COUNTY COMMITTEE. Lewistown, Pa., July 16, 1887. A. McKee, Chairman.

The weather has been pleasant during the past week. Wm. Lind recently purchased Mt. Rock Mills for \$10,000.

The dwelling of Mrs. Maria Diggs, a colored woman, was lately robbed of \$6 by some heartless scamp.

The Lewistown Academy will open today, some delay having occurred on account of refraining the room with new equipments.

The County Commissioners appointed J. R. Louder Assessor of McVeytown to fill the vacancy occasioned by the death of John M. McCoy; John Baum to fill the unexpired term of R. D. Smith, Assessor of Lewistown, Ab. S.

A boy named Charles Price found an envelope with \$11.72 enclosed on Saturday week, and received \$5 from its owner, Wm. Foy, for restoring it. An honest boy will always be remembered and trusted.

Several cases of palsy have lately occurred in town and neighborhood. Among the last are Mrs. Farmer, an old lady, who was struck on Sunday night, and Wm. McKee (mason), on Monday evening while at work in front of the old Baptist church building.

There is a time for everything, a time to be merry and a time to be sad, a time to laugh and a time to mourn, but the time for buying goods at Grove's is now at hand, and of course every one who knows what is best for his own interest will patronize him. He has lately received an extra lot of those good mess Mackerel and Shad which he is selling cheap. Try his groceries, etc.

Two pups among a litter of dogs exhibit the strange feature of having no fore legs at all, yet with perfectly formed breasts. Some boys were sent out to drown them, and one of them had already been dipped in the water when the discovery was made of their want of fore legs. They were then taken to Mr. Wm. Montgomery's, where one of them is still living—the other having died.

A Revenue Case.—Weber's market car was seized at Millersstown last week by a detective, charged with having a lot of whisky on board manufactured at the East End Distillery in this county, on which it is alleged the revenue tax was not paid. We hear it stated however that a permit had been granted for the removal of this whisky, and consequently that the seizure was without cause.

The Morning Glory.—We beg leave to call the attention of the public to the fact that the Morning Glory in size is a much larger stove and more powerful heater than any other similar stove made, the No. 9 of the stove giving no similarity in size. For instance, the No. 9 Morning Glory is 12 inches, the No. 9 of other similar stoves is only 10 inches. So on all through the different sizes, making to the purchaser a saving of \$2 to \$6 in each stove, according to size. Examine them at F. G. FRANCISCUS'.

The Watkins (Schuyler) Co., N. Y. Express voluntarily publishes the following testimonial of an esteemed gentleman who has lately taken up his residence among us:

Personal.—We are pleased to hear that Dr. C. S. Hurlbut, one of our most intimate and highly esteemed personal friends, has taken up his residence in the flourishing town of Lewistown, Pa., where, we understand, he is now practicing his profession. We became acquainted with Dr. Hurlbut in the village of Olean, N. Y., where, as a practicing physician and surgeon, he earned an enviable reputation for skill in his profession, and attained an extensive and lucrative practice. As our family physician, we learned to esteem him not alone for his superior professional abilities, but for his estimable moral and social virtues. His solicitude for, and fidelity to his patients were most remarkable, and these qualities, together with his enterprise, liberality and reliability as a citizen and man, endeared him to a wide circle of patrons and friends. We consider him to the good people of Lewistown, as one who has practiced his profession with an upright and true man, worthy of their confidence and patronage.

For the Gazette. Kishacoquillas Seminary. The summer session of the Kishacoquillas Seminary closed on Tuesday evening, September 10. The last two days were devoted to examinations, which were largely attended, and evinced a degree of thoroughness highly commendable to both teachers and students. On the evening of the last day a contest between the two literary societies connected with the institution was held in the grove of Mr. E. Taylor, near the Seminary. The exercises consisted of rival declamations, essays, original orations, debates, and the reading of manuscript papers, interspersed with lively vocal and instrumental music. The performances, in the estimation of many experienced judges, were of a high order of excellence than usual, and reflected much credit on those who participated in them. The tasteful manner in which the stage was ornamented with evergreen and flowers, for which thanks are due to the ladies, added much to the interest of the occasion. On the whole this contest was a decided success, and produced a favorable impression on the unusually large audience assembled. The session just closed was more than ordinarily successful, and highly satisfactory to the students, who, as an evidence of their appreciation of the services of the principal, Prof. Mohler, and the uniform kindness with which he presented him with a valuable barometer and her with a beautiful silver vase. The institution under its present efficient management is in every way worthy of the generous patronage of the public.

Charley Stuart's Young Opera Troupe.—This company intends to pay us another visit on Saturday evening next in the Town Hall. If we believe what everybody says, that they are bound to see 'em, the Hall will be crowded. Charley says he will introduce an entire new programme.

A TRIP TO EUROPE.

LETTER NO. XI.

London Water Works—Hyde Park—The Tower—Kensal Green Cemetery—Westminster Court—Edinburgh, Aug. 15, 1867.

After a rather rough passage across the channel, we got back to London a week ago, and while there experienced some genuine London weather, frigid and foggy, however, in sight-seeing, it was very pleasant.

On the afternoon of the 8th we visited Hyde Park. The drive is a beautiful one, but the park is very common place. We were much more pleased with Battersea Park, which we visited on the 10th, and presents the appearance of a magnificent flower garden.

At another time we went to the famous London Tower, where, among many other interesting things, we saw the "Bloody Tower" in which the two children of Edward the Fourth were smothered to death. We satisfied our curiosity, also, by walking across the Thames Tunnel, and back again.
