they set aside last year's act limiting the number of House employees, by resolution adding twenty-seven additional, this proposition will be looked upon with suspicionespecially since, after a lengthy discussion, (in the course of which one of your members, Mr. Peters, in a few remarks, favored the project) it was referred to a select committee of three. I have very serious doubts of its passage, but, inasmuch as the public will be glad to see that there are at least some faint signs of returning reason on the part of their lawmakers, I give it for what it is worth.

Mr. Foy's resolution to inquire into the alleged extortionate charges by certain newspapers for advertising the overdue loan of the State, was referred to the same committee. It consists of Messrs/ Duncan, Strang and Nelson.

State Rights and "Nigger" still agitate the minds of our copperhead friends. Senator Wallace is opposed to Congress granting privileges to railroad corporations to construct railroads through the State, while Mr. Searight, from Fayette county, wants the Legislature to instruct our Senators and request our Representatives in Congress to oppose any measure looking to negro suffrage in the States. The former is intended for a special purpose doubtless-to head off the proposed air-line route from Washington to New York, and even if concurred in by the Legislature, will accomplish little; the letter was introduced at too late a day to command much attention. In fact it is a dead issue-a bitter dose for the opposition, but they wast swallow it. Their wry faces won't delay he matter any. They had better make a virtue of necessity, and submit as gracefully as possible to the stern logic of events.

There is quite a large attendance at the Editorial Convention, now in session in the hall of the House. A resolution recommending to the Legislature the passage of an amendment to the libel law-allowing the truth to be given in evidence—was discussed at length, and postponed till this evening. A debate sprang up on the proposition to urge the passage of a law requiring the general and local laws to be published in the two pers in each county of opposite political fiews, and having the largest circulation. It was voted down. Democratic members, with a few exceptions, favored this plan to deplete the treasury. How hungry they are getting! At present writing, the convention is discussing the propriety of adopting a uniform scale of prices for advertising. Of course, it will end in talk. The thing is impracticable. In fact nothing practical has resulted from their deliberations thus far.

The Governor has nominated for State Librarian, Wien Forney, the present incumbent. It awaits the confirmation of the

The Retrenchment and Reform Committee are receiving letters of encouragement and advice from some of the most intelligent and upright men of all parts of the State. At a late session of the committee, it was agreed upon to address the following interrogatories to the Heads of the General Departments, which has been done, and a number have already responded: "The number of employees in your department; the character of their employment; their salaries; the necestive that exists for them; and whether any reduction in forces or expenses can be made?"

Their answers, of course, will not deter the committee from further lavestigation. They committee from further investigation. They have also procured from the State Treasurer a complete list of last year's legislative employees, and the amount each received for his services. It will thus be seen that the Committee are at work, and notwithstanding they are frequently stigmatized here with the spithete of the "Smelling Committee," "scavers," and the like, are determined to de their duty in the premises, fully realizing the fact that the people are with them, though the politicians may not be. Their report will be looked for with interest.

The following, as far as I can learn, is the late local legislation for your county:

Senator Billingfelt introduced a bill, with petitions, to consolidate the offices of assessor and constable of Brecknock township, Passed the Senate. Senator Fisher has introduced an act to incorporate the Columbia National Insurance Company; also, an act to authorize the formation of Common School Libraries.

The following have been introduced in the House: By Mr. Peters, an act to authorize the appointment of an Inspector of Leather for Lancaster county, with petitions favoring the same. Also, a position for a militia law. In Committee. By Dr. Gatchell, an act to extend the Sadsbury and Fulton townships road laws to Martin township. Also, a petition accompanying a bill to refund moneys paid for substitutes in Upper Leacock. Also, an act authorising the commissioners of Laucaster county to romit fines in certain cases. In Committee. By Mr. Hopkins, smeet to in-corporate the Lancaster County Agricultural Park Association. In Committee. An Act supplementary Wan act, entitled

An Act relative to roads and public highways in Fulton and Salisbury townsitips, in Lancaster county," approved March 16, 488, extending the same to Providence township in said county, has passed both Houses. The Benave bill providing for a Notaty Public in Warwick, and authorizing an acting justice of the range to hold the appointment, chiected of the peace to hold the appointment, objected to by Mr. Hopkins last week, I am informed will be passed to morrow, the objection having been withdrawn.

BANKERS, NORTHBAST ANGLE OF CENTRE SQUARE, now-ly] Prison Inspectors' Report.

18 TH ANNUAL REPORT OF THE BOARD OF INSPECTORS OF THE LANCASTER COUNTY PRISON, for the year A. D. 1868: To the Honorable, the Judges of the Court of Quar-

By Magistrates, Court, Hab's Corpus, &c.182

in Indicate city and county, 11 in Germany, 4 in Iroland, 1 in France, and 1 in Orlio: 30 of the convicts were under the age of thirty years; 12 are old offenders, and 30 are receiving punishment for the arm offence; and 30 her receiving punishment for the arm offence; and 30 her receiving punishment for the arm of conviction.

