field of labor. "As to that field we have a word to say. Higher and more influential, for the good of the rising generation, should be the position of Mr. Smith, than that of attending to the material interests of any work as an investment or mere book selling publication. We never met, in Pennsylvania, and we question if there is even in his own New England, a man more adequate, by gifts of nature, knowledge and experience, to take the editorial control of such a work than he. Good as "Our young Folks" is, we feel very certain that in his controlling hands it would still become better and soon be recognized as one of the moral formative agencies of the present.

"Our friend will excuse these words. -They could not be withheld, and are quite as much in sorrow at losing him, as in that commendation which all here concede."

LEWISTOWN, January 18, 1866.
MR. EDITOR: —I notice in your last is sue some truthful hints relative to our men of which must have been used, as it of capital. There is nothing more certain forced off the door from its fastenings, than that something beside the buying of grain and selling of dry goods must be resorted to by the moneyed men of our town if we wish to keep above the grade of a one horse place. Lewistown is most neighborhood. It is supposed the par- favorably situated as a business centre, and ty or parties who made this attempt if the natural advantages surrounding us at robbery, were present on Saturday are improved, instead of being dependent upon grain alone for a business, Manufac tories of all kinds will spring up and the capital turned into a different channel. dollars, and under the impression that The railroads springing up in this and it was kept in the safe, went to a great surrounding counties are slowly but surely cutting us off as a grain market, but they are at the same time increasing our facili ties for engaging profitably in manufac-It is proposed by some of our citizens to

establish a Shoe Manufactory here. The capital to successfully start a concern that would manufacture from 150,000 to 200,-000 pairs of shoes per year would be from \$30,000 to 50,000, and these if sold at a Yankee Notions. The Shoe Manufactory would necessarily introduce new citizens, for i would be impossible to get all our labor at The School Journal for January home, and these must have houses, and from pays the following well-deserved tribute the scarcity now felt by those in want of homes for the coming year, it is apparentthat houses would have to be built which in turn would employ the mechanics in the several branches of trade, so that I can conceive if this were gone into, that there would be a resurrection of the good old times we often talk about. It may be asked, can tour of duty in the South-west-in what a Shoe Manufactory be conducted to compete with Eastern made work? Why not? I feel satisfied that a saving of freight and commission could be made by our buy ing our stock from the tanners in this and the adjoining counties, and after being made into shoes, if we secured the home custom to ourselves, we would save the wholesale profit in the cities and the trans portation from them to the consumers. If men can come from Massachusetts to Philadelphia and buy the leather made in Mifflin and adjoining counties, at the market rate, with 5 per cent. and freight added, take this leather to the East, manufacture it into boots and shoes, and send it again to Philadelphia to be sold wholesale and shipped through the country, why cannot we in Mifflin county buy our leather at home, less the freight and commission, and manufacture shoes at a less rate than our Eastern shoe men? There is no establish ment of this kind in Huntingdon, Centre, Juniata, Snyder and Union counties, and estimating the amount of trade in these counties by the amount of machine machine war, where himself and lady acquired the noble title work now sold in Mifflin county per year. of the soldiers' friends, as we have abundant testimo. we can have no doubt of there being on

I hope the men of capital who desire, not only to make good investments, but to

uild up the town, will give this subject a serions consideration. Depend upon it the scheme is a feasible one, and if we do not move in it some Eastern capitalists, attracted here by our natural advantages, will invest their money and take the opportunity from us.

CANCER CAN BE CURED.

Dr. Hebern, of Quincey, Illinois, cures cancer without knife, pain, or loss of blood, in from four to twentyfour hours; also treats consumption successfully.

IT LOOKS LIKE CONSUMPTION.

Never neglect diseased lungs until consumption sets in and you are pronounced incurable. Always attend to a complaint at once "A stich in time saves nine." is an adage quite as applicable to bodily ailments as to business transactions. Remember that your life is in danger, however insignificant may seem to be the malady in its first ap proaches; and, as it is "the best life you got, and you may never get a better," (to use John Wesley's quaint language,) take care of it. The use of Radway's Ready Relief in the incipient stages of consumption will always avert the grip of that fatal affliction. We have personally known cases of diseased lungs which looked just like consumption, and which had many of the symptoms accompanying it of confirmed consumption, that gave way immediately to Radway's Ready Relief taken as a stimulant, in hot sweetened water on going to bed at night. The perspiration occasioned by it was copious and ex tremely offensive, but it carried off all the dangerous symptons, and as a

returned a bright red, and full of vitality for arterial circulation, and the Ready Relief is certain to effect such a wholesome change if its application be persevered in. Not that we assert it to be a remedy for any decided case of consumption. We cannot conscientiously aver that. But we do say, we utter it with confidence, that it has cured, and that it will cure, many cases which look like consump tion, and may be called consumption in its incipient state. That may be depended upon. The Ready Relief is sold by druggists.

N. B .- As an evidence of the importance of Radway's Ready Relief, in the treatment of weak lungs, colds, and premonitory symp. toms of consumption, we present the followng letter from a well known citizen of Mich-

Headley's History OF THE Great Rebellion.

THE late Rebellion stands out peculiar and extraordinary in human events; and the magnificent scale upon which the war has been conducted, constitute it one of the GRANDEST AND MOST BRILLIANT CHAPTERS OF

THE WORLD'S HISTORY Mr. Headley, of all writers, is perhaps best qualified to portray the stupendous features of the mighty contest. His previous works on less momentons themes have placed him in the first position, as a graphic and power vigor of a yet more exalted inspiration, and

of his peculiar genious for military description. Under his powerful pen the stirring scenes of the War pass in review with the vividness and distinctness of a present and living reality, while his great talent for con densation enables him to embody everything of importance in a compass just suited to the public want. From no other source can so clear a d comprehensive an impression of the grand march of events be obtained, so easily and agreeably, as from Mr. Headley's work. Other histories have been issued before Grant's Report and other Official Docu ments were submitted to the Government, and are therefore upreliable. Mr. Headley has delayed the completion of this till those documents so essential to authenticity and

correctness could be obtained. The second volume, completing this work, will be issued in March, 1866. Agents want ed to engage in its sale in every town and county in the United States. Liberal inducements offered. For particulars apply to or
