per minute.

All communications on this subject after this explanation must be brief and to the point. Will be promptly answered by addressing
