SERMON ON TEMPERANCE.—Rev. J. B. Reimensnyder will deliver a sermon on Temperance in the Lutheran church on Sabbath evening, next, at a quarter before 7 o'clock.

ROLLING MILL IN LEWISTOWN.—Mr. RICHARD, of Harrisburg, a practical and very successful Iron Master, has proposed to the Glamorgan Iron Company to join them in erecting a Rolling Mill in Lewistown.

ACCIDENTS.—On Thursday last, about noon, Henry Sides, a young man in the employ of the Pennsylvania Railroad Co., had his arm broken and was otherwise injured, on a hand car while returning from work.

ELI KIPE, of Arragh township, had his leg terribly shattered on Friday last by the falling of a tree which had lodged. It appears he had moved out of the way somewhat, and was looking at it, when it suddenly came down, and struck him below the knee.

GOLD PENS.—H. W. Junkin has been appointed sole agent for Lewistown for the sale of A. Morton's celebrated Gold Pens, which for durability, elasticity and good writing qualities are unexcelled by any pens made.

MEAT AT MARKET HOUSE.—Robert Sterrett of Reedsville commenced supplying our citizens with fresh beef at the market stall under the Town Hall on Tuesday morning.

The great soap man has arrived in town and has taken his quarters at the Union Hotel for a short time. He guarantees to remove grease, oil, tar, pitch, ink or paint or almost any other stains.

REV. JOS. A. ROSS, formerly pastor of the M. E. church in this place, has for some time past been stationed in Loudon county, Va., the inhabitants of which were thought to be so well "reconstructed" that, on the 13th inst. the Government withdrew its troops from the neighborhood.

MARKET.—Petitions are out requesting the Burgess and Town Council to build a market house on the square, and establish a regular market for the sale of meats, butter, eggs, vegetables, &c. At present it is difficult to tell where to go for anything, the butchers being scattered here, there, and anywhere, while other articles have to be hunted from Dan to Beersheba.

DR. I. TOOTH, Esq., a sharp neighbor of ours, has been making observations upon the tastes of Lewistown girls. He says they go into raptures over streams, particularly waterfalls; they are admirers of mountains, especially the Andes and the Himalayas; they are passionately fond of flowers, Sweet-Williams and the like; they do not care about the sea, but are always ready to embark upon a coast ship; and they are great lovers of money, but show a decided preference for matrimony.

J. Vance Crisswell, an old contractor, has just finished "a horse railroad" in the vicinity of Petroleum Centre, which greatly facilitates the transportation of oil.

The scholars of the Lewistown Academy were out on a sleigh ride yesterday afternoon.

The revival which has been in progress for several weeks past in the Methodist church closed on Monday evening.

The weather since our last has been cloudy but moderate, with the finest sleighing we have had for years. Men and women, beaux and lassies, boys and girls, have been enjoying themselves, which is more we fear than can be said of the poor horses.

Millin County Teachers' Association. The Millin County Teachers Association met at McVeystown, on January 24, and continued in session three days and a half. In addition to class drills on the branches of common school study; reports on the following subjects were read and discussed: District Institutes, the cause of their failure and the means necessary to restore them; by W. C. McClenahan, A Teacher's Faculty, by Prof. S. Z. Sharp. The following subjects were discussed with much interest and we trust profit: The abolition of whispering and the relation of ministers to our common schools.

Resolved, That we consider district institutes an important means for the improvement of teachers, that they have proved a failure, chiefly on account of the indifference of teachers, and that in view of their importance, we put forth every exertion to have them revived by forming voluntary institutes until directors see it to restore them to us.

Resolved, That in the sense of this association whispering in schools is an evil, and that teachers should make an earnest effort to abolish it.

Resolved, That it is our deliberate opinion that the office of County Superintendent ought to be held by a practical, live teacher, and none other, because only practical teachers have the skill and knowledge requisite to determine what are the wants of the schools and teachers, and how to make use of the proper means and methods of promoting the improvement of both.

Resolved, That while we have no legal voice in the selection of a county superintendent, nor any disposition to disturb what shall be the course of the proper authorities, we do earnestly request the School Directors of the county, at their next annual convention, to elect for the next term of office the present energetic and devoted incumbent, Martin Mohler, Esq., with a salary increased in proportion to the advance of cost in the necessities of life.

