Worth Knowing.

Last spring I took a small quantity of seed corn and soaked it in a solution of saltpetre, and to test it planted five rows through the middle of a naturally moist piece with seed thus prepared. Now for the result: The five rows planted with corn seaked in the saltpetre yielded more than twenty rows named able zeal with which they participate in enterpolar the named way. The five rows that the named way. The five rows that the first meeting for organization and from which notices with the made out for the first meeting of organization.

* This Lode is very well developed, with vein of ore the first meeting of organization.

* This Lode is very well developed, and considered one of the b planted in the usual way. The five rows were untouched by the wire worm, while the remainder of the field suffered badly from their depredations, and I should judge that not a single kernel saturated with the saltpetre was touched by the worm, while almost every hill in the rest of the piece suffered more or less. The worms are a little kind of squeamish in regard to eating anything that comes in their way; hence I wish to lay the fact b. fore the agricultural reader, and hope it will be carefully tested the coming season, as the cost is comparatively nothing when put alongside of two or three acres of corn nearly ruined by these pests. All moist lands are more or less filled with them, and many farmers dare not plant corn on them, for they say the wire worm will spoil their crop; hence they will let it lie unimproved year after year, when it might be made to produce a bountiful crop. Tuf.onborough, N. H. J. L. HERSEY.

RECIPES.

Poor man's Pudding.—One and a half eups of finely chopped suct, one cup of Pensacola Lode, of 100 do molasses, one cup milk, one cup raisins, one of currants, four sifted flour, one Abe Lincoln Lode, of 200 do teaspoonful of soda, boil three hours in Washoe Lode, of 200 do

THOS. MASON. Atty at Law.
Central City, Colorade.
The space of a circular is too limited to give the opinions of numerous distinguished citizens and men of science who have examined this district the following extracts relate thereto, and that of Prof. Edward N. Kent in particular, of the New York U.S. Assay Office, is directly in point:
Our late lamented President Mr. Lincoln, dufing an interview with Speaker Colfax, relative to the hinden wealth of Colorado, Nevada, &c., said—"I have very large ideas of the mineral wealth of our nation; I believe it practically ine-shaustable."
The Hou, J. P. Upsher, Secretary of the interior, in the Official Report presented to Congress, dated December 5th, 18th, referring to the then present condition of our Western Territories, says: "The wealth embedded in the rocks of that extensive region is actually inexhaustable, and it will farnish in future years, indirectly a principal part of our means of hequidating the debt contracted by the Government for the overthrow of the great rebellic."

developed resources of this country, from what I am told by practical miners who are well informed upon this subject. I do say here to-day before this House and before this country, to be placed upon the second and read of all men—that within five years' time, and by the year is say, the gold fields of Colorado will preduce \$50,000 000 annually: and even then its full resources of miners who have spent many years in the mines of Colorado is far more extensive, of many practical miners who have spent many years in the mines of Colorado is far more extensive, of miners who have spent many years in the mines of Colorado is far more extensive. The process of this country, from what I am told by practical miners who are well informed upon this subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the record and before this country, to be placed upon the red and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the subject. I do say here to day before this House and before this country, to be placed upon the record and before this country, to be placed upon the record and before this country, to be placed upon the record and the form the limited that the decide the time of the subject. I do say here to day before this House and before this countr

the miles of Central City.] the location of the above ledges) but as to the richness of turn. I have no hessitation in saving, that I believe them to be the vichest ever discovered. With science, capital and the Pacific Railroad. Colorado is destined in my opinion, to rival or supercode California and Australia, and become the Ei Dorado of the World."

The opinion entertained by those abroad of claims in this district, is shown by the following extract—English capitalists have purchased £600,000 of the Colorado mining lands, and their agents and employees are now or route to develop the same. The claims are principally in Russell and Trail districts, and a recent purchase has been the senton Lode of 1000 feet, for which they paid £100,000.

An idea of the value of some claims (100 feet each) may be formed when the fact is considered that if often occurs that they yield millions of dollars, and have in several instances been sold for \$20,000 per feet. Mr. Fields, from 33% feet of the Bobtail Lode has been offered and refused for 33% feet of this same lode, equal to \$500,000 for a claim of one hundred feet.

As the purchase of either of the above lodes would
