SMALL-POX AND VACCINATION - Messre. Editor; I noticed 10, several propers that Small-Pox, in a very maliguant form, is now prevailing to an alarming extent throughout California. As there is no disease more easily prevented than Small-Pox, should not every physicilar use his utmost endeavors to prevent so dangerous and disagreeable a malady from spreading? Vaccination, if properly performed, is as certain a prevent tive of Small-Pox as quinine is to cure inter-mittent faver. I noticed in the articles in the papers, that persons who had recently been vaccinated and had yet the vaccination scab on their arms, fell victims to the disease; this on their arms, fell victims to the disease; this might induce the credulous to believe that inght induce the erstations to believe that vaccination is no preventative. I am satis-fied in my mind, that when the luman system is saturated with the vaccine virus, not one in five hundred will, if exposed to the contagion, torn off a little above the ellow. number of days prisoners have been boarded and confined was 4,569 more in 1868 than in 1867. The manufacturing operations during the year produced as follows: 6,481 yards of carpet for sale, 3,0211/ yards carpet for enstomers, 6,195 yards of bagging, 1,365 mirs of boots and shoes made and mended, 366,150 segars made, 942 baskets unde, 120 dozon grain bags There were manufactured goods on hand to the amount of \$2,712.46, consisting among other articles of \$2,852 yards of carpet for sale, \$21 bas-kets of various sizes, 75 11-19 dozen grain bags, 312 tish and fly nets, and 50,000 segars. The profils of the labor of the prisoners for the past year was \$6,813 32, as shown by the statement of gain and loss, which is \$3,356.33 more than in 1867, \$4,061.34 more than in 1866 \$4,133 06 more than in 1865, and \$5,86 less than the aggregate profils of the three years pre-ceding year was \$15,157,66, being only \$53,-57 loss than the past year, notwithstanding, the large amount expended for repairs and main-tenance of the greatly increased number of yagrants committed during the year ending November 20 h, 1868. Tabular statements sustaining the foregoing conclusions are hereto appended and made part of this Report. We regret to report the death of two of the officers of the Prison during the year: Dr. John F. Huber, Physician to the Prison and Henry M. Musser, a member of the Board of Inspec-tors.

M. Musser, a memory of the board of inspec-tors. Dr. Huber was a faithful and energetic officer, bringing to the discharge of bis duties the varied experience gained in the practice of his profession not only at home but in the army during the rebellion. Mr. Musser by his urbanity of manner and the constant interest felt in even thing which pro-moted the welfare of the Prison, was well quali-fied for the position made vacant by his un-timoly death.
