#### The Reconstructed.

The Congressional Committee appointed to examine into the unprovoked murder of three soldiers of the army in South Carolina, have made a report, from which it appears that they were on guard, that two were shot, and the other thrown into the river-that the parties who committed the foul deed were formerly rebelsthat facy were tried by a commission, sentenced to be hung, but commuted to imprisonment in Fort Delaware-and released by order of Judge Hall, a Delaware copperhead, and are now at large. It also appears that A. H. Stephens, H. V. Johnson, and other Southerners, warmly solicited the pardon of these midnight assassins.

The testimony of Generals Schofield, Thomas, Sickles, Baird and Wood was taken by the committee. They have had, say the committee, the best opportunity for obtaining information, both personally, and also through the reports of their subordinates, and they have been constantly on the alert, as the government of the country has been substantially under their supervision during the greater por-

tion of the time they have had command. The result of their experi-

### The County Statement makes its last appearance to-day.

103° Kirkpatrick, best known as Old Kirk, the Perry county flifer, is dead. Delaune Gray died at Bellefonte last week.

Major Gen. Burnside has been unanimously renominated for Governor of Rhode Island.

The county bridge over Sherman's creek at Duncannon was carried off by the recent flood.

Since the hegira of the dead heads, is said the railroad has dispensed with a car from several of the trains.

BER Coffroth and Lloyd as assessors, and Swope and McCandless as collectors in this State, all appointed for political purposes, have been rejected.

100 Among those members of Congress whom rumor named as bargaining or compromising with the President, we no-tice the name of A. A. Barker.

Res Surratt has been handed over to the civil authorities at Washington for trial as an accomplice in the assassination of President Lincoln. The copperheads are

already weeping. Senator Saulsbury, of Delaware, a violent copperhead, joined the congressional temperance society on Saturday night a week, and next morning violated tae pledge.

157 In trouble—the Johnson democra-cy, because they fear he will make another swing round the circle, dropping them in thorny and barren wastes, where not an office is to be had!

Me The Selinsgrove Times says that the Directors of the Middlecreek R. R. Co. have reduced the salaries of the officers. That paper also condemns the per centage allowed for obtaining stock.

The bill making the Superintendent of Public Printing elective by the Senate, has become a law. The concern was fast becoming a copperhead loafing shop.

Mrs. Surratt was murdered by an illegal military commission .--- Selinsgrove Times.

What's your opinion about President Lincoln's murder?

The copperhead papers will never forgive the "Brave Boys in Blue" for putting down the rebellion—almost every sheet of that stamp we pick up containing some article either libeling them or those who gloried in their success.

152 At the funeral of Capt. Joseph Scovern, at Scranton, Pa., on the 15th inst., one man was fatally and two seriously injured, by the premature discharge of a piece of artillery used in firing the salute

Gov. Geary is putting a stop to the practice of the legislature of passing bills which the constitution has placed in the power of courts. He avows his belief that all such acts passed by the legislature are null and void.

103 The Bounty Bill which passed the House, gives each three year or during the war soldier \$8.33 per month, so that many will receive an addition to the \$100 here-tofore voted them. We hope the Senate will also pass it, whether the copperheads like it or not.

The Union Hotel, in Altoona, Krummeck's store room, with its con-tents, and that portion of the Row containing Ehringer's saloon, Kunz's clothing store, and Eckel's tobacco and segar store, were destroyed by fire on Tuesday morning of last week.

183. The Supreme Court for the District of Columbia has decided that it is not bound to admit rebels to practice there, notwithstanding the Supreme Court has admitted them, but that a district court can make its own rules as to who should be allowed to practice.

The tenure of office bill, which prevent an officeholder from being kicked in an out at the pleasure of political mountebanks, has become a law. Its necessity may be inferred from the fact that by the official report more than 1200 removals were made last fall for political causes, or in other words no cause at all. The decision of the Supreme Court of the United States in the case of the Mayor of New York vs. Sheffield, which was lately decided, establishes the liability of municipalities to pay damages for injuries to citizens, which arise in conse-quence of negligence of the corporation to keep streets in order or suffering obstructions on them. A Richmond paper thinks that in the present generation of New England public men had been more soundly flogged when they were school boys, they would probably have been better men.-The Springfield Republican happily re-torts: "If the present race of Southern leaders had been flogged at all in their boyhood, instead of amusing themselves by flogging young darkies, we should not have been under the painful necessity of flogging them in their old age, and we fear the job is not yet half done."

