THE amount subscribed to the Stanton relief fund in New York city is about fifty thousand dollars. Collector Grinnell's list contains the names of twenty-three gentlemen who have given one thousand dollars each, and several who have subscribed five hundred dollars a piece. A. T. Stewart's list is not quite so heavy. In Boston sixteen thousand dollars have been raised, and in Philadelphia twenty thousand dollars, making a total in these three cities of about eighty-six thousand dollars. The remaining fourteen thousand dollars will undoubtedly be made up in the West.

GEN. BUTLER says the Emancipation Proclamation of President Lincoln at once supplemented and complemented the Declaration of Independence; that it "may fitly be termed the executive act of freedom to all mankind, of which the Declaration of '76 was only the legislative announcement. It required both to make all men free; the first did so in theory, the latter in fact."

YOUNG MEN.

of young men are to-day drifting helpless-lessly about on the ocean of life, vainly hoping that ere long some favorable breeze will spring up and drive their vessels into some safe harbor. Where that safe harbor is they have no idea; because they have no definite object in view. They have never decided upon any course of life, but permit their actions to be shaped and moulded by the circumstantes of the hour. Is it any wonder that disasters follow each other in quick succession? More men are ruined through indecision than from a wrong decision. Few men will deliberately lay out and pursue a plan of life that will ultimately work their ruin. Most young men of the present day enter the great battle of life without any well defined system of warfare, and airmless pursuits. Indecision is the bane of our existence. Could we look into the world of spirits we would find but few souls in the dark regions of the course of the c souls in the dark regions of woe that had resolved to reach that goal; nearly all who are there, and those who are hastening there, are in their present condition simply because they never decided whither they would go, and their indecision has been their ruin.
