Cream Beer .- Prepare a syrup thus: Into 3 pints of water, put 2½ lbs. white sugar, 2 ounces tartarie acid, the juice of half a lemon, and boil together five minutes. Then stir into it 1 cup of flour previously mixed up with some water. When nearly cold, add the whites of 3 eggs well beaten, and 1 oz. essence of wintergreen. Put into a bottle and keep in a cool place. It is ready for use at once, but improves with age. To use, dissolve 2 tablespoonfuls of this in a tumbler of water, and stir in a teaspoonful of soda. Al ways shake the bottle well before using the syrup.—M. L. B.-[A little white of egg beaten and added to the common soda-water syrups gives a peculiar foaming or froth-like consistence to the fluid when the gas water is drawn in. We saw the directions for adding the egg sold in the West a few years ago, at \$1 to \$5 each to owners of soda water fountains .- ED.]

Wedding Cake. - (Pronounced excellent at a great many weddings, says the contributor, whose name is not on the sheet with this and sundry other recipes kept for publication as we have room): 1 lb. flour, 2 lbs. raisins seeded and chopped, 2 lbs. currants, 3 lb. citron, 1 lb. sugar, 3 lb. butter, 10 eggs, 2 wine glasses brandy. Stir sugar and butter to a cream, add yolks of eggs then spices, then the flour in which has been rubbed 2 teaspoonfuls cream of tartar and 1 of soda; then the fruit, and lastly the whites of the eggs beaten to a froth. The spices are, I tablespoonful ground cinnamon, 1 grated nutmeg, and I teaspoonful cloves. The loaves require from one to two hours baking.

Jelly Cake .- Mix 2 cups flour, 1 cup milk, 1 cup sugar, ½ cup butter, 2 eggs, 1 teaspoonful soda and 2 of cream of tartar. Divide into six parts, and spread each as thin as possible in pans of uniform size. Bake about three minutes; when done, lay together with layers of jelly between; cover the upper layer with plenty of sugar sprinkled on, or with a thin frosting .- Contributors name not given.

Bachelor's Pone. -Stir well together 1 quart sweet milk or sour milk with soda, 2 tablespoonfuls lard, 2 eggs, 4 teacups white corn meal, or enough to make a moderately stiff batter. Bake in a loaf in a quick oven .- Subscriber, Kent county, Md.

Soft Gingerbread. - Two cups molasses, ? cup butter or lard, I teaspoonful soda, ginger ard salt as desired; mix thin with flour .- Housekeeper, Worcester, Mass.

"Hasty Pudding"—A housekeeper directs: "Nine tablespoonfuls of flour, six eggs beaten light, one quart milk; have a hot oven, and bake 20 minutes. Eat with sauce; butter and sugar rubbed to a cream and flavored to your taste, is very nice."-Such a hasty pudding must be nice, if one has plenty of cheap eggs. We should want some sugar on it. Our home manuscript book calls this recipe "Sunderland Pudding."

Indian Meal Pudding .- Put a teacup ful of meal into a quart of hot milk. Add 3 beaten eggs, 1 tablespoonful ginger and cloves, butter half the size of an egg. Boil 2 or 3 hours in a boiler .- Miss Bell, Cattskill, N. Y.

THE QUAKER CUTTY?

PHILADELPHIA.

THE most complete and thoroughly appointed Business or Commercial College in the country.

MUSLINS,

the country.

The only one in the city possessing a Legislative Charter, and the only one in the United States authorized to confer Degrees of Merit. Diplomas awarded to graduates in the Commercial Course under its corporate seal by authority of law.

Conducted by gentlemen of liberal education and extensive experience in business, and affording unequalled advantages for the thorough theoretical and practical education of young men for the various duties and employments of business life.

THEORY AND PRACTICE COMBINED by a system of ACTUAL BUSINESS TRAINING

original and pre-eminently practical giving the stu-dent in the shortest time a complete insight into the routine, details, customs and forms of business in general, as conducted in the best-regulated commer-cial and financial establishments.

Theoretical Bookkeeping

Upon a new plan, with an original exposition of the science of accounts, arranged and published by the proprietor of this Institution exclusively for his own use, saving one-half the ordinary labor of the stu-

The Commercial Course

EMBRACES

Bookkeeping, Commercial Arithmetic. Penmanship. Business Correspondence. Commercial Laug, Lectures on Business Afairs. Commercial Customs, Forms and Actual Business Practice.

Special Branches. Algebra and the Higher Mathematics, Phonography, Or namental Penmanship, the Art of Detecting Coun-terfeit Money, Engineering, Surveying, Navi-gation and Telegraphing.

Telegraphing.

The arrangements for Telegraphing are far in advance of anything of the kind ever offered to the public. A regular Telegraph Line is connected with the Institution with twenty branch offices in various parts of the city, where public business is transacted, and in which the students of this Institution are permitted to practice. No regular office practice can be had in any other school of instruction in the country, without which no one can obtain a position as a practical operator. Young men are cautioned against the deceptive representations of those who, without any such facilities, pretend to teach Telegraphing.

Patronage. This Institution is now enjoying the largest patronage ever bestowed upon any commercial school in the State. Over five bundred students were in attendance the first year, and over seven hundred during the past year. The best class of students may invariably be found here, and all its associations are first-

Location and Accommodations. The Institution is located in the most central part of the city, and its accommodations, for extent, ele-gance and convenience, are unsurpassed. All the rooms have been fitted up in the very best style with BUSINESS OFFICES OR COUNTING HOUSES, TELEGRAPH OFFICES, STATIONERY STORE

BANK OF DEPOSIT AND ISSUE, supplied with finely-engraved lithographic notes used as a circulating medium in the Department of Actual Business.

To Young Men

And many other things—can't mention but few.
P. S. Many of the above mentioned goods are direct from the factory, and will be sold low for cash.
I will wholesale Glass Jars at the same figures they
do in Phila, and Tin Cans lower than the city price.
For spouting and job work we intend to let no one
outdo us in price. We use the best material, and profess to understand our ousness.
I append the following card from H. S. Fisher, Patentee of my celebrated Spring Top Can:

Caution to Merchants & Tinners.

Since the great success of my cemented paper rings for closing Fruit Cans, some have thought to drift into the same current of success by infringing upon my patent. Some cans longer patented than mine, on which gum had been used under their pater and a now making their appearance.

upon my pateut. Some cans longer patented than mine, on which gum had been used under their patent arrangement, are now making their appearance with cemented paper rings, instead of the gum formerly used.

In most cases such infringements take place thropersons not responsible, who take orders in country stores, while the manufacturers in the cities have for the most part concealed their work. This is to notify the public that the use of cemented paper, pressed upon the top of a fruit can, during the heated state of the fruit, so that when cold it is perfectly sealed, is an infringement upon my rights, unless used upon a can having a cap with my name stamped upon it. Any kind of cement upon this paper, undergoing a process of pressure during the cooling of the fruit, comes in contact with my patents, dated Nov. 12, 1861, Aug. 18, 1862, March 22, 1864. All who manufacture, sell, or use cans with cemented paper, which have not my name upon the caps, are liable for infringement.

H. S. FISHER.
