NEW GOODS.—The public will please take notice that Hamilton's Store has been replenished with a new stock of seasonable goods, such as Calicoes, De-lains, Alpaca, French Merinoes, Shawls, Hoods, Gloves and Hosiery. Also Cassimere, Jeans, Satinets and Cloths for men's wear. With a good assortment of Umbrellas and Woolen and Cotton Flannels, with a great variety of other goods, all of which will be sold as cheap as the cheapest. nov7-1m.

APPLE PARER, CORER AND CUTTER COMBINED.—Henry Selick, of Ferguson's Valley, is the inventor of this ingenious machine, which, unless we are much mistaken, will find a place in every household where apples are used in any quantity. A sample, made of cast iron, was exhibited in our office last week, and a trial of its merits satisfied every one that it was far superior to anything of the kind hitherto invented. It pares, cores, and quarters apples so expeditiously that we have no doubt the whole operation of preparing apples for butter could be performed by a boy or girl in little over an hour; and for drying purposes the machine would pay for itself in a single season on any farm where apples are used for that purpose. It is substantially made, nothing liable to get out of order, and occupies no more space than the ordinary sausage cutter.

Stepping into the Lutheran parsonage the other day, we noticed that the pastor's study contained a new and costly lounge, that the windows were hung with handsome blinds, and that other articles of comfort, convenience and adornment were added to those already there. The ladies of the congregation had the matter in hand, and of course it was neatly accomplished.

PENNSYLVANIA RAILROAD.—Change of Hours.—The winter time table of the Pennsylvania railroad went into effect on Monday, and will be found in our advertising columns.

The Day Express train West, and the New York Express West, have been discontinued. The Way passenger train from Altoona that passed here at 9.34 a. m., and the Local Accommodation from the same place, that reached here in the evening, have also been taken off the road.

MUSIC.—C. M. Tremaine, successor to Horace Waters, 481 Broadway, N. Y., sends us three pieces of sheet music, viz: Tender Glance Schottische, by Mrs. Parkhurst; Waiting for the Loved One, a ballad, by Josephine Pollard and Henry Tucker; and Do not Heed her Warning, a reply to the Gipsy's Warning, a song which is much admired in our musical circles. Price 30 cents each. Address as above.

If you wish to trade with liberal, clever and accommodating men, go to Pratts. They won't split a grain of coffee, or bite a penny; and, as they are doing a fine wholesale trade, they can most certainly sell cheap; if a bargain in dry good or groceries can be had in this town, Pratts will give it. Syrups as low as 20 cents; Sugars, good, at 12 cents. Go and try their friends—you will be pleased with their clean, fresh stock.

SUDDEN DEATH.—Jacob Alter (a brother of Joseph, of this place,) died suddenly on Friday evening last in Brown township, probably of heart disease. He had been to the mountain during the day, came back, and after eating supper, started to go to bed. The family (Mr. Kyle's) hearing a noise, went up and found him lying at the head of the stairs in a dying condition. He was about 60 years of age.

The Teachers Institute opened on Monday with a fair attendance, and in the evening Prof. Woodruff delivered a lecture to a large audience. Yesterday evening Prof. Bailey gave his amusing yet instructive lecture on elocution, which was also well attended. The Mendelssohn Association furnished good vocal music each evening, so that there is quite a variety in the proceedings. About 50 teachers were present yesterday. Prof. Brooks will deliver a free Lecture this evening at 6 o'clock.

Mr. G. W. Cogley, itinerant retailer of woollens, manufactured at Gibbons's Factory, Kishacoquillas Valley, Milford county, seeing our notice in the Whip, called to supply us with a good, heavy article of flannel, one yard wide, at 90 cents per yard. But the reader will please notice that we have not received a single offer from a factory in Blair county, O, shame!

And Still Another.—George W. English, Esq., from the Milroy (Milford county) Woolen Factory, also called to supply us. But in this Congressional District seem to prefer to manufacture their own wool rather than sell it to speculators for other markets.—Blair County Whip.

Both the above factories make flannels, blankets, &c., far superior to the general run of goods found in stores; and we have seen a light cassimere, manufactured at Gibbons's, which would compete with any foreign article in appearance and vastly superior in texture. Both these establishments are too modest in their operations. If they would blow a little in the Gazette as to what they can and do, and make known where their goods are for sale, we have no doubt they would realize a large increase in their sales.

A fine buck, weighing 200 lbs. was killed in Armagh township a few weeks ago by Samuel Strong.

There is considerable hunting going on after wild turkeys in the ridges and mountains around town, but thus far the number of hunters exceeds the turkeys killed. This species of game is unusually abundant, but extremely wild.

We see notices in several papers of turkeys weighing from 6 to 7 pounds. We have three monsters in our possession, sent us by Judge Morrison of Wayne township, the smallest of which competes with the heaviest we have seen noticed, and the largest weighs 8 1/2 lbs.

Buckwheat Flour promises to be a favorite article on the table this winter.—Hundreds will use it because they like it, and hundreds of others because it is cheap compared with the exorbitant prices of flour. It started in, price at \$6 per cwt., next fell to \$5, and last week a considerable lot was disposed of at \$3.

