LJ. W. Forney gave an elegant nen's party at his residence, on Hill, on Thursday evening of last About two hundred and fifty ere present, comprising a majority of the most diginguished in politics, business and society in Washington. President Grant, with Secretaries Fish, Boutwell, Belknap and Cox, and Postmaster General Creswell, arrived about half-past ten o'clock. The President remained for over an hour, mingling socially with the company, and exchanging greetings with the guests. Several of the Cabinet officers remained until a late hour. The entire Pennsylvania delegation in Congress, Democrats as well as Republicans, were present, and in the social festivities forgot political differences.

The investigation, by Garfield's committee, into the New York gold conspiracy is ended at last. It is understood no charge of malfeasance against any government officer will be made, though Butterfield will be censured. Corbin is understood to have sworn that his famous letter to the President has been either lost or destroyed.

There is a case to come before the Supreme Court here shortly which will enable the Court, when the new Judges shall have taken their seats, to reverse the recent legal tender decision.

A plan for a uniform railroad gauge is under the consideration of railroad men and members of Congress. Five-sixths of the roads already have the same gaugesay four feet eight and a half inches. To bring the other sixth to this, as the easiest and cheapest plan, it is proposed that after a given day, no road shall be a post road that does not conform to this gauge. The expense of changing a five foot gauge to conform to this plan will not exceed \$500 per mile, and it is believed that most of the roads could make the change at a less expense. As there are less than eight thousand miles of road requiring alteration, the whole cost of the work would not exceed \$4,000,000. This sum would, perhaps, be saved to the country by the

change, in one year.

The Committee of Ways and Means has agreed, by a decided vote, to reduce the internal taxation of the country thirty millions. The President fayors this, and has heretofore, on several occasions, re-commended it. Mr. Boutwell is said to be opposed to the reduction. The income tax is to be reduced, not abolished.

The National Executive Committee of the Union League of America has been in session here. A proposition was made to completely remodel the organization upon a more mature basis, in view of its objects. Ex-Governor W. A. Newell, of New Jersey, was elected chairman for the ensuing year. The National Council also held a meeting exchanging congratula-tions on the adoption of the Fifteenth amendment. The most praiseworthy act on the part of the Council was the adoption of a resolution of sympathy for struggling Cuba, and urging upon Congress the recognition of the belligerent rights of the people now fighting against Spanish tyranny. Congress having already re-fused to listen to the voice of the people and their own sense of justice, it is to be hoped that the influence of this body en-

an amendment of the law so as to require members to nominate several boys, the most successful in the examination to receive the appointment.

The Government purchases of United States bonds up to February 1st, 1870, amount to \$96,273,050, and the accrued interest to \$809,334, making a total of \$97,682,384. Of these bonds \$25,497,500 belong to the sinking fund, and \$70,075,550 are held subject to the directions of Congress. The market value of the bonds, estimated at an average premium of 121 per cent., amounts to \$108,307,181.

Congress.

The Committee of Ways and Means have decided, by a vote of five to four, to report in favor of making the Revenue branch of the government an independent department, to be presided over by a Cab-inet officer. In other words, to elevate it to the dignity of a Cabinet office.

Secretary Boutwell is confident of being able to fund the debt in a year's time if Congress passes a bill in accordance with

his recommendations. Judge Strong was confirmed as one of day of last week. Subsequent discussion

in the Senate developed the probability of the passage of a bill re-arranging the Supreme Court circuits, and providing that the judges shall reside in the districts from which they are appointed. A motion was therefore the, and is now pending to re-consider Juge Strong's confirmation. The anniversary of the birth-day of
