The election on Friday last did not please the patent democracy at all. They had an idea in their heads that the Union party was in a state of disorganization, and that all the reconstructed had to do was to nominate Tom, Dick or Harry and take possession! Judge then of their astonishment when the mass of the Union an increased majority over last year. We give the result below :

#### What Dividends may be Expected,

As to the amount of dividends that may be reason bly, expected from a Silver Mining Company, opera ng in Nevada, it may be set down as ranging from 00 to 1000 per cent, per annum, according to the pro ress made in the mines, and the quantity of machin rv at work.

ress made in the mines, and the quantity of machin-ry at work. Harpers' Monthly Magazine for August contained an article on "Nevada." which, with reference to the rofits of silver mining, said: "If the mine be of even verage value it can scarcely fail to return from ten o 20 per cent a month to the investor; and silver nines are unlike gold mines, in that they are *inex-austible*, and may be worked for generations when once opened."

haustible, and may be worked for generations when once opened." A recent issue of the Philadelphia Evening Tele-graph, speaking on this subject, says: "The mining statistics of Nevada show us that whenever worked with proper appliances, and under judicious manage-ment, these mines have paid from 300 to 800 per cent. per annum upon the capital invested."

What other Companies are Doing. There is not a single Company now in oper-rith their own machinery in Nevada, as far a lave learned, that is not a complete success. Al with their own machinery in Nevada, as far as we have learned, that is not a complete success. All are eturning not only large, but enormous Dividends, and the prices of their share have correspondingly s.d-ranced. # What Others Say About 11. The Philadelphia Commercial List of March 3d. contains a letter from one of its correspondents, dated Austin. Nevada, February 5, 1866, which says: "At the lower extremity of the city of Austin— quondam Clifton—where Pony Canon deponches into Rese River Valley, a project has been commenced, which, if carried out in accordance with the plan of those who conceived the scheme, will prove one of the most magnificent works of the day, and which cannot fail to handsomely reward those who push it to completion. I allude to the Hopkins' Tunnel. The Revenue Extension Mining Company, owning this tunnel have a series of ledges lying parallel with each other, located upon the hill, at the foot of which this work commences, and will cut at nearly a right angle ench lode with which it comes in con-tract, throughout its entire length, and they can be

a right angle each lode with which it comes in con-tract throughout its entire length, and they can be numbered by the score—the hill being literally seam-ed with them. \* As this great work progresses, vein after vein of the rock bearing the precious metal will be crossed, at a depth sufficient to render their work-ing profitable, each in succession being cut at a great-er depth from the surface than the preceding one, owing to the rising of the hill in which they are locat-ed. Upon these veins, after they are crossed, work-men can be engaged in extracting the ores upon eith-er side of the tunnel, without in any manner hinder-ing its progress."

ing its progress."

# The Success of the Company Certain.

The Success of the Company Certain. It is thus apparent that the Revenue Extension Silver Mining Company have progressed so far in their operations that success is not only certain, but ACTALLY AT THE DOOR. Before the close of the com-ing summer-perhaps by the middle-ti will be rank-ed amongst the DIVIDEND-PAYING companies, and its stock will, in all probability, advance to \$25, 550, or perhaps even \$100 per share. Therefore, none is the time to invest. Only a small portion of the working capital yet remains unsold, and the Directors are anx-ious that it should be disposed of immediately, in or-der that there may be no delay in the prosecution of the work in hand. Hence this advertisement. Price of shares \$10, free of assessment. Certificates issued as soon as funds are received. **COMPANY** Are the owners of NINETEEN (19) valuable Ledges amounting to 41,000 linear feet (the chief of which is the R-venue Extension Lead, one of the richest ever discovered in that district) all of which are situated upon the celebrated Lander Hill, near Austin, Neva-da. The Hopkins' Tunnel, which commences at the foot of Lander Hill, and will pierce the hill from side to side, running at right angles with the Silver Venss, and will cut in its course upward of one hundred and fifty mines (this number being already located), its also the property of this Company. Work upon this already reached upward of three hundred fect. The Superintendent telegraphs from Austin, Neva-da, under date of February 22d, 1806, as follows: "At work on Revenue Extension Mine; ore taken out to-day assays \$457.45 to the ton. Work on Hop-kins' Tunnel advanced 70 feet since last dispatch (February 2d)." And again under date of March ich on Guard (February 2d)," And again, under date of March 5th, as follows: "Receipts in bullion \$1,900. Tunnel advanced 109 feet. Revenue shaft 20 feet."
