SHAMEFUL OUTRAGE.—The better portion of our citizens were pained to earn on Monday morning that an inoffensive colored man named John Itaris, was wantonly assaulted on Sat arday night while on his road home, by one or more of several young men, knocked down, his jaw bone broken, badly bruised otherwise, and in the opinion of the physician attending him internally injured. He lay senseless for many hours, and it may be weeks or months before he will recover. We do not know whether this case will take the usual course when sons of re-

Because it is "only a nigger," will be no reason why the utmost punishment of the law should not be visited upon them. That low and dirty cry, emanated from the rebel seum of the south, and was re-echoed north by copperated tools until white men, women and sildren are degrading and debasing hemselves to a depth of meanness and teurility almost beyond belief of a prossing christian people. To treat the tacks with common civility and kindless is not making them an equal; to treat them with scorn, insult and oblomy—to stand and see children yell ke a pack of hounds "nigger, nigger," at almost every colored person, large or small, who quietly walks our streets, is an unfailing index of rant of decency and want of sense, and an encouragement to the high road blackguardism, ruffianism and low-led meanness now so prevalent among he young. HORACE GREELEY'S I ISTORY OF THE WAR—"The American Conflict." in two Vols. Ellegantly illustrated with 144 portraits on

steel; numerous maps and Diagrams of battle fields; views, etc. 125,000 copies sold. Volume I. of this History, published al most two years later than the first part of nearly every other, already includes among its patrons full 25,000 of the purchasers of those early works, and is everywhere recog

nized as the highest authority, even by the author's political opponents. Volume II. will be ready in a few months -at the earliest day on which a well prepared history of the war can be obtained. The entire work, inimitable alike in excellence of plan and detail, will be vastly superior to any of those now completed, (most of which were "completed" long before Gen Grant's report was made,) and by far the most satis factory History of the late stupendous struggle-altogether unequalled for clearness, ful ness, and accuracy of statements, combined with candor and graphic delineation of events.

If completed, as designed, the work will be authority as to the events of the most won-derful era in the history of the Country.—A.

G. Curtin, Governor of Pa.

It would be difficult to place too high an estimate on the service Mr. Greeley has rendered our country by the preparation of this volume. * * * I await the forthcoming of the second volume with egar expectation.

The narrative is simple and clear, with so much of life and spirit in it that it is next to impossible not to read a whole chapter with-out stoping. * * * It will be, and ought to be read by all our countrymen .- EDGAR

COWAN, U. S. Senate. Its accuracy gives it a value beyond any other history of that period. The great in dustry and impartiality of Mr. Greeley will make this the text of all future histories of the Great Rebellion .- Thaddeus Stevens, M.

Of all the Histories of the Great Rebellion which I have examined, this one seems to me the best in the copiousness of its antecedent and concurrent Congressional Records, as well as of the events of the war itself.— Schuyler Colfax, Speaker U. S. House of
