LOCAL AFFAIRS.

Accidents.—Mr. Wm. Barr of Kishacoquillas Valley made a narrow escape on Thursday last, at the crossing of the Milfin and Centre Railroad at Lind's mill. He had been to town with a spring wagon, on which a stove and some other articles had been loaded, and supposing he could make the crossing before the cars reached it he drove on, but from some cause his horses almost stopped on the track, and the locomotive struck the wagon, breaking it and most of its contents, throwing out Mr. B. with considerable violence. He was cut about the head and face, but escaped with much less injury than was at first feared. It cannot be too strongly impressed upon all persons driving horses that it is extremely dangerous to attempt crossing a railroad track when a train is under full headway, even if it should be four or five hundred yards off. This can be best demonstrated by remembering that a train running 20 miles an hour makes a mile in three minutes, half a mile in a minute and a half, or four hundred and forty yards in forty-five seconds.

Robbery.—The auction house of G. W. Albright, in West Market street, was entered on Wednesday night last by boring the shutter and then pushing back the bolt, and two revolvers taken out of a case. An inch-and-three-quarter auger was used. The one was a Colt Revolver which had been used, the other a new large Remington Navy Revolver, shooting .38 to the pound, with a double moule, one casting a round the other a Minnie ball. A dozen of fixed ammunition and a box of caps for this pistol were also taken. As there is probably no other Remington Navy Revolver of this size in this part of the State, we request information, should such a pistol have been or be offered for sale or seen in the hands of any person, be given to the editors of the Gazette, who are the owners of said pistol. The Colt Revolver was the property of J. Stewart McEwen.

Church Improvement.—The official board of the Methodist Episcopal Church of this place we learn last week determined to alter the present building according to a plan submitted by Rev. Mr. Monroe, by which it will be extended 23 feet, the front improved, and the interior remodeled, so that there will be an excellent Sabbath School room, a fine lecture room, and an audience chamber on the second floor amply sufficient to accommodate the congregation and general visitors. Class rooms are also to be added. The cost will probably be from \$4000 to \$5000. An improvement has long been contemplated, and we are pleased to note that there is at last spirit and enterprise enough to undertake it.

St. Marks Episcopal Church has its new stove front up, and the carpenter's are now busy at the bell tower and interior.

Fish Dams.—We notice several Fish Dams in the river between this place and Newport which, according to the decision of Judge Pearson of Harrisburg, are illegal and the owners liable to prosecution. There are some in this county, some in Juniata, and others in Perry; and while but little objection can be urged against catching eels in the fall by this means, yet it is a well known fact that large numbers of young shad and salmon, as well as other fish, are annually destroyed in such baskets. It is all idle to talk about restocking our rivers with fish unless means are taken to preserve them, and we hope the Court at its next term will specially instruct constables, supervisors, etc., as to their duty in such cases.

The fifth meeting of the County Musical Association held at Strode's church, on Thursday last, was not so well attended in the afternoon, but the evening session gathered quite a number from the surrounding neighborhood. The music was not so good, there being few singers present. Quite a number were there from this place, some of whom met with the unfortunate circumstance, known as a "break-down," but as none were hurt, all enjoyed it. The next session will be held at Newton Hamilton, on the 24th Thursday of November.

A. L. S.—The Re-opening of the Apprentices' Literary Society will take place on Saturday evening next, in their hall. The exercises will consist of Essays, Declarations, Readings, etc., and music by the Mendelssohn Association. We hope our citizens will show their appreciation of this organization by a good turnout on this occasion; and that our young men will find this winter avails themselves of the advantages resulting from an attendance upon its regular sessions. It is certainly a powerful lever for good, if properly laid hold of. All are invited to be present.

A Freak of Insanity.—The Millintown Sentinel gives the following particulars of an attempt at suicide at Manayunk bridge: On Saturday evening, 24th September, as the Cincinnati Express train cast passed the Manayunk bridge, an unknown man was observed diving himself of hat, watch, etc., and placing his hands on the backs of two seats, spring out of the window, feet foremost, taking the sash with him. The train was immediately stopped, and on going back, he was found walking toward the persons in search of him. As soon as he saw them he fell upon his knees and commenced praying for mercy. He was placed on the train and brought to the Patterson House, and his wants properly cared for. He has a cut on the chin and is considerably bruised, yet it is a miracle that he was not instantly killed. He is a Frenchman by birth, and was on his way from the west to Philadelphia. He had been laboring under an attack of *delirium tremens*, and no doubt jumped from the train to escape the presence of those dreadful phantoms seen

by persons in his situation. This is another warning to those who make too frequent use of intoxicating drinks.

McKee's tannery on Water street we learn has been disposed of to Messrs. Spangle & Co. for \$5000.

Among the first "democratic" voters yesterday morning was a man so drunk that Third street was not wide enough for him!

It is said the engineers of the Middle-creek Railroad have been examining the Susquehanna river at Selingsgrove for a suitable site for a railroad bridge.

On Monday last, D. Grove received a fine lot of large mess Shad and Mackerel; also, Groceries, Cheese, Hams, Sides, etc. Give him a call and see for yourself—you cannot help but be pleased.

An attempt was made last week to set fire to Hamaker & Montgomery's carriage manufactory, by placing combustible matter among the paints and oil and pouring coal oil on the floor. The latter was set on fire, but fortunately did no injury beyond burning a hole in the floor.