A short time ago a prominent democrat of this county visited the Shenandoah Valley, Virginia, with a view of purchasing lands, and being a shrewd as well as discerning man, he made it his business also to know what status a northern man would hold there. His general conclusions are, that there is ample room for good investment, but whether safe or not, would depend upon the future course of the southern States; second, that a radical or war democrat, or indeed any one not in sympathy with the late rebellion, would find social relations governed entirely by such sympathy; third, that Union men are either shunned, disliked, or hated, according to the degree of acrimony with which rebellion endowed these narrow-minded people; and fourth, that Union men are few and far between.—When such a state of society exists in a section but little over a hundred miles from Central Pennsylvania, can any sensible man doubt the propriety of putting such communities in a state of probation, as proposed by the Constitutional Amendments, before again admitting them to political power?

The proceedings of Court at the late term were easy on the attorneys, the civil list having been continued with the exception of

Mrs. Hannah M. McKee vs. the Milford and Centre County R. R. Co., for damages in the burning of the plaintiff's property, on Water street, in January, 1855, by sparks from a locomotive. The Court instructed the jury to find a verdict for the defendant, on the ground that the suit should have been brought against the Penna. R. R. Co., because the latter company operated the road, at the time of the fire.

CRIMINAL COURT. Commonwealth vs. Col. F. W. Kerner. Indictment false pretenses. Postponed, and Kerner put under his own recognizance, for his appearance at next term. Com. vs. Daniel Bearly, Catharine Johnston and Anna Rider. Indict. larceny of apples from trees belonging to Mr. Palmer, near the mouth of Jack's Creek.—Verdict guilty. Sentenced to pay a small fine, and be imprisoned two days in the county jail, and the three jointly to pay costs.

Com. vs. Samuel P. Lilley. Indict. fornication and bastardy. Plead guilty. Sentenced to pay a fine of 50 cents, and costs of prosecution, and keep the child. Com. vs. Peter Johnston. Indict. selling liquor without license and on Sundays. Verdict guilty. Sentenced to pay a fine of \$10, and costs of prosecution, and be imprisoned 10 days. Com. vs. Samuel Smith. Indict. assault and battery, upon Geo. H. Calbraith. Plead guilty. Sentenced to pay a fine of \$12 and costs of prosecution.

Com. vs. D. Groves. Indict. assault and battery, for spanking Howard Steeley, who had broken a window and refused to leave when ordered away. Not a true bill and the boy's adopted father, Lazarus Steeley, sentenced to pay costs.

Special Notices. A HUMBUG. How often we hear this expression from persons reading advertisements of Patent Medicines, and in nine cases out of ten they may be right. It is over 19 years since I introduced my medicine, the VERTIGO LINIMENT, to the public. I had no money to advertise it, so I let it for sale with a few druggists and stock-keepers through a small section of the country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated on my pamphlet, no one need pay for it. In some stores two or three bottles were taken on trial by persons present. I was, by many, thought crazy, and that would be the last they would see of me. But I knew my medicine was no humbug. In about two months I began to receive orders for more liniment, some calling it my valuable Liniment, who had refused to sign a receipt when I left it at their store.—Now my sales are millions of bottles yearly, and all for cash. I warrant it superior to any other medicine for the cure of Croup, Diarrhoea, Dysentery, Colic, Vomiting, Spasms and Seasickness, as an internal remedy. It is perfectly innocuous, and externally, see each accompanying each bottle, for any kind of Chronic Rheumatism, Headache, Mumps, Frost-bite, Bruises, Sprains, Old Sores, Swellings, Sore Throats, &c., &c. Sold by all the Druggists. Depot, 55 Cortlandt Street, New York. oct10-7t

REASON WHY THE AMERICAN WATCH Made at Waltham, Massachusetts IS THE BEST. It is made on the best principle. Its frame is composed of Solid Plates. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanisms should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, scattered and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "straw," "leaves" and "English Patent Levers," are perfectly well aware of the truth of this statement. At the beginning of our enterprise more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million, to take the place of these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere. How well we have accomplished this, may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform our work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warranty is good at all times against us or our agents in all parts of the world. CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeit watches will be prosecuted. Alcock's Porous Plasters. BEST STRENGTHENING PLASTER IN THE WORLD. ALCOCK'S POROUS PLASTERS resolve and assuage pain by calling forth the acrid humors from parts internal to the skin and general circulation; thus, in many cases, positively evaporating the disease, and restoring the system to health. There is nothing equal, in the way of a plaster, to the Porous Plaster of Mr. ALCOCK. Everything is pleasant about them. They are the plaster of the day and a fit type of our present advancement in science and art. In Asthma, Cough, Kidney Affections, Gout, Rheumatism, and local deep-seated pains, they afford permanent relief. J. F. JOHNSON, M. D., on 'Topical Remedies.' From personal knowledge of these plasters, we can state that they are decidedly preferable to any other in use. Where relief is desired, and particularly by the use of a plaster, we should recommend them. A. INGRAM, M. D. Editor N. Y. Mentor. Agency, Broadway House, New York. Sold by all Druggists. nov21-1m.

Ayer's Cherry Pectoral. It is a soothing and expectorant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact, that it is the most speedily and agreeable remedy that can be employed. Scarcely any neighborhood can be found where well known cases of diseased lungs, which had baffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative properties of this preparation; and to them the authors point with peculiar satisfaction.—While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously. This health-restorer accomplishes even more, by prevention than cure. It is taken in season, it heals all irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevents the long train of painful and incurable disease, which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Consumption, and other affections of the breathing organs, give way before this pre-eminently combination of medicinal virtues. Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere. nov21-2m
