OUR NOMINEE FOR CONGRESS.

On Tuesday of last week, at the suggestion of the Mifflin Conferees, the Union Conference for this Congressional District met at Tyrone, Blair county, and organized. Cambria, Blair and Mifflin were fully represented, but the Huntingdon Conferees were not present. The Conference, after consulting, adjourned to meet at Huntingdon the same evening .-At the adjourned meeting the Huntingdon Conferees presented themselves, and the Conference at once proceeded to nominate a candidate for Congress. On the first ballot Cambria and Blair voted for Mr. Morrell, Huntingdon for Capt. Brice X. Blair, and Mifflin for Col. Taylor. On the second ballot Cambria and Blair, and Mr. Mendenhall from Mifflin, (7) voted for Mr. Morrell, Huntingdon (3) for Captain Blair, and Messrs. Woods and Henry of Mifflin (2) for Col. Taylor. Mr. Morrell was then declared the unanimous choice of the conferees.

The nomination of Mr. Morrell is one eminently fit to be made, and without intending to detract from the merits of those who have represented the district, we think we can safely predict that he will prove an honor to his constituents. The floodgates of party vituperation and detraction will of course be let loose upon him, and we shall also hear the stale old cry of "iron nabob," &c.; but in this case such silly stuff will but react on its authors. Our district is emphatically an iron district, and with that interest our prosperity is involved to a far greater extent than most people imagine. Mr. Morrell's letter to the Iron and Steel Association, written a year ago when he was no candidate, which will be found in our paper to-day, is so appropos to this subject, that we commend its perusal to all classes, and especially to workingmen.

To meet objections which have already been bruited around, we will state that Mr. Morrell came to Philadelphia when but twelve years of age and has ever since been a citizen of Pennsylvania-that through honesty, probity and untiring industry, he has risen in position to the head of the largest iron establishment in the United States, in the management of which he has secured the good will and esteem of ninety-nine out of every hundred persons in his employment, and that even those who have differed from him through strikes or other combinations, have never assailed his motives or integ-

In proof also that what we have said is neither flattery nor adulation, we may here state what we have often heard, that his regard for the welfare of workingmen has shown itself in acts which reflect the highest credit upon his kindness and benevolence. Among these is the fact that he advanced means to many of the employees of the Cambria Iron Works to erect dwellings upon vacant lots they had bought, and that he only required a payment of ten dollars a month upon sums so advanced, charging no interest whatever-thus enabling all industrious men

monthly rent for a few years.

In bringing these matters to public view, we feel assured we are doing what Mr. Morrell would decidedly object to; but as political wireworkers who oppose him would and will assail any man, however worthy, who may be placed in their road, we meet assaults in advance, and challenge contradiction from any authentic source.

The Pittsburgh Commercial, in noticing the result of the conferee meeting, says:

A Good Nomination.—The nomination of Daniel J. Morrell, Esq., in the Seventeenth Congressional District, is eminently one fit to be made. Mr. Morrell is one of the most extensive manufacturers in our country, and understands thoroughly the interests of Labor and Capital as affected by legislation. On the tariff question there are few more earnest or able advocates for protection for American Industry. His personal qualities and his many undoubted qualifications will command for him an extensive influence, and open a field of usefulness in the body to which, although the district is a close one, we do not question he will be chosen.

The Lock Haven Democrat announces the following programme for the fall elec-

"In those districts where the strength of the administration is sufficient to de-mand it, undoubtedly Johnson candidates for Congress and the State Legislature may be run, who will receive the support democrats. In other districts where the Republican majority can be overcome by the adhesion of Johnson men to the democratic candidates, the friends of the administration have no other course open to them than either to support the nomi-nees of the party with whom they substantially agree in principle, or by the in-troduction of third candidates into the field to divert from the Republican force what strength they can, and lay the foundation for future operations."

This is precisely what has been going on in this district; and to show how little regard is paid to common honesty, truth, and self-respect, we state the fact that sundry Johnsonites who are now electioneering for an independent candidate for the legislature, attended the republican delegate election, and in answer to the question whether they would support the nominees said they would, on which their votes were taken! When such unblushing and barefaced depravity is exhibited, what confidence can any democrat or copperhead place in them, or what security will they have that they will not also be cheated in the end?

