#### LOCAL AFFAIRS.

Jacob, son of David Mutthersbough of this place, had his leg broken while attempting to climb a fence at the Academy, on Wednesday or Thursday of last week. The boys were at play, and in trying to get over his feet caught when he fell backward, breaking his leg and spraining his ankle.

THE LECTURE.—The talented Pastor of the Presbyterian church of this place. Rev. O. O. McClean, will deliver a lecture in the Town Hall, on THE DIGNITY OF LABOR, on to-morrow (Thursday) evening. Having had the privilege of reading this lecture, we can assure our citizens that a rich literary treat is in store for them. For elegance of style and diction, richness of thought, beauty of expression, and sound practical teaching, this lecture is equal to any we have ever heard. We bespeak a full and appreciative audience.

The Holidays are fast approaching, and it is high time for every one to be thinking where they can purchase gifts to the best advantage. We would therefore apprise the public of the interesting fact that Grove will receive or now has a tremendously large assortment of goods for old and young. Visit his establishment, and be delighted with the display. He supplies parties and families with Oy-STERS, which can be had by the quart or pint, fresh every Saturday evening.

The "Eureka Bridle," patented by Mr. Joseph C. Haines, promises to supercede all other inventions for safely governing and curbing horses, being so effectual that any lady, girl or boy, with the slightest presence of mind, can check any horse disposed to be vicious or unruly, and thus prove a safeguard against accidents. It need but to be seen to be appreciated, for, while nothing could be more simple, its power in checking a horse is so apparent that it cannot fail to impress itself upon every one. But, besides, we have testimony of experienced horsemen, and we know that some of these aver they can drive and govern the most unruly horse in the county with the aid of this safety bridle, When we reflect that all horses are at times likely to be fractious, and consequently that all riders and drivers are thus in danger, wisdom would seem to dictate that every one owning a horse ought to have a safety bridle.

These Powders were formerly put up by Simpson I. Tobias, son of Dr. Tobias, and, since his death, the demand has been so great for them, that Dr. Tobias has continued to manufacture them. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urnary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush, of the Jerôme Race Course, Fordham, N.
