pealed. Such a repeal would largely encourage the investment of capital in this State, and add immensely to the wealth of the State, while the local authorities would lose very little, as it is neterious that, from the difficulties of assessment, they receive very little from these sources.

In case of such repeal I recommend the adoption of some effectual measures for enforcing correct returns of such objects of taxation, with appropriate penalties for the neglect or refusal to make them.

I make these recommendations believing that it will lead to more equitable local taxation, and to greater economy in their disbursement.

Many acts are on the statute books incorporating companies for various purposes, which companies have never been organized or gone into operation. I recommend that all such acts be repoaled by a general law, and that provision be made that in future every act authorizing a corporation shall berome void unles the corporation shall organize and use its franchises within a limited time.

The report of David Wills, esq, president of the Soldiers' National Cometery at Gettysburg, herewith transmitted, shows the present condition of the cemetery. As the battle of Gettysburg resulted in a glorious vic tory, and was in fact the beginning of the end of the war, and o curred on the soil of the Commonwealth, I think it would be well that it should be commemorated by an historical painting, to be placed in the Capital of the State, and I recommend that the Legislature take measures for that purpose.

The State of Maryland has proposed to her sister States that they unite with her in establishing a cemetery for our soldiers who fell at Antietam I herewith transmit copies of the Maryland statute, and other documents on this subject, and recommend the passage of an act heartily accepting the proposition of the State of Maryland. All the States having promptly and generously responded to our proposition to have a cemetery at Gettysburg, it would seem proper that we should reciprocate, and unite in this. The duty is made more sacred when we remember that more of Pennsylvania's sons fell in that battle than those of any other State.

The report of the State agent at Washington, herewith transmitted, shows that under his efficient management the claims of our soldiers are promptly examined and paid. Every effort has been made to apprise our officers and men that their claims will be collected by the State agent (Col. Jordan', without expense to them; yet it is feared that many of them continue to employ private caim agents, whose fees bear heavily on the claimants.

Since my last annual message I have expended of the secret service fund the sum of \$4,335 20, out of which I have paid my personal staff and other extraordinary expenses. No appropriation is required for the increase of this

During the last five years the people of this State have suffered deeply from the calamities of war. Thousands of her men have been slain, and others are maimed and broken. Almost every where there are widows and orphans, many of them helpless and in poverty. It is a subject of sincere congratula tion that peace has at last returned.
