# THE GAZETTE.

## LOCAL AFFAIRS.

THE HOLIDAY WEEK .- The Episcopal Sunday School held its anniversary on Christmas afternoon, and had quite a pleasant time. Rev. O. O. McClean and night. It appears that the girl was in the Rev. W. M. Frysinger delivered short addresses, and at the conclusion of the exercises the school was taken to the basement, where a sumptuous collation of good things was provided.

Woods Lodge of Good Templars held a festival at the Apprentices' Hall, commencing on Christmas and continuing for he had done, immediately left town, but three days and evenings. The principal subjects of attraction, aside from the Christmas Tree, dinners and suppers, were an elegant Gown to be presented to the minister having the largest number of Claudia and Clara streets, West Ward. votes-a beautiful Gavel and Block\* to the society having the largest number of votes -a splendid Doll disposed of by number. and some other articles. Rev. Mr. Downs was the recipient of the Gown-the Ap-

prentices Literary Society took the Gavel, and Miss Bertie Shaw the Doll. The receipts were about \$300. \*This block was of beautiful marble,

and was presented to the Lodge by Dist. Deputy Stratford.

Lewistown Lodge, No. 203, A. Y. M., celebrated St. John's Day on Thursday evening at the National House, where a sumptuous supper was provided. The brethren of course were all in good humor, and as merry as a parcel of schoolboys with a long vacation before them.

On Saturday evening Captain A. W. Norris lectured on the war and gave an interesting account of his eighteen months captivity, hard fare and bad treatment .--He did not appear to have as much admiration for rebels as some folks we wot of. On Monday, a number of Soldiers' Or-

phan children from M'Allisterville School arrived in town and gave an exhibition to a crowded house. Numbers having been unable to get in, a second was given vesterday afternoon, and the third and last yesterday evening-the Town Hall on each occasion being filled. The conduct of the school children, their willing obedience to teachers and apparent kindness to each other, their progress in education and other useful matters, satisfied all that this institution is worthy of the munificent donation from the State and railroad company to those made orphans by an unjust and wicked rebellion. Many spoke well, but public opinion almost without exception seemed to point out Master Jacobs as the orator. The Drum Corps was also much admired, and Capt. Fry and his cadets were universal favorites. The proceeds of the exhibitions are to be devoted to the education of such orphans from this county as desire to remain at school after their legal term expires.

ANNIVERSARY .- On Christmas evening the anniversary of the Lutheran Sabbath School of this place was held in the audience chamber of the church, the exercises being interesting, and the house crowded. Each class presented an emblem, as follows:

INFANT DEPARTMENT. Class No. 1, Young Disciples, taught by Amelia Swain; Emblem, a Green Arch with the word Love in it. No. 2, Angels of Mercy, Mrs. Swan,

ACCIDENTAL HOMICIDE .- We learm from the Altoona Tribune that on Wednesday, 19th December, a boy named Singer, aged about fourteen years, while carelessly firing a pistol, accidentally shot a girl named Stahl, daughter of Jno. Stahl, formerly of this place, injuring her so severely that she died the following act of drawing or pumping water, when the pistol was fired, the ball from which struck her in the head, near the temple, rendering her insensible. She was carried into the house and medical aid summoned, but her case was beyond the physician's skill. The boy, upon seeing what returned after the Coroner's jury rendered a verdict of accidental shooting. Both families, to which the boy and the girl

belonged, live in a house on the corner of

THE WEATHER during the past few weeks has been extremely variable, the thermometer and barometer both showing great changes within very short periods. The 19th and 20th were windy with an evident tendency to cold weather, the barometer rising to 30 and the thermometer falling to 8° on the evening of the 20th. On the morning of the 21st it stood at 8° below zero, and in some exposed situations as low as 15. This was equal to the coldest weather we had last winter. During the day it moderated, and on Saturday morning the mercury stood at 22, on Sunday morning at 26, and on Monday morning (24th) at 40. The barometer indicated a change on Saturday by a gradual fall, which was followed by rain. During the last week the weather continued cold, with two days of terrible storm, drifting the snow in some places so as to render roads impassable. Since Saturday it moderated considerably, and yesterday the thermometer again stood above the freezing point; this morning at 12.

The ice afforded pretty good skating for several days, but has become rather rough from several snows falling.

The Presbyterian Sabbath School of this place will hold its anniversary on Sabbath afternoon next. The exercises will be o." an interesting character, singing, speaking, &c., and friends of the cause are invited to attend.

John Ensloe, of Granvillle township, killed a hog on the 20th December which weighed 616 lbs. clean meat. It measured two feet across the shoulders, five feet eight inches from ear to tail, and seven feet round the body.

Rittenhouse & McKinney sent us a specimen of their Golden Syrup on New Year's day-the finest article we have seen for a long time-and a sample of a new supply of Coffee, equal, we judge, to the famous lot they had some weeks ago. The Way Passenger train eastward has been transferred from evening to morning, now passing here at 10.00. This again gives the up-river folks an opportunity to visit Lewistown and return on the same day-an accommodation which the November schedule ignored. In other trains no change of moment was made.

