OUR NEW OFFICE.

To substantiate the merit so universally accorded to Wheeler & Wilson's Sewing Machines, and at the same time to justify our claims to the favor of the citizens of Lancaster County, we will present to their attention a few strong facts: First—We assert (undeniably) that THE ONLY GOLD MEDAL awarded at the Paris Exposition for Sewing Machines for family purposes, was awarded to the WHEELER WILSON after a fair trial before competent judges, (appointed by the Emperor Napoleon,) whose duty it was to deal impartially in the performance of their com-

COMMISSION IMPERIALS.

CHAMP-DRMARS, 6th July 1807.

Mr. R. Hunting, 139 Regent Street, London.

DEAR SIR:—Replying to your inquiry. I beg leave to state, that the ONLY GOLD MEDAL for the manufacture and perfection of Scwling Machines, was awarded to Messrs. Wherein & Wilson, of New York.

Yours Respectfully,

HENRY F. Q. D'ALIGNY,

Member of the International Jury

and Reporter of the same.

DEFARTMENT OF STATE, Washington, May, 1888. \To Wheeler & Wilson, of New York.

Sirs:—The Department has received one Gold Medal, awarded to your firm for Sewing Machines, at the Paris Universal Exposition, of WM. H. SEWARD,

Secretary of State.

LARGEST NUMBER OF SEWING MACHINES for Family Use of any Manufacturing Company in the country (all combined).

THE WHEELER & WILSON IS EXCLUSIVE. LY A FAMILY SEWING MACHINE, and as such, it has, in defiance of all competition, whether it be manly and honorable, or ungen tlemanly and ignorantly discourteous, made its way, held its own; and established the wellmerited reputation so universally extended to the Wheeler & Wilson Sewing Machine. Nor is it necessary in introducing the Wheeler & Wil-The regular meeting of the Lancaster County Horticultural Society, will be held on Monday afternoon, 5th of April, when cuttings claim to have A FIRST CLASS SEWING MADERS OF THE RESERVENCE OF THE PROPERTY O speak in any way disparagingly of others. We claim to have A FIRST CLASS SEWING MA-CHINE, complete, (with no single extra attachments to buy after purchasing.) the best in

use for family work. In taking into consideration the unequalled popularity of this wonderful machine and its immense sale, it should be remembered that we have derived no benefit whatever from the sale of manufacturing machines. Withdraw the heavy machines from the sales of the different companies, and where do they stand? Far behind the Wheeler & Wilson Co., who make the Family Sewing Machine a speciality. The Company's manufacturing premises at Bridgeport, Conn., occupy a space of 5 acres, enclosing an entire quadrangle, with a front on the N. Y. & N. H. Railroad side of a quarter of a mile less

15 feet, filled with costly machinery.

In other words, this Manufactory has added to the industrial world the effective force of 1,700,-000 seamstresses, and is swelling that immense number by adding 2,000 per day.

It has even conquered British prejudice. Charles Dickens himself has made it the subject of a finely turned article in "Once a Week," and the London Times, in an exhaustive two column and a half editorial, covering the whole subject of Sewing Machines, awards the highest merits of praise to the WHEELER & WILSON, as the one best calculated for household work. It is on this mission of labor-saving in all

parts of the world, London, St. Petersburg, Madrid, Constantinople, Calcutta, Cape Town, &c. Its agents are everywhere throughout the habitable globe, wherever fabrics are sown into human apparel.

We respectfully claim attention, and cordially invite the citizens of Lancaster county to vis-it our Office, inspect the Machine, examine the samples of the work performed, and compare them with others. We willingly abide the re-

Fruit Tree Invigorator.

FARMERS, LOOK TO YOUR THE GREATEST DISCOVERY OF THE AGE

BEST'S FRUIT TREE INVIGORATOR AND INSECT DESTROYER.

AND INSECT DESTROYER.

It is the most useful combination of ingredients ever known for Fruit, and the evidence we can produce from men of the highest standing in society of the benefits to be derived from its use in Fruit Trees, vines, Wheat, Corn, Flowers, and all kinds of Vegetation, cannot be doubted by any honest man. When applied to trees, it penetrates every pore, destroying the worm in the heart of the tree, and by connecting with the mineral substance of the earth, destroys the cause and provents the creation of any destructive insects. It will prevent Curculie from stinging the plum, and every person using it will have sound plums. It will kill the peach grub, and make peach trees bear healthy fruit. It will prevent dry-rot in grapes. It swells the tree, causing the old bark to peel of from the body, while a beautiful new green bark takes its place. It will kill potato bugs and prevents potato rot. It will prevent the fly from touching it. It destroys the cut-worm in corn—in fact, it will kill any kind of insects that attack Fruit Trees, and cause all Fruit Trees to bear sound fruit. It is now extensively used in the Western States, and those who have used it would not be without it, for a thousand times its cost. It has been used in the southern parts of Berks County, this State, on grain, trees, &c, and there has not been a single failure. Any person wishing to see its effect upon growing grain and fruit, can be gratified by calling on us, or by writing, and we will refer them to persons (with residence) who are using it. We warrant it to do just what we claim for it. To be used as soon as the froet is out of the ground. Township and Single Rights for sale for the County of Lancaster.

LANCASTER, June 25th, 1868.

EDITORS EXPERSS: Dr. Wm. M. Whiteside, the enterprising Dentist, has purchased from 1874 a large stock of teeth and all the fixtures, the instruments formerly belonging to me, and also those used by my father, Pr. Parry, in his practice. In the purchase, the doctor has provided himself with some of the most valuable and expensive instruments used in dental practice, and has beyond doubt one of the best and largest collections of teeth and instruments in the state. Persons visiting the commodious offices of Dr. Whiteside, cannot fail to be fully accommodated. The Docker loses no opportunity of furnishing himself with every late scientific improvement in his line, of business.
