SPRING ELECTION .- The following is a list of the Borough, Granville and Derry 79, Article 32, U. S. Revenue Laws. officers elected on Friday last. In the Borough the democracy, with the aid of copperheads, Johnsonites, and sundry temporary sojourners who had not resided six months in it as required by law, as well as supine republicans, elected nearly the favors, rejoiced greatly thereat.

RIVER DAMS.-The alteration in the Columbia Dam has already demonstrated that fish will again be caught in abundance in the Susquehanna and Juniata, if the obstructions now in those rivers are so altered as to permit their passage upwards. On Friday a week shad were taken at Fairview, a few miles below Harrisburg, and pike, rock, perch, and other migrating fish have already made their appearance in unusual numbers. We trust the present summer will not be suffered to pass by without an alteration in the dams on the Juniata, and if the Fish Commissioner will not at once see to their alteration, that the Grand Juries of Huntingdon, Mifflin, and Perry, will bring the question before their respective courts. No matter who made or who holds them. There are natural rights which no State nor company can destroy; and as our river is a natural highway, any obstruction which prevents fish from ascending is to our mind as much of an obstruction as a fence on a public road, and that any one can remove.

POWDER MILL EXPLOSION AND LOSS OF LIFE.-We regret to learn that IRA McManigal, son of Thompson McManigal, of Armagh township, in this county. was instantly killed by a powder mill exlast week. The sad details are given as

There were about ten tons of powder in the building at the time the explosion took place. Two men, Jasper Luck and Ira McManigal, were instantly killed and horribly mutilated. The latter was thrown a distance of three hundred feet from the little and literally blown to pieces. building, and literally blown to pieces, his bowels being torn out, and his limbs, hands, feet, and other parts of his body being scattered here and there. He had been a soldier, and while in the army had a finger shot off of one hand. By this his mangled remains were recognized.— The other man was badly mutilated, and could not be recognized. He was thrown nearly a quarter of a mile from the build-The explosion was most terrific. Every portion of the fated house was swept away, and only the blackened and torn up ground indicated where it stood. building within a circuit of a quarter of a mile was more or less injured. Several persons were prostrated by the shock and a child was considerably injured by a portion of the exploded building falling upon it. The Little Miama river runs near the scene of the explosion, and for a considerable distance the water was swept from the bed and poured in a flood upon the neighboring fields. Glass was blown from the windows of the houses in Oldfown from wiles swith of the mill in Oldtown, two miles south of the mill. The weatherboarding was furiously ripped from the sides of a large barn more than an eighth of a mile away. For a minute and a half after the explosion, the air was horribly convulsed, and terrific sounds, resembling a succession of heavy thunder claps and rolls, could be heard in every direction. The graining mill of this es-tablishment has been blown up frequent-ly before, but this is the first time the dryhouse has experienced a like fate. The mills are widely known as those of the Miami Powder Company. The entire loss of the Company by the explosion will not fall short of \$10,000.

COBBIN'S DOMESTIC ILLUSTRATED BIBLE which has recently been put in circulation in this State by Mr. H. A. I have for sale a WILCOX & GIBBS SEWING MACHING, with top-box and drawer, and all the latest improvements. Manafacturer's price \$60-I will take \$40. This machine has twice been awarded the whole ticket, and being thankful for small first premium, by the State Fair, as the BEST machine for Family Sewing. It certainly has no superior. This is a rare chance to get a first-class machine at a low price. The reason why I offer it so cheap is simply this: I want money. mar20 H. FRYSINGER.

> EMBER DAY.-Last Wednesday, being Ember Day, was wet and in the evening stormy, indicating according to the weatherwise a wet spring. Ember days in the early days of Christianity were observed with much solemnity, being devoted to fasting and special prayer for the divine blessing upon the fruits of the earth, while penitents humiliated themselves by sprinkling ashes on their heads.

> We have received a number of the Christian Family Companion, published at Tyrone, Pa., by H. R. Holsinger, at \$1.50 per annum. It is filled with wellwritten religious articles from the pens of "German Baptists" generally known as Dunkards, to which church this paper is specially devoted. We have entered it on our exchange list.

SOMETHING NEW AT GROVE'S .- The latest and best article for housekeepers, ever received in town, is the Azumea Baking Powder-it requires only half as much as any other, and is cheaper; also, salt fish, smoked pork and sausage, dried and canned fruit, prunes, raisins, lemons, musk drops, and anything usually kept in stores of the kind.

GOT OFFICES.—We are pleased to state that WM. F. SHAW, Esq., has been appointed one of the Assistant Doorkeepers of the House of Representatives at Washington, a position we have no doubt he will fill with credit and ability.

Our neighbor of the Democrat has also got an office with little work and good pay, to wit, School Director of the Borough of Lewistown.

GOOD IMPROVEMENT .- The Burgess and Town Council have erected street lamps at the intersection of the alley with Main, Brown and Dorcas streets, thus affording additional light to church goers on dark nights to the Lutheran, Presbyterian and Methodist. If less attention was paid to the moon and more to dark nights, it would make another decided improvement—one too which could easily be made up by omitting lighting during clear evenings in summer, when gas lights are of little use except to draw together gnats, bugs and other annoyances. It would be a good idea to put up three street lamps every year, and we would suggest opposite the Henderson Hose House, opposite Apprentices Hall, and midway between Brown and Dorcas streets, on Third as the next most suitable places.

THE CANAL. - Considerable feeling has been manifested by a report that the canal would be closed altogether in 1868 for the purpose of enlarging it, and many persons seem to be under an impression that plosion near Xenia, Ohio, on Tuesday of the Pennsylvania Railroad and Canal Company had a law passed for this purpose. We think this is a mistake. The "The dry house of King and Dickey's powder mill, situated on the Little Miami Railroad, three miles south of Xenia, O., blew up on the morning of the 12th. pany, which is authorized to purchase the canals, and to facilitate the enlargementand improvement thereof is "author-"ised and empowered to suspend the nav-"igation of the canal, on any part of it being enlarged, for a period of not more "than one full boating season, or one-half "of two successive boating seasons." We do not believe this could be construed as authority for closing the whole line unless every part of it was put under process of enlargement. As the company above referred to has not yet purchased the canals, we presume there is at present no cause for alarm, as ample notice would no doubt be given whenever it becomes owner and concludes to enlarge.

> There was a general rush to Galbraith's meat shop on Saturday last. The beef was of the best quality, but only a fair sample of what will be constantly kept on hand.

But it must be borne in mind that the original ownership of the lands in Pennsylvania, dated from the creation of the colony, and was transmitted to the Commonwealth whose claims are not controlled by limitation, and debts owing to which can never die out. There are many farms and tracts in this county not free from State dues, and which self-interest ought to be inducement enough to look after, as when collected interest will be charged.

LAMP EXPLOSION .- On Sunday evening a week, an old lady, named Mrs. Katy McKnight, residing at the foot of Hale street, was seriously if not fatally injured by the explosion of a coal oil lamp. As we hear the particulars, they are these: She was reading with the lamp upon her lap. It accidently tilted, and in falling exploded, spreading the burning oil over the entire front of her dress. She ran out the front door screaming in terror, her garments all in a blaze. Some of the neighbors ran to her relief, tore off her clothes, and thus saved her from literally roasting alive. She was, however, badly burnt, and her sufferings have been excrutiating. Her recovery is still doubtful.-Democrat,
