change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.

5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

SIIK SLIPE MURIAL TOPHIN,

LUSTERS, ALL WOOL DELAINS, Lawns very cheap, Cambric Ginghams,

SUMMER BALMORALS, soft finished Cambric for Skirts, a very fine article, Plain Cambric, Barred Cambric from 25 cents up. Full line Calico from 10 cents

8. With these machines, white silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addation to their superiors.