After threatening rain for several days the clouds finally yielded a copious shower on Friday night and Saturday morning, which gave the recently sown grain a fine start. The weather, however, is again pleasant, with cool, frosty mornings.

Professor Clark opened his Singing School on Saturday evening at the Town Hall with a fair attendance of principally young ladies. Such schools ought to be encouraged by parents, for while they are agreeable associations and singing a useful accomplishment, they have a tendency to improve both the minds and morals of the young.

The tracklayers are at work between Reedsville and Milroy, and the cars will run to the latter place on or before the 1st of November. This is another step toward the Snow Shoe region, and if Centre county now wakes up, a few years will give its coal, lumber, iron and sand generally the nearest and most direct route to market.

The U. S. officials have taken possession of what is known as the Locke's Mills distillery, with all the real estate pertaining thereto, on the charge of having defrauded the government of revenue tax to a large amount. There is something inexplicable in this transaction which we must confess we are unable to understand, as it is well known that the owners have been at different times during the past six months borrowers of considerable sums of money, and even hypothecated whiskey. It may be unraveled according to law, but unless the officers know a good deal more than outsiders' appearances are not in their favor.

Call and see the large lot of Watches of his own importation, at R. W. Patton's, Bank Row, East Market street.

Now Opened—A new stock of Oil Cloths, from 1 yard to 2 yards wide. One Dollar Oil Window Shades, far handsomer than last season. Just drop in and see our new stock, at

THE BIG COFFEE POT SIGN.

Grain Warehouse.—J. C. Blymyer & Co. have made arrangements for the purchase of Grain of all kinds at Reedsville, where farmers and others can deliver it in any quantity, and thus save wagoning to town.

Dissolution.—The firm of Rittenhouse & McKimby has been dissolved, and the business will hereafter be conducted by Joseph L. McKimby, who will this week open a fine stock of fall and winter goods at reduced prices.

Among the many articles required by business men, farmers, and mechanics, to make successful their plans and operations, none may be found more useful than a Pocket Accountant, containing methods for quick calculation, and concise rules for treating problems likely to arise in every-day life. Sent postpaid for 25 cents. Address G. K. Frylinger, Lewistown, Pa.

MARRIED.

CATTLE FOR THE EASTERN MARKETS.

FORT RILEY, Kansas, Oct. 5.—A dispatch from Junction City states that thirty thousand head of cattle from Texas and New Mexico, bound for the Eastern markets, are now at Abilene, on the Union Pacific Railway, Eastern Division, 165 miles from the State line. Buyers are reported scarce. This trade in Mexican cattle towards the United States is a new

thing on this railroad, and the suddenness with which it has sprung up into such magnitude is remarkable.

THE ELECTION.

The State in Doubt.
Bribery, Whisky, and the Pa. R. B. Again Triumphant in this County.

The election yesterday was a repetition of the disgraceful scenes of last year.—Bribery again stalked abroad undisguised, and things in the shape of men fanned around the bankers like a set of hounds with labeled collars. The Pennsylvania Railroad in Granville township also came to the rescue, and in a district where the resident vote could not command 40, gave 100! We would by all means recommend the Directors of that road to amend their resolution respecting interference in elections, so as to read that republicans are not to interfere under pain of dismissal, but give all good copperheads an indisputable right to colonize Millin and Juniata counties whenever they see proper. The greatest effort was made in favor of McIntyre, the railroad candidate, and \$5 was openly offered to vote for him alone! A special effort was also made against Col. Robison and Capt. Wilson, two soldiers on our ticket, they having been guilty of helping to whip the rebels—a sin copperheads never forgive. And all this pandering to depravity and self-abasement, subjecting our elections to the power of bribery, corruption, ignorance and drunken stupidity, is called DEMOCRACY.

BOOTS AND SHOES AT DANIELS & STONE'S. They are selling Ladies' calf Shoes at 1 30 House " 1 15 Best " 2 40

Boots, 1.00 to 6.00 per pair. These are all new goods, and the reason they can be sold so low is they are bought by the case and direct from Massachusetts, thus saving freight, commission, insurance and jobbers' profits.

We have a fine stock of **NOTIONS** of all kinds, Hosiery, Gloves, Trimmings. Also, a stock of Men's and Boy's **FELT & FUR HATS,** which will be sold extremely low. Give us a call. Remember the store opposite D. Grots's Grocery.

NEW GOODS! ANTI-DUST, GAS BURNER AND **Cooking Stove,** which is preferred even before a range. You can have, by the hot water attachment, hot and cold water up stairs; it also separates the unburnt coal from the ashes without dust or dirt in the house; the centre plates are all double, with the air passing through them; it is a perfect baker, and a tip-top stove in every respect.

Our next Cook is the **REGULATOR,** plain top, with feeder front. This is the same as the other except the top.

And last, but not least, is the **COMBINATION COOK,** a stove that we have been selling for six years, and the sale of them is increasing every day. 'Tis a stove well adapted for the world for baking purposes; it takes but little fuel, and is a plain, substantial stove.

For beauty, economy, and durability they stand second to none, and for cleanliness there is none to equal them; they only need to be seen to be appreciated. We have also Spear's Anti Dust Parlor EGG STOVE, just new, and pretty.

And we have the stoves that we
