20,000 Sweet Potato Plants for sale by F. G. Francis.
The Kirby Reaper and Mower for 1867.
Jenkins & Tongue's Hatchets.
Shoe Jours Wanted—Auditor's Notice, &c., &c.
Don't forget Mr. Nourse's sale of personal property on Saturday next at the Academy.

Public Meeting.—A meeting will be held in the Town Hall, on Thursday evening, 23d, at 7 o'clock to devise means to aid the Tenth Relief Fund. Members of the Executive Committee of Mifflin Co., are especially requested to be present.

The Exhibitions of the Public Schools of this Borough, on Thursday and Friday evenings last, were attended by vast crowds of parents and friends. As usual on such delightful occasions, Lewistown was proud of her scholars. These exhibitions of pieces and characters, the parts so well committed, and the performance of all the children, indicated that both teachers and scholars had earnestly and attentively engaged in the work before them. All felt that it was a success. At the close, Miss Mary McCord, one of the teachers of the High Schools, was presented with a handsome bouquet, a tribute of regard and esteem from her pupils. The proceeds amounted to \$113 above expenses, to be appropriated to the purchase of astronomical and geographical apparatus, maps, &c., for the use of the Schools.

Fishing Trip.—We spent a few agreeable days in Licking creek valley last week, catching a fair number of good trout. Great changes are taking place in that region, the chopper's axe having been busy in all directions in cutting out ties and staves, which are floated down the stream, the channel having been cleared out for that purpose. We left for home on Friday morning, crossing the mountain opposite Minchart's Gap, and took the cars at Granville Station, where several dwellings have already been erected with quite a demand for more. The remainder of the party staid until Saturday, got astray in crossing the mountain, and had a rugged pathway until they reached the gap.

Medical Convention.—The State Medical Society will hold its annual meeting at Pittsburgh, commencing on the second of June. The session will continue three days. It is the intention of the Allegheny County Association to give the body a public reception, and to this end preparations are being made. George's full hand has been engaged for the occasion. Among other papers, will be one from Munich, written in French, on a prize theme offered at the last session of the Convention.

Attempted Suicide.—The Mount Union Times gives the following curious account of an attempted suicide:

On last Saturday, a man living in Newton Hamilton, by name of Felt Smith, attempted suicide by cutting his throat with a penknife. The following are the particulars of the affair, so far as we have been able to learn them: It seems that Mr. Smith has been laboring under a mental as well as physical disorder for some time back, and on Saturday last he went to the store for some kind of patent medicine. After taking some of the medicine, he got an idea in his head that it contained a quantity of brandy. Being a good Templar, he seemed to be very much interested in the idea of drinking brandy, and said it "would send him to hell." He went to an orchard near by, and with his penknife cut his throat three times. When found he was very nearly dead; but from latest accounts he will likely recover. It is said he has a considerable amount of Government bonds before he attempted to kill himself.

The Pennsylvania Reserves.—The first Annual Meeting of the Pa. Reserve Association, will be held at Harrisburg, on the 20th May, 1867, Gen. Wm. McCandless has been selected as the orator for the occasion. All members of the above distinguished organization during the war, are earnestly requested to attend. The 20th of May, 1864, the Reserves fought their last battle as a body. This is the anniversary. A. G. Curtin, President; Gen. Sickles, Vice President; Gen. J. P. Taylor, Treasurer. A banquet will be served at the State Capital Hotel in the evening.

A Word of Caution.—Our readers in buying cheap Sewing Machines, should be careful in making the selection. There are but two low priced Machines made in this country which are really PATENTED, namely, the "BARTLETT," of New York, and the "Shaw & Clarke" of Maine; and the "BARTLETT" is the only one that is also fully LICENSED by the manufacturers of the higher-priced machines. We mention this because those who buy or use an infringing machine are just as liable to prosecution, under the U. S. patent laws, as are those who make or sell it.

Mrs. Margaret Wareham, Mill-street, has received new dress and coat patterns and is prepared to accommodate all with plain or fancy sewing.