S. Grant, General, Washington, D. C .: The more information I obtain of the affair of the 30th, in this city, the more revolting it becomes. It was not riot; it was an absolute massacre by the police, which was not excelled in murderous cruelty by that of Fort Pillow. It was a murder which the Mayor and police of the city perpetrated without the shadow of a necessity. Furthermore, I believe it was premeditated, and every indication points to this. I recommend the remov-ing of this bad man. MINERALS.-We last week briefly noticed that a large bed of iron ore had been developed on Mr. Gallagher's farm, about four miles up the ridge. Thus far it has been cut through to a depth of nearly forty feet, indicating a nest, but must conain an immense body of ore. The Wattson bank, which has been worked at different times and relinquished on account of water, is again yielding a large quan-

tity of ore under the management of

Alexander Berlew. An important discovery of a species of darkly variegated MARBLE has been made on the lands of Jacob Yeager, of Derry township, which, if properly worked, will yield a large return. The specimen we saw was of a brown color, mingled with green; and we learn that large blocks, of a rich mahogany color, and susceptible of the finest polish, can be obtained from the quarry. There is a fine field for enterprise in this business, and if, as is said, it exists in large quantities, such a quarry would be worth more than an oil

THE NEW PARTY MEETING.-There is no longer any democratic party in Mifflin county, the wireworkers having so managed it that they no longer call meetings under its old name, and are thus gradually merging the democracy into Johnsonism, just as the old whig party lost itself in Know-Nothingism. Well, good-by old fellows-we are sorry for you; but cannot help saying you have sold yourselves dog cheap, as one or two may get a bone to pick or a shank to gnaw, but all offices worth having are to go into the hands of those convenient gentlemen who can cry "amen" to anything the "tinderman" at Washington may say or do. The honest portion will of course cut loose from such unblushing political prostitution, and finding a party that stood by the country through good and evil report in the late trying times, with a platform just to all sections, will vote with that party. We shall welcome them to it; though they may find Union Republicans have hangers-on, camp-followers, office-hunters, &c., like the democracy that was, yet the mass are honest, true and patriotic, just as was the mass of democracy until false leaders and ambitious men misled them. The last shameless TLE to Miss AMANDA JANE DIEHL, both move in attempting to sell them to Johnsonism will we hope remove the scales, and enable them to see that their leaders are carrying them forward to another Southern rebellion, just as they did under Buchanan.

This new party held a meeting in the Town Hall on Monday evening, and after a vast amount of drumming, buttonholing, soft-soap and palaver, organized by appointing Samuel Aurand President, James Burns, Judge Coplin and other fledgelings Vice Presidents, &c. Joseph Alexander, Esq., was called upon to explain the object of the meeting, but in the midst of it had to give way to E. D. Parker, Esq., of Mifflintown, who with a slight change of names delivered nearly the same cockalorum speech he made in the diamond in 1864, when he said two millions of men would not submit to the re-election of Abraham Lincoln. Now, as then, he apologized for traitors and treason; now, as then, he advocated southern rights; now, as then, he denounced the men and measures which put down the rebellion; now, as then, he inculcated the idea that the North was wrong and the South right; now, as then, talked of blood and carnage in the future as glibly as did the canaille of St. Antoine in Paris in 1792; now, as then, fa-

miliarized his hearers to the destruction of law and order, as though our governinated Capt. B. X. Blair. ment could withstand the teachings of history and not fall into anarchy and confusion if those elements are once let loose. Against Gen. Geary he had wisely nothing to say, probably feeling that to laud D. J. Morrell having a majority of all a Vallandigham copperhead like Clymer the votes, was declared to be the nomiand disparage a noble soldier, might car- nee. ry his assaults too far. The best thing he did was to read the Constitutional Amendments, and though he desired to make it appear that southern traitors would be craven to submit to them, he failed to satisfy a single sensible man that they were not right, just to all white men, and lenient and magnanimous to those guilty of the high crime of treason. He was followed by Messrs. Doty and Uttley in some small potato remarks, when the meeting adjourned about as wise as when they went there.
