

THE GAZETTE.

LOCAL AFFAIRS.

All lovers of fresh salt Fish can get them at D. Grove's. No. 1, Mess Mackerel, by the barrel, kit or lb. Also prime Cheese. Give him a call.

SOLDIERS of 1812 can get an Annuity or Pension of \$40 per annum and a gratuity of \$40 in cash, in one week, by writing to J. B. EWING, Attorney at Law, 3d street, Harrisburg. 3t

WRITING SCHOOL.—Mr. J. A. Fulmer, an excellent penman, has now under his instruction, at the Academy, about 25 pupils. Mr. F. teaches the celebrated Spencerian system, the principles of which, if followed out will make a good penman of any ordinary writer. A good opportunity is thus afforded our community, and young men especially who intend engaging in business of any kind, should avail themselves of it, and learn to write a legible hand, which is an essential to all business men. Mr. F. comes well recommended, and we have no doubt of his ability to give entire satisfaction to students of the art placing themselves under his tutorage. Three sessions a day are held, making it convenient for all to attend—morning, afternoon or evening.

To Eat.—Charley Dalby, at his rooms on the corner of Dorcas and Mill streets, keeps Oysters fresh from the shell, Chicken, Turtle and other Soups, Sardines, all of the best. His establishment has lately been fitted up, and will compare with any in town. Call on him, he will be glad to serve you. None but temperance drinks on hand, and they ice cold. 2t

It will be seen by an advertisement in this paper that a meeting is proposed to be held in the Town Hall on Thursday evening, for the purpose of aiding the building of a Railroad from Selinsgrove to this place. We consider the completion of this project of very great importance to the prosperity of our town, as well as to the whole county. Every family that uses coal will be directly interested in it. By means of it we will have direct communication with the great anthracite coal field, thus cheapening the price of that article so indispensable to every household, and preventing the rise in it which so often happens in winter from short supply on account of navigation being closed. It will stimulate and increase manufactures, the source to which we must look for any permanent prosperity to our town. It will make this a feasible point to work up the ores that abound in great quantities in our vicinity, and to do anything where coal is used as a motive power. Let the farmer come to the meeting; he desires cheap lime-burners coal to fertilize his fields, so that he can raise the grain to supply the market which will be produced by the very manufacturers which this road will stimulate. Finally let all turn out to the meeting and hear for themselves what the prospect is of the road being built, and do all they can by themselves and by persuading their neighbors to assist in this commendable enterprise.

The wheat harvest is progressing, and although short in the straw is well filled. The thermometer has ranged as high as 95 during the past week, but yesterday it was quite pleasant again. The Day Express west now runs by this station—the first train we believe not stopping here since the road was constructed. There is said to be a good deal of tribulation among the free passes, in consequence of a rumor that they are to be belittled. Let 'er rip.

Galbraith's market car attracted considerable attention last week, being one of the best specimens of a car of that kind on the road. He furnishes marketing of all kinds to our dealers, generally about the middle of the week.

The circus which recently passed through this region set half the editors by the ears, and both the Lewistown Democrat and Huntingdon Globe are much concerned for the Gazette because the agent advertised it in our paper. We will send our tickets for the next show to these editors.

B. J. Sills, Frank Heisler and Alfred Hull, butchers, occupy stalls in the market house on Tuesday, Thursday and Saturday mornings; and George Allen and the gardener across the river attend on the same mornings with vegetables, &c. Our citizens who desire to establish a market ought to buy there, as in no other way can the object be accomplished.

The 4th of July passed off here without any general public celebration, but as usual pistols, guns, fireworks, &c., kept up a stir from early morning until late at night. Parties were out in all directions, enjoying themselves in various modes, and so far as our observation went, less drunkenness than usual prevailed. The old Logan Guards were at Philadelphia at the flag presentations, occupying the right of the advance in the procession; and a large number of Good Templars were at Millfin at a picnic, where they got more "water" than the order bargained for, a hard shower falling just as they got to the woods. The ladies of the Episcopal Church got up meals and refreshments at the court house on the 4th and 5th, realizing about \$200, which we understand will be appropriated to the repair of the church. Among other features was a tasteful picture gallery, in which most of the good paintings in town were to be seen.