Grove's is retailing out the finest cheese we have tasted for some time. He is famous for keeping good articles of all kinds, and nobody can go amiss in calling on him for anything from a smoked herring to a barrel of sugar.

For Sale.—A large lot of ground in the western end of town, with a small dwelling, fruit trees, &c., thereon. Price \$500. This would make a cheap home. Inquire at Gazette Office.

Some bad fell on Friday last. Walnuts wanted at Grove's, for which he will pay a good price.

The weather continues wet and unfavorable for corn planting.

Allen is attending market with vegetables of his own raising.

A lady friend sent us some pounds of honey comb the other day, the equal of which we have not seen for many years.

Corn Planters Wanted.—The protracted rains have thrown back corn-planting in this county; but fortunately all farmers who hand in their orders soon, at Frysinger's Agricultural Implement Agency, can be supplied with Corn Planters or Droppers (whichever they want,) that will do up the work in a few days.

Frysinger has the Morrison, which scores out, plants, plasters, and covers, all at the same time, besides putting in pumpkin seeds, if desired. Also, Wanbaugh's and Heidler's, which are both old and popular machines.

He has also a capital little Corn Dropper, with which one boy can drop corn in hills as fast as four men. Price only \$21.

Odds and Ends.
Reese has refitted the Patterson House. James McCue, an employee on the stone wall in Jack's Narrows, fell on the rocks below while shifting a derrick, and was badly hurt.

We have 21 bundles of rag Printing Paper, of good quality, 22x32, which will be sold at less than cost for cash. Weight 50 lbs per bundle—price 17 cents.

The best appointment made by the President for a long time is that of the Hon. George Bancroft as Minister to Prussia, in place of Hon. Jos. A. Wright, deceased.

The Miners' Journal chronicles the sinking of a house with all its contents at the foot of Mahanoy plane. It fortunately occurred in day time, and no human life was lost.

The rebels at Mobile got up a riot last week when Judge Kelly was speaking, during which four or five persons were killed. He told them however he had the 15th Regt. U. S. Infantry at his back and intended to talk, which he did.

Jeff Davis is on his road to Canada, where he can live in his princely style on the money furnished by his dupes, or get up another rebellion. He was in New York last week, waited on by his old friends who helped him all they could to destroy our Government.

Six runaway boys from Philadelphia were arrested last week at Harrisburg while endeavoring to force an entrance into a car. The best cure for such chaps is to let them run for a while, as they soon find the difference between home and no home.

The Cambria Freeman, edited by Conditin-the-Congressman R. L. Johnston, thinks our defense of the Legislature a large undertaking for so small a paper. Perhaps it was—but for all that it wasn't as large as a gang of soreheads undertook at Tyrone last fall, nor half as large as Morrell's majority.

A young man named Anos Baker was lately arrested for stealing a horse from Mr. Fox of Perry county, for whom he had been working. He is the same person who killed his cousin about a year ago, and who after a hearing before Judge Graham, on a writ of habeas corpus, was discharged on the ground that the shooting was accidental.

Fortune telling continues to be a thriving business, several parties in town being engaged in it, all of whom appear to be well patronized. As numbers go back after a first visit, it is supposed to be profitable on both sides. A resident of Third street says that in nine cases out of ten, when he sees ladies rigged up and sailing out that street, he can tell their errand.

Our old bread, butter and trout friend of the Hollidaysburg Standard is itching badly for a take. As soon as we hear of one that will pay his calbre we'll let him know, though as the halcyon days of democracy, when wood was piled up hill and the front only measured are no more, we fear his chances are slim.

Vallandigham and Jeff Davis however may be in the market, and on proper application he might perhaps get a C or even a D.

Concerning the pay of the New York Journalists, a correspondence of the Boston Voice says: "The Tribune employs fifteen reporters at an average salary of \$23 per week; the Herald twenty-three at an average of \$17; the Times a bitter opponent of workmen's associations, ten reporters at \$23 per week average; the Sun a rampant advocate of the labor movement, five men at an average of twelve dollars; the Post four, at an average of the World eight at an average of \$13; and the Express six, at an average of nine dollars. It appears from this that the best wages are paid by republican papers—the worst by democratic.

