

THE GAZETTE.

TERMS OF SUBSCRIPTION. TWO DOLLARS PER ANNUM.

LOCAL AFFAIRS.

Official Returns of the General Election held in Mifflin County Oct. 8, 1867.

Table with columns for Supervisor, Sheriff, Treasurer, and various precincts like Lewis' n. E. W., Derry, Granville, etc.

Death of Dr. Bower.—We regret to announce the death of Dr. Charles Bower, which took place at Harrisburg on Friday evening.

Joseph R. Hanawalt announces in the Christian Companion Communion meetings on the 21st October at McAlhoy's Fort, preaching on the 23d; on the 24th and 25th at Spring Run meeting house near McVeytown; and on the 25th, 26th and 28th at Dry Valley meeting house, four miles northeast of Lewisport.

MARRIED.—On Wednesday, 2d inst., at Evanston, near Chicago, Illinois, by the Rev. Brainerd Kent, ALEXANDER EWING, of Knoxville, Illinois, to Miss ANTOINETTE PROSE, eldest daughter of the late Peter F. Prose, of Valatie, N. Y.

On the 10th inst., by Rev. D. Sheerer, EZEKIEL GAULT, to Miss REBECCA GUYER, both of Mifflin county, Pa.

On the 10th inst., by Rev. D. Sheerer, WILLIAM M. FIELDS, of Huntingdon co., to Miss NANCY W. CUTMAN, of Mifflin co., Pa.

On the 9th inst., at the Lutheran parsonage in this place, by Rev. J. B. Reimbsnyder, Wm. BOTSUM to Jane H. Alexander, both of Juniata county.

On the 1st inst., at Durand Station, Winnebago county, Illinois, CHARLES H. SHRINER, of Mifflinburg, and Miss LIZZIE VAN VALZAH, of Buffalo, N. Y., were united in marriage.

On the 10th inst., at the M. E. Parsonage, in Bloody Run, Sept. 11th, JOHN FAXON, of Saxton, to Miss SUSAN DAVIS, of West Philadelphia.

In the Aughwick branch, Mifflin co., Pa., August 25th, CATHERINE, youngest daughter of Barbara McKinstry, aged 16 years, 6 months, and 19 days. Funeral services by the brethren, from Heb. 3: 27.

Wm. M. Pannebaker, not Spanlog & Co., is the purchaser of McKee's tannery. An alarm of fire was raised on Sunday afternoon caused by the burning of a chimney.

In the Democrat's news from Darkeytown, the fact that two or three white democrats were recently mixed up in fights up there is entirely omitted.

The market continues to be well supplied with good meats, far superior to that furnished during the spring and summer months. Among the butchers B. J. SELLS very now and then dishes up an extra article, an instance of which we had yesterday morning, in a calf or young heifer weighing dressed about 500 lbs. It was a rare sight, and like his sausage, pudding, ponchus, and meat generally, was sought after by all who wanted a good bite.

Effects of Tea on the System.—The Boston Journal of Chemistry publishes a lengthy article on the properties of tea, in the course of which the writer says, that it is no matter of wonder with him that brain workers, in all the years since tea was introduced, have regarded it with the highest favor. It has a power to subside irritability, refresh the spirits, and renew the energies, such as no other agent possesses.

When the system is exhausted by labor or study, a cup of tea reinvigorates and restores as no other form of food or beverage can. He thinks it promotive of longevity, and adds: "Tea saves food by lessening the waste of the body, soothes the vascular system, and affords stimulus to the brain. The young do not need it; and it is worthy of note that they do not crave or like it. Children will frequently ask for coffee, but seldom for tea. To aged people whose power of digestion and whose bodily substance have begun to fail together it is almost a necessity."

Our New Additions.—We have now on sale a nice lot of Lamps and Lanterns, and Lamp Trimmings. Also just opened, a new stock of French Tinware, without seam or solder; and the latest institution of the day is a Sad Iron Holder.—Call and see them at the

Big Coffee Pot Sign.

Pratt Law and Pratt have purchased the store of S. A. McClintock, at Siglerville, and have filled the same with a well assorted stock of all kinds of goods usually kept in a country store. Give them a call. See stock and prices before purchasing elsewhere.

Still Ahead.—Who? why, Dr. Thompson, of course. His improved method of constructing artificial teeth on gold, silver or vulcanite base, for beauty, comfort and natural appearance cannot be surpassed in this county or anywhere else. Thousands who wear his teeth daily recommend their friends, as he never fails to please, and the numbers that visit his office attest the fact that he understands his profession.

Stepping into the Boot and Shoe Store of Frank H. Wentz the other day, we found ourselves surrounded with a tremendous stock of all kinds of Boots, Shoes, Gaiters, Slippers, &c. But what surprised us most was that he had marked down prices still lower! This will be good news to all, and we advise everybody to call and purchase before the stock is exhausted.

Call and see the large lot of Watches of his own importation, at R. W. Patton's, Bank Row, East Market street.

Accident from a Pistol.—The danger of firearms in the hands of children was again exemplified on Saturday morning last by the accidental discharge of a pistol in the hands of the second son of Dr. Henderson, the ball from which entered the cheek of his younger brother and lodged in the neck. Dr. Van Valzah attended the case.

Going Ahead.—Those of our citizens who have lately visited the eastern part of town could not fail to note the erection of a batch of commodious buildings, situated on Logan street, and which are to be used as the Machine Shops and Foundry of Harry D. Slagle & Brother. The machinery is already in place, is of the finest manufacture, and can be seen in operation in the course of a few days, although the sound of the hammer upon the buildings will not cease for some time to come. The energy of the proprietors in thus rapidly carrying forward their enterprise must recommend them to the public, as is attested by the fact that orders are now on their books for thousands of dollars worth of castings, mouldings, and machinery of different kinds, of which they intend to turn out none but first-class. Our citizens should visit their works, as it will be found interesting to view the motion of their various apparatus.

Among the many articles required by business men, farmers, and mechanics, to make successful their plans and operations, none may be found more useful than a Pocket Accountant, containing methods for quick calculation, and concise rules for treating problems likely to arise in every-day life. Sent postpaid for 25 cents. Address G. R. Fryinger, Lewisport, Pa.

Stepping into the Boot and Shoe Store of Frank H. Wentz the other day, we found ourselves surrounded with a tremendous stock of all kinds of Boots, Shoes, Gaiters, Slippers, &c. But what surprised us most was that he had marked down prices still lower! This will be good news to all, and we advise everybody to call and purchase before the stock is exhausted.

Call and see the large lot of Watches of his own importation, at R. W. Patton's, Bank Row, East Market street.

Accident from a Pistol.—The danger of firearms in the hands of children was again exemplified on Saturday morning last by the accidental discharge of a pistol in the hands of the second son of Dr. Henderson, the ball from which entered the cheek of his younger brother and lodged in the neck. Dr. Van Valzah attended the case.

Going Ahead.—Those of our citizens who have lately visited the eastern part of town could not fail to note the erection of a batch of commodious buildings, situated on Logan street, and which are to be used as the Machine Shops and Foundry of Harry D. Slagle & Brother. The machinery is already in place, is of the finest manufacture, and