The following is a list of Orphan Children of Soldiers at McAllisterville School, Juniata county, of which G. F. McFarland is principal. These schools owe their existence to the munificent donation made to the State by the Pennsylvania Railroad Company:

Tribute of Respect.

At a special meeting of Mattawana Lodge, No. 82, Independent Order of Good Templars, held at their Lodge on the 4th day of July, 1865, to consider the death of SAMUEL M. MITCHELL, a committee of three was appointed to report resolutions expressive of sense of meeting.

The following preamble and resolutions were unanimously adopted: Whereas, It has pleased God, in His infinite goodness and all-wise providence, to remove from our midst our much esteemed brother and officer of this order. Our long private and short official intercourse with the deceased, enables us to appreciate his good and social deportment and unselfish disposition, it is now but grateful duty, although sad, to pay some feeble tribute to his cherished memory. Therefore

Resolved, That in him we have ever found a kind and social companion, a good officer and a true patriot of our glorious cause.

Resolved, That we deeply sympathize with the family of the deceased, who have been bereft of an industrious and studious son, a kind and affectionate brother, who when death was fast telling on him, he exclaimed, "Mother, mother, you have always been good and kind to me." That he gave unmistakable evidence of a christian young man is not to be doubted; and now in this your sad bereavement you have our heartfelt sympathy. For consolation, look to Him who visits you with affliction for wise purposes, for "He doeth all things well."

Resolved, That we attend the funeral of the deceased in a body, clothed in our proper regalia, and wear the badge of mourning on right arm for space of twenty days in honor to his cherished memory.

Resolved, That these proceedings be published in the newspapers of the county, and a copy of them presented to the family of the deceased.

Submitted in F. H. and C. SAM'L M. TROXELL, JR., JAMES H. ROSS, WILLIAM LYTLE, Committee.

The deceased was a half brother of Jas. Hackett, who died on last New Years Day. [Perry Co. papers please copy.]

COLORADO.—An idea of the value of some claims (100 feet each), in this district, may be formed when the fact is considered, that it often occurs that they yield millions of dollars, and have in several instances been sold for \$25,000 per foot. Mr. Fields, from 33 1/2 feet of the Bobtail Lode has taken out already over \$200,000 in gold, and \$26,000 has been offered and refused for 33 1/2 feet of this same lode, equal to \$800,000 for a claim of 100 feet. The opinion entertained by those abroad of claims in this district, is shown by the following: "English capitalists have purchased \$200,000 of the Colorado mining lands, and their agents and employees are now en route to develop the same. The claims are principally in Russell and Trail districts, and a recent purchase has been the Seaton Lode of 1,000 feet, for which they paid \$100,000." "All the properties of the Virgin Gold Mining Company are in this district, and 'original interests' in this company may now be had at \$100 each. They are offered at this price, not only to afford the man of moderate means as well as the

capitalist an opportunity to secure an interest in this region of inexhaustible wealth, but also, in order to get the list filled at once and to prevent any delay in the organization of the Company. Those who have not as yet sent in their subscriptions should at once do so.

Its a fact worth knowing and remembering, that at the establishment of Frank H. Wentz, in West Market street, may be found a very large assortment of Boots, Shoes, Gaiters and Slippers, both city and home manufacture—sold as low as the lowest, for cash. Boots, Shoes, &c., made to order in neat and durable styles.

One of the untried undertook to stop a locomotive the other day, and by some means found himself keeling over with a black eye. That locomotive has a considerable fist.

