PUBLIC MEETINGS.

The friends of the Union Republican ticket are invited to assemble in the Town Hall, on SATURDAY EVENING, next, at 7 o'clock.

A meeting will be held at Bowersox's Schoolhouse to-morrow (Thursday) evening, to be addressed by Geo. W. Elder, and others.

At McVeytown, on Friday, at 2 p. m., where all desirous of hearing public questions discussed are invited to attend.

H. J. CULBERTSON, Chairman Ex. Com.

HOWE'S EUROPEAN CIRCUS.—This splendid concern, which is said to make the finest appearance of any traveling company in the United States, will exhibit here on Tuesday next, afternoon and evening; and from the energy displayed by the agent, we judge there will be a large crowd in attendance, as everybody and his wife, as well as the rest of mankind, are making preparation to go. Its animals are an attractive feature, embracing some splendid specimens of the forest denizens of Asia and Africa; and with good stock, excellent ring performers, and last, but not least, a jolly old clown who can tell why ladies put on the left stocking last, why he didn't marry the girl he wanted, how he felt when he ran for office and was defeated, as well as other matters and things worth hearing, and knowing, we predict a full and appreciative audience.

WRITING SCHOOL.—Prof. J. A. Congdon, who handles pen and pencil with remarkable skill, will form a class for taking lessons in writing at the Academy on Thursday evening, October 4th, when ladies and gentlemen are invited to attend. He has been engaged in teaching writing over ten years, and has taught acceptably in more than one hundred male and female literary institutions; he warrants a marked and satisfactory improvement in the handwriting of all who take lessons. It is a well known fact, that more improvement can be made in a few lessons, under a competent teacher of this art, than can be gained by years of mere imitation or practice. The system which he teaches, is remarkably legible, rapid and beautiful. Under his instruction it can be acquired with certainty in a few evenings.

A METEORIC SHOWER EXPECTED.—Many of our readers will remember the great meteoric shower of November, 1833, which was visible throughout North America. These meteoric showers are said by astronomers to be periodical, returning at intervals of about 33 years.—Professor Newton, of Yale College, who has devoted much time to the investigation of the subject, states that a similar phenomenon will probably occur about the 13th or 14th of November next, and so confident are astronomers generally that it will then appear, that extensive preparations are being made by scientific men in Europe to observe it. But thirteen appearances of meteoric showers are recorded since the year 903.

The Mt. Rock Mill is offered for sale. The weather has been quite pleasant for a week past.

Rev. John Moore, a colored preacher of the Methodist Church of some note, is on a visit home to his aged mother. He labors on the Pacific coast, principally we believe in California.

Why don't our shopkeepers get up some Self-Raising Flour? We have been using a small quantity in our family, where it is considered the best and handiest article invented for years.

Considering the specimen of paving done before the Henderson Hose House, we do not see with what propriety our Borough daddies can ask any one to pave with brick. The school lot on Third street has also an ugly hole in its pavement, which will hardly grow smaller, unless soon attended to.

The Democrat says Charles Wheeler killed a copperhead the other week at a wood shed of Samuel Aurdand's. That makes one copperhead less in Derry, and is a good sign for a Union majority at the election next week.

The Democrat is in trouble about the Union League meetings, and one of its editors says he can't see in at the windows. Why don't he go in at the door, like all other Union men?

Lost.—On Sabbath morning week, a small Breastpin, with hair and the letters G. R. inside on the back, in memory of an affectionate husband. The finder will confer a favor by leaving it at this office.

SECTION 5. That the possession of any person, in said counties, of any of the game and birds, mentioned in the different sections of this act, shot, killed, or otherwise destroyed, out of season, as aforesaid, shall be prima facie evidence to convict under this act.

SECTION 6. That any person offending against any of the provisions of this act, and being thereof convicted, before any alderman, or justice of the peace, aforesaid, or by the oath, or affirmation, of one, or more, witnesses, shall, for every such offence, forfeit the fine, or fines, attached to the same, one-half to the use of the county, and the other half to the use of the informer; and if the offender shall refuse to pay the said forfeiture, he shall be committed to the jail of the county, for every such offence, for the space of ten days, without bail, or mainprize: Provided, however, That such conviction be made within sixty days after the committing of the offence; and all laws, inconsistent herewith, so far as they relate to said counties, are hereby repealed.

Kishacoquillas Seminary.

The summer session of Kishacoquillas Seminary and Normal Institute, ended on Friday evening, Sept. 14th, with a spirited contest between the two flourishing literary societies connected with the institution. The large and intelligent audience, assembled on this occasion, was well entertained during the evening by the reading of two more than usually excellent manuscript papers, several essays, orations, and two first-rate debates, interspersed with appropriate vocal and instrumental music. Most of the speakers of the evening, especially in debate, acquitted themselves with credit; the best original oration, to our way of thinking, was delivered by J. Foster Bell; and in debate the efforts of Levi Garver, R. A. Patton, W. A. Huey, E. W. Rupert, J. C. Yoder, and others, were of noticeable merit. As usual the singing of Miss Florence Longwell was admirable.

Prof. S. Z. Sharp, the enterprising principal and proprietor of this institution, is beginning to reap the reward of his indefatigable and persevering labors, the past session having been more prosperous than any previous one, and the reputation of his school being now firmly established. Rev. S. H. McDonald still continues his acceptable and faithful labors in the department of the languages and the higher mathematics. Intellectual music is being well taught by Miss Annie Rohrer. The voluntary assistance of Superinten-

dent Mohler during a part of the session, was of great value to a large class of young teachers who attended the school. Persons in this and the neighboring counties who are preparing to teach, and all others who wish to secure a liberal academic education will do well to attend this institution.

A FRIEND OF EDUCATION.

The Democrat seems to be in favor of a few thousand whites in the south, late rebels at that, to have the power to elect a member of Congress because they happen to have a hundred thousand negroes residing in the district. We are not, but take the ground that 4500 voters in South Carolina, the number in one district there, ought not to have as much power as 20,000 in this congressional district. We say count no darkeys at all, and then it will take just as many voters south to elect a member of Congress as it does north. That's what we would call a white man's government, and that is what the amendments to the constitution provide.

Announcement.

I announce myself as an Independent Conservative Union candidate for the Legislature in this Representative District, and I would solicit the votes of all Conservative Union Men in it, irrespective of party. If elected, I pledge myself to faithfully represent the interests of my constituents. WM. WILLIS. Lewistown, August 15, 1866.

CAMPAIGNS OF THE Army of the Potomac, BY WILLIAM SWINTON, THE STANDARD HISTORY OF THE GRAND ARMY.

The greatest work on the War. Universally endorsed by army officers and the press. The author says: "I design in this volume to record what that Army did, and suffered in ten campaigns and two score battles." "I shall have to follow it through a checkered experience. In a tale replete with great misfortunes, great follies and great glories; but from first to last it will appear that, amid many blunders of fortune, through wisdom and rough weather, the Army of the Potomac never gave up, but made a good fight, and finally reached the goal." "This is the only Army critical work on the late war, and it is thoroughly critical and entirely devoid of all political bias or party spirit." This is the only history of the "Grand Army," and no one who has borne a part in its conflicts, or is interested in its grand achievements, should be without it. The work is full of interest to the people of political and partisan histories, and worth something from official sources. We have agents clearing over \$200 per month.
