Good Doughnuts. - One and one half cups of brown sugar, two eggs, a piece of butter the size of an egg, two and one-half cups of sweet milk, one teaspoon of soda; flavor with nutmeg and a little salt; flour enough to make sufficiently stiff to roll out, and fry in hot

Scouring Knives .- A small clean potato, with the end cut off, is a very convenient way of applying brick dust to the knives, keeping it about the right moisture, while the juice of the potato assists in removing the strains from the surface.

Carrot Jam .- When carrots are in perfection, clean and peel as many as you wish to make into jam. Put them into a closed stewpan, with as much water as will prevent their burning. Bake them, and, when cold, pulp them through a seive. To every pound of pulp add the same weight of sugar. Boil it well, and, when cold, add lemon juice to taste.

Freckles are removed in a surprising short time by a perfectly new process, which no one but the writer is acquainted with. This process I have tried first on my own person, and the good effect obtained warrants its general introduction into the toilet rooms and boudoirs of the world. Here it Take pow lered saltpetre, and apply it to the parts affected by the finger, moistened and dipped into the powder. This is the whole proceeding; when properly done and judicious ly repeated, it will remove all the freckles from the face.

Cranberry Tart .- Take half a pint of cranberries, pick them from the stems and throw them into a saucepan with half a pound of white sugar and a spoonful of water; let them come to a boil; then retire them to stand on the hob while you peel and cut up four large apples; put a rim of light paste round your dish; strew in the apples; pour the cranberries over them; cover with a lid of crust, and bake for an hour. For a pudding, proceed in the same manner with the fruit, and beil it in a basin or cloth.

> TWO VALUABLE Machine Stitches:

THE GROVER & BAKER

ELASTIC STITCH AND THE

SHUTTLE OR LOCK STITCH. HE Grover & Baker Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew direct from the spools, and require no ewinding of thread

rewinding of thread.

2. They are more easily understood and used, and less liable to derangement than other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

which require to the manner in which the softer stitch.

5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that though it be cut or broken at intervals of only a few stitches it be cut or broken at intervals of only a few stitches it will neither open, run, or ravel, but remains firm and

7. Unlike other machines, these fasten both ends of 7. Unlike other machines, these fasten both ends of the seam by their own operation.

8. With these machines, white silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.
