### The Negro Cadet.

The dramatic developments of the negro cadet trial on Saturday hardly leave room for the most pronounced negrophobist to dispute that Whittaker was theauthor of the "outrage" on himself. This was; evident enough, before-hand, upon the general features of the case. There was absolutely nothing to point to anyone else as the negro's assailant; there was much to implicate him. The fact of the extreme lightness of his wounds, his failure] to cry out, and the calm state of his pulse when found, added to the obvious motive he had for the trick, sufficiently pointed him out as its author. The confirmation of this deduction from the facts afforded by the combined judgment of the five experts as to the handwriting of the note of warning is very strong; and the surprising discovery of one of them that the paper on which the note was written was Whittaker's leaves nothing pointed the "best workers in the wards' to hang a doubt upon. There is a possi- will not be behind the door. bility, of course, that somebody got that piece of Whittaker's paper and had skill and cunning enough to imitate Whittaker's handwriting, but it is so remote a possibility as to be entitled to no consideration; and moreover, the experts find that the hand-writing of the note to-day. was a natural and not a forged writing. To all, this proof of Whittaker's guilt must be added several important varia- Cameron candidate for Congress. It is estimated that fully 20,000 strangers visited the town yesterday to see the ruins made by the fire. Religious services were held by the different pastors of the town at various places in the open air. Immediately after the services were over many went to the distribution rooms to receive food from the relief committee. The bank vaults have not yet been opened, and the town is full of rumors that an attempt will be made to break them open by unauthor-

ized persons, and that different parts of the town will be fired for the purpose of attracting the attention of the people from the vaults. Thirty men of the Twelfth regiment have arrived from Sunbury to do patrol duty.

LOCAL INTELLIGENCE. THE "LEAF."

Local Tobacco Market and Crop Prospectre During the past week about two hunthe dred cases of 1879 leaf were sold in this the market on private terms. The 1878 crop is pretty nearly all disposed of, it being estimated that not more than 1,000 or packers. The crop of 1879 is practically out of the

hands of growers, it having been bought up more closely perhaps than any preceding crop for years past, not only in Lancaster county, but throughout Pennsylvania. There are, of course some lots "lying around loose," but they they are not wanted, being either of undesirable quality or held at prices above the views of buyers. Nearly all of the packers have finished packing, and so far as can be learned they are well satisfied with their purchases. The crop promises to be a valuable one, and is sweating out allright, so far as can be ascertained.

The backward spring and the recent long-continued drouth have kept back the plants for the coming crop, and they are generally, as yet, quite small, and in many places badly caten by insects. Even if they were large enough to set out, the continued dry weather and the baked condition of the ground would render it inexpedient for the planter to commence oper ations, for though the tobacco-plant will bear a great deal of drouth in the bed and in the field after it has taken root, it is a deficate plant when first hilled and readily succumbs to a hot sun and dry earth. No apprehension is felt on this score, however, as plants will have plenty of time to mawere as numerous as stylish. The services

A Murder Exposed.

Up in Wilkesbarre they have arrested an organ grinder named Gardena, a native of Genoa, Italy, for murdering his daughter, aged 10 years, two years ago. His other little girl, survivor of the crime, whom he lately beat cruelly, has told the police that two years ago her father murdered her sister, two years older than hersell, by beat her on the head with a club and then shooting her through the body.

This was near Wanamac, in Luzerne county. The child's name was Rosa. The father buried the body in the woods near where the murder was committed. Gardena threatened Pauline with death should she expose him, and she begged to be protected. She says that her mother lives in New York city, at 38 Mulberry street.

She told her mother of the murder of her sister Rosa over a year ago, but her mother, fearing violence from her husband, did not dare to expose the crime. Gardena carried a pistol and a large knife. On the revolver are the words, "Western