General Sheridan has interdicted the carrying of firearms, except by those whose duties require them to be armed.

The United States Supreme Court during the term just closed disposed of two hundred cases, leaving two hundred and fifty still on the docket.

Notice to Farmers.—Go to H. Frysinger's Agricultural Implement Agency for Corn Planters. Try them; if they don't do the work right you need not keep them. Price \$20, and \$28.

Southern Correspondence.

KNOXVILLE, Tenn., May 15, '67.
This town of Brownlow notoriety is 130 miles from the Virginia line down the East Tenn. Valley. This valley is from 25 to 30 miles wide, and is drained by the Chuckey, Holston, and Clinch rivers. The upper part of the valley for a distance of 40 miles is broken by numerous irregular limestone ridges, but the lower part, our rapid streams dash themselves along, offering unsurpassed inducements to the manufacturer. Along these streams are narrow valleys of the richest land. The ridges, too, are very fertile, but too steep for successful cultivation. Nowhere could the manufacturer do better than in East Tenn. For a distance of 100 miles there is not a single woolen factory. The spinning wheel and the loom are yet heard in every farm house. The manufacturer and farming implements would be exceedingly lucrative. Grain drills and reaping machines are curiosities to the farmer.

FARMING.
This is in a wretched and unscientific manner. It is done by means of a "bulltongue" or shovel plow, which merely scrapes the surface a few inches. Corn is planted successively in the same field, and very often without replowing, yet an immense quantity of corn is raised. Wheat this year is in a very backward state, scarcely as far on as in Penna. I would attribute this to their time and manner of sowing. Renters can do well here. They need not pay any tax on the land and get two-thirds of all they raise. Since the negroes are liberated and farming stock driven away by the armies, there are thousands of acres of the very best land lying waste. The few farmers, Farmers with small capital cannot fail to do well here. Large crops of corn are put out with one yoke of small oxen.

FREEDMEN.
These are the bone of contention now as much as ever, not only as to the "nigger" but whom will the "nigger" have. Radicals and conservatives are playing this game, each proving to the negro that he has been his best friend and therefore entitled to his support at the coming election. Some freedmen are obliged to vote as their employers want them or be driven with their families from their homes. A few are too ignorant to understand the issues of the contest and vote to the highest bidder, and judging from what we have seen last week, I know what party they will support. Occasionally a colored man of influence is bought by the conservatives. In Hawkins county they gave one a house and lot worth \$500 to stand for the Southern party, but he was everywhere hissed and hooted by his colored brethren and obliged to desert. They knew who their friends were in the past.

THE REBELS.
No class of men are more completely cowed down than the rebels of Tenn. Not long ago they were perfectly rampant, openly avowing that, with Andy Johnson at their head and the conservatives in the North to assist them, they would overthrow the negro where he was before. A second war and a certain victory were spoken of as settled facts, but thanks to the firmness of Congress and the military bill, their hopes are dashed to pieces, and being realized as that of Satan was to regain heaven, and like that arch rebel, they feel pretty bad, and now try to vent their spleen by wishing the negro to marry the daughters of radicals, or else go to hell.

To illustrate their animus I must relate a dialogue which occurred in my hearing the other day. Sauntering into a store while waiting for the cars while in a community where nearly all were rebels, I found two very active engaged abusing the negro and the radicals, comparing the latter with the aristocracy of the South, stating that scarcely a lady or gentleman could be found among them, and that they were an inhospitable cringing set, every one working for himself. Just then came walking in one of our boys in blue from Tenn., whose homespun dress but honest heart proved him to be no aristocrat, and taking up the conversation he replied:

"You rebels were mighty hospitable as long as you could do it with other people's money or other people's work. I believe in every man working for himself and I have fought the war for that. The reason you call the nigger a good for nothing, lazy scoundrel is because you can not get him to be your slave and let you act the lazy scoundrel, and that is what hurts you."