A considerable quantity of ice was put up last week from what is known as the Sun Fish Pond. The great quantity of snow falling in the North, indicates spells, f not continued, cold weather this winter.

# BUTCHERS' NOTICE.

NOTICE is hereby given that owing to the cold weather, we have relin-quished our stall in the Market House for the winter, and may hereafter be found at all times, at

OUB OLD STAND, in Valley street, ready to supply custom-ers, and the public generally, with BEEF, PORK, VEAL, SAUSAGE, &c.

ing bearings, which form the points ob-between the rein and bit rings, and thus bit directly, when easy and steary dri-trol the animal, but when it requires a pplication of the bit, said bearings leav-and give way to the straps to which the about This is all described. t upon the o exita one being required, which or very person of the great superiority tisfy

tion to any other. The following certificates from well known gentle mon, some of whom have had much experience will horses will show the estimation in which this bridd is held :

Having occasion to try the Safery Frace invented y Joseph C. Haines, of this town where any runaway nare, the result has proven to my other satisfaction Lat any horse can be prevented from running off or iteling. Mr. H. M. Pratt, whose large experience with horses induced me to call upon him to drive my nare and test the safety bridle commiss in the opin-on that is in the best bridle that has for its object the safety for the safety bridle moder the safety for a safety bridle commission.

ion that is is the best bridle that has for its object the entire control of a horse in harness or under the sad-die Grow W. Hoovre, Lowerswa, Ang. 21, 1866. Joseph C. Haines—Dear Sir: After having fully tri-ed your Safety Bridle on my unirained colts. I find that your invention embraces alt that is desirable in a bridle. Its simple construction, and adaptation to any dommon bridle and any rein, cannot but make a bridle. Its simple construction, and adaptation to any dommon bridle and any rein, cannot but make a two universal. The case with which it can be ad-listed to a soft or hard monthed horse is an excellent feature, rendering its use as effectual in preventing running or kicking as any other patent bridle or refur and as easy on the month as the common bit, and as its sawgivs ready at the critical moment it cannot but recommend itself to all who will try or look at it. Respectfully yours, A. T. Hathreet, M. D. Lawistowx, December 8, 1866.

Lewspectfully yours, A. T. HARLEYEN, M. D. Lewspectrum, December 8, 1866. I have been driving horses since I know anything about them, and have drove some very vicions horses and colts. In driving such with a common bridle, I never feelbeing nor comfortable to enjoy the ride. It is more armoying, however, when you have persons with you and you can tell by their sourcemone that with you and you can tell by their countennioe that they devel enjoy the ride from fear of your horse ranging there is a bridle or bit so constructed that you could dure and hold horses with perfect case and safet. The first of this kind I happened to see was fir. Hartman's. I thought was very good, in the meantime it occurred to me that the way the lines worked on the bridle you could not draw the bit and let it.drop quick enough on your horses. Some horses and callet, how gould not draw the bit and let it.drop quick enough on your horses. Some horses and could be bridle you could not draw the bit and let it.drop quick enough on your horses. Some horses and could be bridle you could not draw the bit and let it.drop quick enough on your horses. Some horses and could be bridle you could not draw the bit and let it.drop quick enough on your horses. I had the same objection to it I had to ir. Hartman's. My attention was next called to Mr. Jos. C. Haines' Patent, of our town. My attention was arrested inmediately with the appearance of it. I have been using it for some railwast and other usy phaces, feeing quite safe. I think if embraces all you can get out of a bridle. If the puble once get to see this bridle, they eand help but understand its simplicity, durability and effective-ness, and taken together, cannot help recommending uself. Italicen to get the recommending the country in every direction crossing our public roads four or five times in an individual through the country is every direction crossing our public roads four or five times in an individual through the country in every direction crossing our public roads four or five times in an interview of public roads four or five times in an interview of public roads four or five times in an interview of public ith you and you can tell new don't enjoy the ride All parties are more or less utraid of masting the trains when they are traveling for fear their horses will take fright and not be able to hold them. This communi-ty remembers how seriously br. Isaac Rothrock, of Snyder county, was hurt at the crossing, at the new Thatfory, last May. He found the could not hold his horse and then got out of his buggy, and the horse tore him around badly. R. M. KEEVER,

tore him around badly. K. M. KEEVER, LEWISTOWN, Ph., August 21, 1866. This community is well aware of the fact that in the mulst of an extensive practice, Dr. G. W. Hoover was almost killed by the running off of his mare. I drove this mare in single harness by using the Eafery Bridle invented by Joseph C. Haines, and I found that she was centrely under uny control. I believe the Safety Bridle is all that can be desired for the security of life, limb, and vehicle when used either upon a decide or visions horse. H. M. PRATT. many persons having fractions horses are invited

nce to Mr. Pratt, and they can readily be satisfied that any horse can not only be prevented from kick-ing but from running stary. I have named the bridle "The Enreka," signifying I have found." JOSEPh. C. HAINES. Lewistown, December 12, 1866.
