Sewing Machines.

REWARE OF IMPOSITION!

It is a remarkable fact, and one that is favorable to the already well established reputation of the HOWE SEWING MACHINE, that the more valuable the article the more apt it is to be counterfeited.

It has often been remarked in favor of the Christian Redigion, that if there were no true Christians in the world there would be no hypocrytes, and if there were nogenitine money in circulation, there would be no inducements for counterfeiting. The same rule applies in sewing Machine es.

The large and increasing trade of the Howe sewing Machine in this city and county, has been the great incentive that induced the Agent of a rival machine to introduce into this city a bogus sewing Machine whose only chaim to notoriety is in its name, the A. B. Howe sew ing Machine.

We deem it a duty to our friends and the public generally, to give them a word of warning in time to avoid imposition from unprincipled agents who will no doubt attempt to palm off upon the unsuspecting, this bogus Howe Machine for the original ELLAS HOWE, JR., SEWING MACHINE, as by carefully observing they will be able to see the difference between the two machines.

The trade mark of the original or genuine Howe Sewing Machine is a medallion head of Ellas Howe, ir., the original inventor, which is embedded in the base plate of every genuine Howe Sewing Machine, and it has also a very valuable improvement in the upper tension which is regulated by an ingeniously constructed wheel, which the bogus machine dare not use.

ed wheel, which the bogus machine use.

The genuine original Howe Sewing Machine is sold in this city only at No. 25', North Queen street, were persons in want of the best in the market are respectfully invited to call and examine the machines and the work done on them, before purchasing elsewhere.

appeared in one of our city papers the other day, from a certain Sewing Machine Agent, warning the public against "imposition," insinuating that somebody was trying to impose upon the people by offering for sale the A. B. Howe Sewing Machine. That card says the A. B. Howe Sewing Machine is a "bogus" Howe Machine. Now, we are no particular advocate for that machine, nevertheless it is a good machine, possessing some merit, and not inferior to the Simon pure Ellas Howe, jr., machine, about which so much blowing is made. A. B. Howe is a brother of Elias Howe, jr., and a far better mechanic. He is at the head of a Company in Bridgeport, Ct., where his machines are manufactured and soid. We suppose he has as good a right to make and sell machines as Elias Howe. If not, why didn't Elias stop him. He does not pretend to make Elias Howe machines, but simply his own. He does not claim to "counterfeit" machines. The agent of the Singer Machine in this city has one of these machines in his office, where the public are invited to call and see it along side of the Elias Howe machine. He has not, we believe, offered it to any one, nor has he ever tried to make anybody believe that it was the Elias Howe, ir., machine. We strongly suspect that the geniteman is really afraid some body will find out that there are other as good Sewing Machines in this market as he himself is seiling. He must feel very much like the Ephesians when they cried out "great is Diana."

The world is large, and there is room enough for everybody in it, so we suppose there is room enough for ns to stay in Lancaster the balance of our lives if we choose to do so. But we shall not stay here by telling the people that somebody else is dishonest, &c. Let everybody keep their own consciences clean, and let others live, is our motto.

Dentistry.

READING, PENNA.,

LANCASTER, June 25th, 1868.

EDITORS EXPRESS: Dr. Wm. M. Whiteside, the enterprising Dentist, has purchased from me a large stock of teeth and all the fixtures, the instruments formerly belonging to me, and also those used by my father, Dr. Parry, in his practice. In the purchase, the doctor has provided himself with some of the most valuable and expensive instruments used in dental practice, and has beyond doubt one of the best and largest collections of teeth and instruments in the State. Persons visiting the commodious offices of Dr. Whiteside, cannot fail to be fully accommodated. The Poetro loses no opportunity of furnishing himself with every late scientific improvement in his line of business.
