

Lanna, and here and there a village peering from behind a dark cloud, and the people below hallooing all around us; and I heard a voice distinctly cry, "Charley, come down—come down—come down."

I shall dream of this all my lifetime. I can now hardly realize it—it seems to me more like the shadow of a vision—a trance of positive things. I don't think anybody could make such an adventure without becoming better, and particularly grateful to the Creator for the privileges he has granted us.

LANCASTER, Sept. 20, 1869.

A Destructive Storm—Rain, Hail and Lightning—Number of Barns Burnt.

The rain and thunder storm which passed over this county on Friday last week, it seems did much damage to property in some sections. Fences were swept away, barns struck by lightning and destroyed and other damage done. But little or no injury was done in this house, so far as we have been able to learn.

The barn of Jacob Huber, one and a half miles northwest of Rohrerstown, in East Hempfield township, was struck by lightning during the storm and completely destroyed. The crop of wheat, threshed and laying on the floor, and all his hay and straw were burnt up. The house and other buildings, with the exception of three small pigs, were got out, but all the agricultural implements in the barn were lost.

John Brickhart's barn, about one and a half miles west of Salunga, and the barn of Mr. Koonitz, near Maytown, were also struck by lightning during the storm and destroyed, but the particulars, at this writing, have not reached us.

The house and barn of Benj. Rutter, in Warwick-twp., one mile east of Litz, were struck by lightning during the storm. The lightning struck the rod on the house, ran down to the ground, cut a hole through the foundation and ran along a copper pipe one hundred and fifty feet to a hydrant ram, which it burst, then ran along a lead pipe about twenty feet to a box containing water, which it also burst, and here the fluid passed away. Fortunately, no one was in the house at the time, else loss of life might have resulted, as things were considerably shattered. The lightning rod of the barn was also struck and torn to pieces. Both rods were rendered useless.

The storm seems to have extended southward only some six or eight miles. In East and West Lampeter it was very destructive. Nine stacks of wheat belonging to John H. Reister, in West Lampeter, were completely ruined. Several cows belonging to Mrs. Barbara Kreider, in the same township, were killed by lightning. The roof of Mrs. Girvin's barn, in East Lampeter, was blown off. Fences were blown down, trees uprooted, and fields badly washed. The tobacco crop was much injured by hail. In the township a barn, owned by Samuel Groff, of this city, was struck by lightning. The electric fluid entered the upper end of a lightning rod down to the valley on the roof, where it split, one portion going down the rod and the other passing along the valley. No damage was done, except knocking off some shingles.
