13 H. Frysinger is opening an Agricultural and Household Implement Depot. adjoining the True Democrat office, and will sell all sorts of implements at manufacturers' prices.

Agricultural Land Scrip .- As many persons do not seem to comprehend the advertisement published for some weeks in the Gazette relative to the proposals for Land Serip, it may not be out of place to say that this presents an unusual opportunity for procuring public or government lands. Proposals will be received for a quarter section (160 acres,) half or whole section, or ten, twenty, fifty or more quarter, half or whole sections. This scrip can be located on any public lands subject to entry, in the United States, and can no doubt be procured much cheaper than it can be purchased from the government. The highest bids at the last sale were 90 cents per acre, the lowest 55 cents, the latter probably for large tracts. The proposals must be forwarded to the Surveyor General by Wednesday next.

Fire.-The large brick barn on the farm lately owned by John Brought, now the property of Thomas Mayes, about a mile west of town, was discovered to be on fire on Monday morning, between four and five o'clock. The live stock belonging to Mr. Brought was still in the stables and was with some difficulty got out safe, but a quantity of hay, straw and corn, together with a new spring wagon owned by Robert S. Shaw of this place, were consumed. The alarm in town was not given until nearly five o'clock, and although a large number of persons repaired to the spot, the fire had done its work. The morning fortunately was calm, with showers of rain, or the house would also have shared the fate of the barn. Mr. Brought had removed a great part of his personal property, as well as his son who was lately stabbed with a knife, and intended to leave finally on that day. The hour at which it caught, with some other

Something Else .- We have on sale this week a large stock of Fancy German Trays and Waiters at one-half the usual price. Also, a lot of stamped, japaned and toilet ware, such as foot tubs, slop jars, water carriers, chamber buckets, wash bowls and pitcher, spittoons, tea and coffee canisters, &c., &c., at the Big Coffee Pot Sign.

Have You Heard It !- Twenty-six good recipes for baking bread, cakes, doughnuts, potpies, puddings, &c., accompany each box of the Azumea Powder, for sale at Grove's. It is the table-talk in families where it has been tried. Put up in different sized boxes. While in his establishment, purchase one of those nice Mackerel, Herring, or White Fish. He has Coffee, too, from 25 to 30 cents. Reduction in prices of Groceries generally.

Spring Work is Coming on in the Field, Orchard, ard Garden, and in the grounds about the house as well as in the house. The best information about the most pleasant and profitable method of performing this work is, of course, to be found in that large, reliable and cheap journal, the American Agriculturist. We have received the April number, and it fully carries out the publisher's promise to always keep on making every number better than the previous one. This, like every other issue thus far this year, has eight large pages extra. This single numper contains between forty and fifty pleasing and instructive engravings, one of them a full page, and several others very large and beautiful. A full three-page calender of Work to be Done will furnish many useful hints for the farm, garden and household. A slashing article on Humbugs exposes by name a large number of the swindlers of country people There are, besides, more than a hundred articles and items full of instruction to every cultivator of a garden plot, or a farm. More than 150,000 people now enjoy the advantages offered by the Agriculturist, and everybody else, and his wife (and children also) should have it. Its beautiful pictures are alone worth many times its cost, which is only \$1.50 a year, or four copies for \$5. Take our advice and try the Agriculturist this year, and we will gaurantee satisfaction. ORANGE JUDD & Co., 41 Park Row, New York

#### MARRIED.

In Mount Joy, Pa., on the 26th ult., at the residence of the bride's parents, by Rev. J. P. Miller, MICHAEL HINEY, of Lewistown, and Miss MARY A. KREINER, of Mount Joy. By the above it will be seen that our Register and Recorder, to whom be long

life and happiness, has taken an assistant. DIED. Communicated. In Lewistown, on the 20th of March.

1867, Mrs. NANCY VINES, aged about 82 The deceased emigrated to this country The deceased emigrated to this country with her parents probably in 1796. She became plous when quite young, and was for many years a member of the Presby-terian church. After removing to this place in 1841, she connected herself with the Methodist concreation, of which she the Methodist congregation, of which she had been since that time, a zealous and efficient member. For several years she was unable, from increasing infirmity, to attend church, but was always punctual and faithful in the discharge of her pri-vate religious duties. Her Master's sum-

mons came to her suddenly at last, and she died, giving bright evidence that she has gone to be forever with the Lord.

On the 23d March, in Mechanicsville, DASIE, daughter of Joseph and Rachel Potts, aged 7 years, 3 months and 19 days. Dear little Dasie has gone to rest. After long but patient suffering, death is over and never will our loved one suffer more. No, no; comforting thought in our sore bereavement, her cherub face may now forever wear a smile. But alas! how sadly we shall miss our dear little sister from our home-circle. We can scarcely realize the painful truth that her place is vacant there—that her angel voice will no more mingle with ours in singing those infant songs which she loved to hear and delighted to sing-that she will come no more with her little hands reverently clasped to kneel at mother's knee to lisp her evening prayer. Oh! how sadly we shall miss her, only our aching hearts can know. Her sweet disposition endeared her to all her playmates, while to father, mother and sisters she was a treasure of untold value. Our love was almost idolatry—and God in his wise though mysterious way saw best to remove our darling from us-to trans-plant our little flower in the bright fields of Paradise, where our Dasie is now a perfect flower, of celestial fragrance, des-

tined to immortal bloom. SISTER.

Of course the play-going folks will be on the tip-toe of expectation, and crowded houses may be looked for, as although many object to anything in the shape of a theatre, there is much in the legitimate drama "To wake the soul by tender strokes of art. To raise the genius and to mend the heart."

Sucker Fishing .- During the past winter an immense number of suckers were caught with hook and line in the Kishacoquillas dams, the fresh waters of which make them an excellent pan fish. This mode of fishing in the winter, although le praticed lately until again successfully revived by Mr. Leper, whose unaccountade "luck" stirred up a battalion of old property of L. T. Wattson, Esq. and young in pursuit of the finny tribe." the "hexerei" he used, and the apothecaries sold lots of assafeetida, oil of rhodium, oil of amber, &c. to mix with the worms used for bait. Like all other fishermen some were successful, others not. As spring came on fishing was transferred to he river, and thousands of suckers have een eaught during the past two or three eeks, though mostly those known as vhite suckers, a bony and much poorer sh than those more closely allied to the haullet.

> The offices in this district continue in statu quo. David Caldwell was nominated for U.S. Collector a few weeks ago and for twenty-four hours copperheadism was all aglow at his reported confirmation, but it ought to have read rejected instead of confirmed, whereupon jaws fell and countenances elongated to their original length. Mr. Hildebrand was nominated for P. M. at Huntingdon and rejected, and since then F. B. Wallace has shared the same fate.

#### NOTICE.

The beautiful Piano Fortes of GROVESTEEN & Co. are deemed by all good judges to be the Ultima Thule of instruments of the kind. We cannot suggest what is wanting to make a mu sleal instrument more perfect, although we are slow to admit that the limit of improvement can ever be attained.

Before they had brought their Pianos to their present excellence, they had submitted them to co tition with instruments of the best makers of this country and Europe, and received the reward of mer it, over all others, at the celebrated World's Fair. It is but justice to say that the judgment thus pronound has not been overruled by the musical world.

Still, by the improvements lately applied by them to their Pianos, it is admitted that a more perfect instrument has been made. They have accordingly achieved the paradox of making excellence more excellent. Surely, after this, they are entitled to the motto "Excelsior." nov14-1v