But a short time ago such free speech would have cost this young soldier his life, but Gov. Brownlow has squads of militia stationed through the State and all is now perfectly quiet.

BOOK NOTICES.

DAVID COPPERFIELD, the third volume of the *Diamond Dickens* is on our table. This is the most completely designed and delightfully executed edition of a popular series of works, intended for the family library that has ever come from the hands of a publisher. "Pickwick," the initial of his humorous works, and still the most amusing; "Our Mutual Friend," his latest, and by many deemed equal to his best, and "David Copperfield," also one of his most readable works, are now before the public in this dainty form, and their rapid sale well attests the popularity they have achieved. The Rochester Democrat pertinently says:

"A renewed circulation of a still wider reading of Dickens cannot prove otherwise than a blessing to the country; for who shall deny that this genial novelist is not, wherever he may go, a missionary of good as well as of delight; making men and women better, whiter, and kinder; smiling, softening and enlarging the heart, even as he gratifies the love of humor, the sensibilities that sympathize with the pathetic, and the artistic taste that relishes pictures of homely and intensely human life. As the 'Diamond' has thus inaugurated another conquering campaign for the deservedly loved and popular gentleman of Gadshill, it merits praise for what it is as well as for what it has done. For its convenient form, its distinct though necessarily small type, and excellent original illustrations by Eytinge, it merits commendation, and meets a popular want at a very moderate price. It is something new, beautiful, and useful likewise in the way of book-making; and by its very peculiarities is quite sure to be a favorite, no matter how many attractive rivals enter the lists with it, and win victories."

Every lover of Dickens should be sure to get this edition. The illustrated volumes are only \$1.50 each, and the plain \$1.25; Ticknor & Fields, Boston.

The American Agriculturalist for May contains: "Albany," a sketch into the S. A.; Apia; for May; Baskets for setting hens; Black Bear; Boys and Girls columns; very interesting; Castor oil bean culture; Cranberry culture; Dog statistics; Farm and garden work, &c., \$1.50 per annum, in advance. Address: Orange, Judd & Co., 41 Park Row, New York.

DIED.
In Washington City, on the 17th May, Capt. THEODORE FRANKS, aged 60 years, formerly of this place.

In Bratton township, on the 16th May, GEORGE SETTLE, aged 45 years.

Telegraphic Dispatches.

LONDON, May 17.—Dispatches received from Athens state that two sanguinary battles have taken place recently in Candia, in both of which the Turkish commander, Omar Pascha, was badly defeated. His loss in both engagements is computed at three thousand men.

The great powers of Europe have again united in a petition to the Sublime Porte to cede the Island of Crete to the Greek Government.

LONDON, May 20.—The settlement of the Luxembourg question has been determined, the treaty having been signed by Napoleon and King William of Prussia.

NEW YORK, May 20.—About noon today a fire broke out in the club room, situated on the second floor of Knox's building, corner of Broadway and Fulton streets, resulting in the almost instant death of Frank B. Fisher, an examining officer, who deliberately shot himself through the head. On his person was found a document to the following effect:

"Done by my own hand. Cause—demoralized by playing Faro. May Almighty God have mercy on my soul!"

MARRIED.

In Milroy, on the 9th April, by Rev. J. F. Dietterich, HENRY H. WAGNER, to Miss AMANDA E. KEMMELING, both of Milroy, Mifflin county, Pa.

THE MARKETS.

LEWISTOWN, May 22, 1867.
Wheat, red, per bushel \$3 00
" white " 3 10
Corn, old, " 60
Oats, do, " 15
Eggs per dozen 60
Butter per lb 20
Flour is retailing at the following prices:
Lewistown Extra Family per cwt. 7 50
Superfine 6 50
Extra Family per bbl 15 00
Superfine 12 00
Buckwheat per cwt. 5 00

Philadelphia Markets.