## Special Notices.

### Important Qualities.

Brandreth's Pills so stimulate all the interior powers of the system that every poison or impurity is forced from the system that every point of impurity is forced non-the blood into the bowels, and thus passes off. Recent ca-ses of sickness will often be cured by the effect of 6 or 8 Brandreth's Pills, which, when the operatio is full and complete, leave the blood as free from poisonous and un-healthy matter as that of a new-born babe. In colds, in-flammatory diseases, and even in cholera, their use reautimatory distance, and even in choicra, their use re-stores to health sooner than all other remedies, because they take from the blood and bowels those matters upon which pains, cramps, and aches depend for continuance. Captain Isaac Smith, of Sing Sing, says, thirty of Brandreth's l'ills, taken according to directions, cured him of a very severe bronchial affection after other means had fail-el, and he wishes his numerous friends to know the fact. Brandreth's Pills, Principal Office, Brandreth House, N. Y. Sold by all Druggists. See my name on Government stamp, without which the pills are spurious. B. BRANDRETH. feb20-1m

Free to Everybody.

servation is given in very forcible terms, and the committee call the attention of the House to their testimony, as they believe it can safely be made the basis of legislation. It would have been easy to have fortified their statement by statistics from the Freedmen's Bureau, but as the House is already in possession of the valuable information to be obtained from the same, it was not deemed worth while to duplicate it. The testimony of these wellknown witnesses exhibits the following propositions:

First. That for the punishment of crime in these departments the courts cannot be relied upon. In cases where soldiers, Union men or freedmen are concerned justice is practically denied, and offenses of grave character against them go unpunished, neither magistrate or juries being disposed to discharge their duties in

this respect. Second. That up to this time there has been no change for the better, but rather for the wors

Third. That unless substantial justice is done to the laboring classes hereafter, and to the Union men and Northern men who desire to go there to engage in business enterprises, no improvement in the state of affairs can reasonably be expected.

So much for one case out of dozens in South Carolina.

A half sheet Extra accompanies today's Gazette-being the third issue since the 1st of January.

The general jury bill, which has we believe passed both Houses, provides for the election of two Jury Commissioners in each county in the State, whose duty it shall be to meet at the county seat thirty days before each term of Court, in order to draw jurors for such term. These Jury Commissioners are to be chosen at the election next fall, each qualified voter casting a ballot for one person for the office, and the two receiving the highest number of votes to be elected. They are to serve three years, and be paid out of the county treasury at the same rate per day as County Commissioners are paid in the same county.

**163.** The recent one-sided decision of the Supreme Court, by which one man controlled the nullification of both haw and usage in a matter of vital importance to the nation, has awakended public attention to the necessity of requiring that no law should be declared unconstitutional without the concurrence of three-fourths or two-thirds of all the Judges.

Terrible Accident .- A terrible and probably fatal accident occurred in C. P. Markle & Co's paper mill, at West Newton, on Jan. 30th. Mr. Beamer, the foreman of the wood and straw department, was cidentally caught in the main shaft, and his body twisted around it six times. great was the velocity of the shaft that the boots and socks were hurled from the un-fortunate man's feet, and his clothing completely torn from his body, with the exception of a small piece of his shirt sleeve. His recovery is extremely doubt-ful.

Flood at Johnstown.—The ice in the Stony creek and Conemaugh broke up on the night of the 14th inst., and gorged below Johnstown, holding the water back and submerging the lower part of town. In some of the streets the water was several feet deep. Communication with the railroad station was cut off, and for a time railroad station was cut off, and for a time it was feared that the whole town would be "drowned out." At midnight the gorge gave way, and the only material damage done was the filling of hundreds of cellars with water, the breaking of a number of fences, and the pilling of ice along the river banks and in the streets.

The copperhead and patent democratic press has been making much ado about the legislature forbidding transportation companies from making distinc-tions in passengers. No law ever has ex-isted in this State making any distinction, and eventime for any distinction, and excepting a few white-skin-nigger-principle passenger railways in Philadel-phia, no railway, stage line, or other con-veyance, rejected passengers on account of color. The brutal and inhuman con-duct of the few made it necessary to pass an act treating all alike; and however much it may tickle the palate of copper-headism, we do not think it is much to Mr. Haines' credit that he voted against a measure intrinsically right and democrat-ic to boot. and excepting a few white-skin-niggeric to boot.