The 62 convicts were occupied as follows; 9 weaving carpells; 8 welving bagging, 5 basket making, 6 clear making, 6 shoemaking, and 5 making garments, &c., &c. 10 of the 62 could not read, and 16 could not write; 28 of the 62 had never been making, 1 fs a widow, another a widower; 46 were of intemperate habits—a greater proportion than in the preceding year. The whole number of prisoners since she opening of the Prison, September 12, 1851, to Movember 30th, 1868, was 10.074—white males, 8,097; white females, 1,420; colored males, 368; and colored females, 201.

The health of the prisoners of uring the year has been remarkably good. The whole number of cases treated was 17, of which 100 were cured, 16 relieved, and 1 died of congestion of the lungs.

The financial affairs and manufacturing ope-

19,424 56 Actual cost of Prison during the year, \$16,014 53

The increase of the extraordinary expenses is owing to the fact that during the past year a number of cells have been clad or plated with bolice iron, and more are to be secured in the same manner; besides, replacing the inside cell doors which are of wood, sliding on rollers, with iron-bar doors on hinges, &c. The flues and pipes throughout the Prison, having become useless, were replaced with new ones, which added to the unusual expense of this year.

which added to the unusual capetage.

The whole number of days prisoners were boarded the past year, was \$5,805,34,536 at 30 ets a day, and 1,209 at 15 ets. a day, amounting in all to \$10,559,15, an average of \$80,014 per month. The number the previous year was 31,235 days, costing \$8,667,20, and averaging \$72,123, per month, being an increase the past over the preceding year of \$157,98 per month average.

over the preceding year of \$157.98 per month average.

The cost of maintenance of vagrants this year amounts to \$5,037.55, against \$2,251.40 last year, being an increase of \$2,706.15. The aggregate number of days prisoners have been bounded and confined was 4,508 more in 1808 than in 1807.

and confined was 4,50 more in 1898 than in 1897.

The manufacturing operations during the year produced as follows: 6,481 yards of carpet for sale, 3,021½ yards carpet for customers, 6,185 yards of bagging, 1,38 pairs of boots and shoes made and mended, 385,150 segars made, 912 baskets made, 120 dozen grain bags made, 322 fish nets and seines made, and 26,400 skewers. There were manufactured goods on hand to the amount of 48,717.04, consisting among other articles of \$\phi\$,852 yards of carpet for sale, 381 buskets of varieus sizes, 75 11-12 dozen grain bags, 312 fish and fly nets, and 50,000 segars. The profits of the labor of the prisoners for the past year was 43,813.32, as shown by the statement of gain and loss, which is 43,236.38 more than in 1807, 4,051.34 more than in 1806, \$\phi\$,133.06 more than in 1805, and \$\phi\$,36 less than the aggregate profits of the three years preceding loss. The actual cost of the Prison the preceding year was \$15,157.95, being only \$\phi\$.55 less than the past year, notwithstanding, the large amount expended for repairs and maintenance of the greatly increased number of vagrants committed during the year ending November 2011, 1888.

Tabular statements sustaining the foregoing conclusions are hereto appended and made part of this Report.

We regret to report the death of two of the officers of the Prison during the year: Dr. John F. Huber, Physician to the Prison and Henry M. Musser, a member of the Board of Inspectors.

It is the most useful combination of ingredients ever known for Fruit, and the evidence we can produce from men of the highest standing in society of the benefits to be derived from its use in Fruit Trees, Vines, Wheat, Corn. Flowers, and all kinds of Vegetation, cannot be doubted by any honest man. When applied to trees, in pretrates every pore, destroying the worm in the heart of the tree, and by connecting with the mineral substance of the earth, destroys the cause and prevents the creation of any destructive insects. It will prevent Curculic from stinging the plum, and every person using it will have sound plums. If will kill the pench grab, and make peach trees bear healthy fruit. It will prevent dry-rot in grapes. It swells the tree causing the old bark to peel off from the bedy, while a beautiful new green bark takes its place. It will kill pointo bugs and provent postatorot. It will prevent weavel, mill-slew, or rust in wheat, and prevent the fly from touching it. It destroys the cut-worm in corn-in fact, it will kill any kind of insects that attack Fruit Trees, and cause all Fruit Trees to bear sound fruit. It is now extensively used in the Western States, and those who have used it would not be without it, for a thousand times its cost. It has been a send those who have used it would not be without it, for a thousand times its cost. It has been a single acture.