ACKNOWLEDGEMENT.—The ladies of St. Marks Church in charge of the Festival on the 4th and 5th inst., in aid of the funds of their congregation tender their grateful acknowledgements to his Honor, Judge Woods and the officials at the Court House for placing the hall and the Treasurer's and Commissioners' Offices at their disposal for the occasion.—To Mr. J. M. Weldon for the loan of a fine tone and excellent piano from his warehouse.—To Miss Hallie Hoffman, Miss Lizzie Grey and Mrs. Granville Patterson for choice paintings, their own work, adding greatly to the attractions of the Art Gallery improvised for the occasion.—To Drs. Van Valzah and Belford, Mrs. Miller, Miss Mary Wilson, Gen. Irwin, Geo. Blymyer and others, for similar contributions to the same purpose, as well as to all who contributed in various ways to promote its success. They would not be unmindful of those also who gave their presence and liberal encouragement to their enterprise, making it a success beyond their expectations. When we state that we realized about \$190, it will be seen how much we have to be grateful for, attesting as it does the open-handed generosity of our people to a good cause.

THE LADIES. Lewistown, July 10, 1865.

The American Agriculturist, in its May number endorses the Florence Sewing-Machine, in connection with some others, and states that they would not part with their sewing-machine, provided they could get no more for \$500. We quote their argument in defense of the statement: "The \$500 could be invested in U. S. bonds and bring perhaps \$36 a year interest. The sewing in one large family can seldom be done by two full days a week of steady hand-sewing, or four months in a year. But with any one of these machines a woman can sew at least eight times as fast as by hand, but allowing for all the basting, etc., call it only four times as fast. Then with a sewing-machine three out of four months' sewing can be easily saved! Can any one hire and board a seamstress three months for \$36. We know that any one of our lower-priced sewing-machines pays for itself every year with us. Then there is another important consideration. The cramped chests, the rounded shoulders, the deformed spines, the injured eyesight, all so common among those who sew much with the needle, are avoided by those who use a machine. The benefit in this respect by far outweighs the cost of the machine.

"So much for what we think and know about sewing-machines. We always advise every man who asks our opinion to get some good machine for his house, even if he has to sell an acre of land to do it."

We would add that for family use there is no machine giving such universal satisfaction in all points as the "Florence Lock-Stitch Reversible Feed Machine."

Lock-Stitch. 3t

James Parker & Sons Agents.

AUGUSTUS M. TROXELL, of Lewistown, a firm and undeviating Union man, is recommended by the Union party of Millin county, as a suitable candidate for the office of Associate Judge.

I will wholesale Glass Jars at the same figures they do in Florida, and Tin Cans lower than the city price. For spending an job work we would not let no one outdo us in price. We use the best material, and profess to understand our business.

I append the following card from H. S. Fisher, Patentee of my celebrated Spring Top Can:

Caution to Merchants & Tanners. Since the great success of my cemented paper rings for closing Fruit Cans, some have thought to drift into the same current of success by infringing upon my patent. Some cans longer patented than mine, on which gum had been used, under their patent arrangement, are now making their appearance with cemented paper rings, instead of the gum formerly used.

In most cases such infringements take place thro' persons not responsible, who take orders in country stores, while the manufacturers in the cities have for the most part concealed their work. This is to notify the public that the use of cemented paper, pressed into the same current of success by infringing upon my patent. Some cans longer patented than mine, on which gum had been used, under their patent arrangement, are now making their appearance with cemented paper rings, instead of the gum formerly used.

AGENTS WANTED EVERYWHERE.

"THE SOUTH!"

To canvass for the great book of 1866, "A Tour through the desolated States, and talks with the people, by J. W. THORNTON, Editor, from personal observations and experience during months of Southern travel.

The Author has had letters of introduction from men in high standing, to the head of all Government departments in the South, civil and military. Whatever is known in the South of the sufferings of the past, present condition, &c., as well as plans for the future, will be made known in this book. The great popularity of the author, and intense interest in the subject, enable him to make this far the best selling book before the public, while our very liberal inducements present a rare chance for Agents to make money. For circulars and terms, address the AMERICAN PUBLISHING AGENCY, 702 Chestnut Street, Philadelphia. jcl3-4t

Disabled Men. Attention.
