### Revised Fruit List.

Germantown Telegraph. Since the last publication of our fruit list, we have for satisfactory reasons changed our opinion with respect to a few of the fruits which it contained. But in regard to the list as a whole we can see no just ground for disturbing it. Indeed we do not see how it can be improved for this section of country, or as a general list for all the Middle states. Some of each of the separate selections may not do well on one premises that will succeed admirably upon another. Each grower must find out for himself the particular apples, pears, &c., especially adapted to his soil and

According to our present preference we should select the following for our own

Standard Pears-1. Giffard; 2. Doyenne d'Ete; 3. Early Catharine; 4. Kirtland; 5. Bloodgood; 6. Summer Julienne; 7. Tyson; 8. Brandywine; 9. Bartlett; 10. Belle Lucrative ; 11. Manning's Elizabeth ; 12. Seckel; 13. Howell; 14. Anjou; 15. Shelden; 16. St. Ghislan; 17. Lawrence; Reading.

For those who may desire a smaller number we should select: 1. Giffard; 2. Early Catharine; 3. Bloodgood; 4. Tyson; 5. Bartlett; 6. Belle Lucrative; 7. Seckel; 8. Lawrence; 9. Reading. They ripen in about the order they are arranged. In the above list, from No. 1 to 8 are summer varieties; from 9 to 16 autumn (early and late); and 17 and 18 winter, thus affording a sufficient number for each of the periods of the best known sorts for

this region. Dwarf Pears .- 1. St. Michael d'Archange; 2. Bartlett; 3. Comice; 4. Rostiezer; 5. Dicl; 6. Tyson; 7. Belle Lucrative; 8. Lawrence; 9. Ott; 10. Louise Bonne; 11. Bosc; 12. Boussock; 13. Glout Morceau.

Apples-1. Maiden's Blush; 2. Baldwin; 3. Smokehouse; 4. Northern Spy; 5. Smith's Cider; 6. Faliawater; 7. Cornell's Fancy; 8. Red Astrachan; 9. Wagener; 10. Porter; 11. Gravenstein; 12. Tompkin's King; 13. Roxbury Russet. We add to the foregoing list Tompkin's King and Roxbury Russet, both most excellent varieties; indeed the King is regarded by some as unsurpassed. Northern

Spy is also restored. Peaches-1, Crawford's Early; 2. Hale's Early; 3. York's Early; 4. Old Mixon; 5. Crawford's Late; 6. Ward's Late; 7. Smock's Late; 8. Susquehanna.

There is no solid reason to change this list so far as it goes. We suggested to peach-growers to favor us with a list of their own, and a few did, but where they differed from ours we did not deem an im-

provement. Grapes-1. Telegraph; 2. Concord; 3. Hartford ; 4. Clinton ; 5. Salem ; 6. Rogers' No. 32.

We have added to the list Rogers' No. 32, which, should it maintain its present character, will be the best out-door variety cultivated. It is a beautiful pink, or rather maroon, colored grape, and at times

Purple Guigne; 10. Del. Bleeding Heart. The ripening of the list will range from the earliest to the latest, thus carrying one through the whole cherry season. No one can go amiss in adopting this list.

Raspberries-1. Hornet; 2. Herstine 3. Philadelphia; 4. Brandywine. Strawberries-1. Captain Jack; 2. Seth Boyden; 3. Sharpless; 4. Triomphe de

Currants-1. Black Naples; 2. Red Dutch; 3. White Grape. These three varieties are the best among the different colors. The Red Dutch is a regular bearer and is of better quality than any other. There are others larger, but they are more acid. The white grape is transparent, of goodly quality, and ought to be more generally grown

but it is not a great bearer. Gooseberries.-1. Houghton; 2. Down-These are the two best gooseberries grown in this country. They bear every year heavy crops, are free from mildew, and are of excellent quality. They are large enough for all practical purposes.

Keep clear of the giants and their big Blackberries.—1. New Rochelle; 2. Missouri Cluster; 3. Wilson's Early; 4.

The Snyder, a new Western blackberry, is highly spoken of at distant points, but we prefer to wait another year before recommending it, in the meantime giving i It is better that those who intend to cul-

tivate fruit and have to make purchases, take this list with them to the nursery, and adhere to it as far as possible. In selecting fruit-trees, or any others, be careful to chose those with smooth, healthy-looking bark, have entirely shed

their leaves, and have plenty small fibrous roots. Trees on which the leaves remain after frost sets in, and stick to the branches in the spring, may be regarded as not healthy, and in some way lacking stamina.

A Cross Baby.

Nothing is so conducive to a man's remain Nothing is so conducive to a man's remaining a bachelor as stopping for one night at the house of a married friend and being kept awake for five or six hours by the crying of a cross baby. All cross and crying babies need only Hop Bitters to make them well and smiling. Young man remember this.—Ed.

From the Banks of the Hudson H. H. Waener & Co., Rochester, N. Y., Oct. 20, 1879.

H. H. Waener & Co., Rochester, N. Y.—Gentlemen: "A lady of over seventy years of age, in failing health for over a year, has been using Warner's Safe Bitters on my recommendation. She feels very grateful for the benefit she has derived therefrom, and says that until she used it her stomach could bear no vegetable food for over three years. I believe it to be a certain specific for dyspepsia.