Resolved, That we the teachers of Millin county, deeming it highly important that a uniformity of text books should be adopted in the county, use our influence with the Directors of our respective districts, to have them legalize, as soon as may be, the action of the committee on text books.

CANCER CAN BE CURED. Dr. Hebern, of Quincy, Illinois, cures cancer without knife, pain, or loss of blood, in from four to twenty-

four hours; also treats consumption successfully.

IT LOOKS LIKE CONSUMPTION.

Never neglect diseased lungs until consumption sets in and you are pronounced incurable. Always attend to a complaint at once. "A stich in time saves nine," is an adage quite as applicable to bodily ailments as to business transactions. Remember that your life is in danger, however insignificant may seem to be the malady in its first approach; and, as it is "the best life you got, and you may never get a better," (to use John Wesley's quaint language) take care of it. The use of Radway's Ready Relief in the incipient stages of consumption will always avert the grip of that fatal affliction. We have personally known cases of diseased lungs which looked just like consumption, and which had many of the symptoms accompanying it of confirmed consumption, that gave way immediately to Radway's Ready Relief taken as a stimulant, in hot sweetened water on going to bed at night. The perspiration occasioned by it was copious and extremely offensive, but it carried off all the dangerous symptoms, and as a natural result of the persistent use of the Ready Relief every other night for three or four weeks, the diseased lungs became well. The raising of blood ceased. The cough gradually disappeared. The pain in the chest departed. The dark, thin, venous blood from the heart once more properly oxygenated in the lungs, returned a bright red, and full of vitality for arterial circulation, and the Ready Relief is certain to effect such a wholesome change if its application be persevered in. Not that we assert it to be a remedy for any decided case of consumption. We cannot conscientiously aver that. But we do say, we utter it with confidence, that it has cured, and that it will cure, many cases which look like consumption, and may be called consumption in its incipient state. That may be depended upon. The Ready Relief is sold by druggists.

MEMPHIS, March 28, Mich. Dr. RADWAY:—Dear Sir:—About four years since I was very much affected with CONSUMPTION. My friends thought I had the Consumption. I was entirely unfit for business, raised blood, and had every symptom of the above disease. One night, on going to bed, I thought I would take a sweat, and took your Ready Relief (in hot water) as a stimulant to sweat me. It did so. The perspiration was of a slimy substance, and offensive smell. I followed taking the Ready Relief every other night for four weeks, and at the end of that time was entirely well. This is a true statement of facts, which I will testify to under oath.

USE THE BEST. DR. CLOCK'S EXCELSIOR HAIR RESTORER.

The Best Preparation for the Hair Ever Introduced to the Public.

It is warranted to restore Gray Hair to its natural color. Make Hair grow on bald heads, where the disease is not hereditary; stop Hair from falling out or turning gray; cure all eruptions of the scalp, remove scurf, dandruff, &c., and stop itching. It will cause hair, which has become scarce, thin and luxuriantly glossy. It is

Elegantly Perfumed, and is all that can be desired for a dressing. It does not soil the finest linen or stain the most delicate muslin. It is not a dye, but by supplying the capillary glands, acts as a restorer. This preparation contains no Sugar of Lead or other minerals so deleterious to the head and hair, and of which most of the compounds in the market are made but is a Purely Vegetable Production.

We challenge the world to produce an instance where the Restorer has failed when used according to directions. It is used and recommended by the Clergy and the Faculty. The proprietor is aware of the many who have been disappointed by the high sounding pretense of the numerous hair preparations with which the market has been filled for a few years past, but such Entire Confidence

does he place in the merits of his Restorer that he offers in cases of refund the money after a thorough trial of two bottles, if it fails to give perfect satisfaction. Mothers, whose children's hair is harsh and wiry, of thin and scant, will find by using the Restorer it will immediately improve, thereby laying the foundation for a good head of hair, so desirable in after life. A Single Trial

will convince the most sceptical of its merits. Once use it and you will always use it. Call for Dr. Clock's Excelsior Hair Restorer, and take no other. Sold by druggists every where at \$1.00 per bottle, or six bottles for \$5.00. Dr. F. B. CLOCK, Proprietor, Manchester, N. H. F. J. Hoffman, Agt. for Millin co. Jan 24-2m
