Sale of the Poor House Farm.

The Commissioners appointed for that purpose disposed of the Poor House Farm at public sale, on Wednesday last, to Alexander Morrison, of Kishacoquillas Valley, at \$125.20 per acre, making \$25,540.80. This, with the reservations made, is about \$300 more than was offered at the previous sale...

A good deal of opposition was manifested to the sale of this property, but we believe the day will come when its propriety will be apparent to every taxpayer. The accommodations in the present buildings, especially of a hospital character, are totally inadequate, as grand juries have time and again reported. To put up any additional building would require an additional tax, and this we are sure would not be an agreeable piece of news to the taxpayers.

What it Costs to Shoot a Dog on the Street.—The case of Henry Earl vs. William Finney—in which the latter was charged with shooting a dog of the former, in a street in the city—has been settled. Mr. Finney paying Mr. Earl thirty dollars, besides cost of prosecution, and paying the fine of five dollars for shooting within the city limits. This case attracted considerable attention, and now that it has been settled our readers will be interested to learn the conditions.

Obstructing the River.—Important Decision—Fish Baskets and Dams must be Removed.—Yesterday, upon the occasion of the trial of Jacob Gayman, for obstructing the passage of fish in the river by placing therein a fish basket and dam, in the vicinity of Dauphin, His Honor, Judge Pearson, fully expounded the law relative to the removal of obstructions from the Susquehanna. In the course of his remarks, the Judge asserted that the mere placing of a fish basket and dam in the river is a violation of the law, and a failure to remove such obstructions, would render their owner liable to prosecutions and subject him to all the penalties imposed by the act referred to. Fishermen should take warning from this decision, and at once clear the river of all baskets and dams therein.
