THE Big Coffee Pot Sign AGAIN!

ALL the important Stove Improvements of the age can now be found at the Big Coffee Pot Sign. By looking over our list you can see that we have all the latest and choicest stoves of the day.

The latest and first Cookstove we bring to your notice is REGULATOR, Extra heavy and large. The oven in number 7 is as large as number 8 of any other stove, and it has no projection or low place in the front part of oven; it has also a revolving top, by which means you can move your pots or boiler off or over the fire without lifting them, and thereby prevent the escape of either gas or smoke in the room.

But the greatest stove of the day, on account of the many conveniences, is James Spear's ANTI-DUST, GAS BURNER Cooking Stove, which is preferred even before a range. You can have, by the hot water attachment, hot and cold water up stairs; it also separates the unburnt coal from the ashes without dust or noise in the house; the centre plate is all double, with the air passing through them; it is a perfect baker, and a tip top stove in every respect.

Our next Cook is the REGULATOR, plain top, with feeder front. This is the same as the other except the top. And last, but not least, is the COMBINATION COOK, a stove that we have been selling for six years, and the sale of them is increasing every day. 'Tis a stove we put against the world for baking purposes; it takes but little fuel, and is a plain, substantial stove.

Almost everybody has heard of Jas. Spear's ANTI-DUST, GAS-BURNER, PARLOR STOVES. For beauty, economy, and durability they stand second to none, and for cleanliness there is none to equal them; they only need to be seen to be appreciated. We have also Spear's Anti Dust Parlor EGG STOVE, just new, and pretty.

And we have the stoves that we suppose are going to set the world on fire,—the Morning Glory, & ORIENTAL, AND THE ORIENTAL HEATER. Our stock of STORE and OFFICE STOVES is complete—new pattern, wood, etc.—and in order that everybody can have a stove, we are now manufacturing out of genuine Russia Iron a new PARLOR GAS BURNER stove, called the BON TON, and to all those who wish to heat an upper and lower room with one stove, I would say, call and see J. IRVIN WALLIS'S

Parlor Heater. I have now improved and completed my Parlor Heater. With this stove you can perfectly heat up and down stairs at will, and their cost is not one third that of any other Heater. There is no mistake about it, and I ask no pay until you are perfectly satisfied it will do as represented. And since I am determined to render satisfaction to all my customers, I have brought from Philadelphia one of the best mechanics in the country, and we intend this season to give special attention to furnishing out and putting up all our stoves. We have been compelled, in order to supply the increasing demand for our stoves, to lease another building, on Brown street, in which we have a large stock of STOVES. P. S. We will receive in a few days a large stock of Housefurnishing Goods, At the Big Coffee Pot Sign. Lewistown, Sept. 25, 1867
