NOTES BY THE WAY.

Picked Up by a Traveling Correspondent North-eastern Lancaster County. Brickerville has had a picnic. It was an enjoyable occasion.

Mr. James Malone, of Brickerville, praposes to sell out and migrate westward. During the late storms a valuable cow belonging to Mr. Urias Fasnacht was killed by lightning.

John H. Wike has lost a colt by death, and in all probability another will soon follow; cause lockjaw.

Whistle as it would the cow would not leave the track. There was a crash, and the animal belonging to J. Geo. Albright of Ephrata was rolling in the dust. Six buckshot ended her misery.

Two school teachers wanted-one at Reinhold's station and one at Bechtel's. The Muddy Creek Union Sunday school holds a picnic at Brubaker's woods near Swartzville, next Saturday. The farmers around Adamstown pre-

dicted their second hay crop better than Rev. Dr. E. V. Gerhart, of Lancaster,

and wife, are the guests of Rev. S. Schweitzer, of Lincoln. Daniel S. Grimes, of the Union station, is the owner of a Hancock calf. It is

six weeks old and weighs 255 pounds. The Sinking Springs Evangelical campmeeting association, in charge of Rev. I. Knerr, of Reading, opens on Aug. 18, to continue 8 days.

August 14 is the day set for the annual pienie at Lincoln Union Sunday school. The directors of Brecknock township announce the following appointment of teachers : Stone Hill, Miss Theresa Kraemer; Chestnut Hill, Miss Hannah Bossman ; Red Run, Mr. C. C. W. Showalter ; White Oak, M. L. G. Good; Bowmansville, N. Franklin Hall.

Death has had a plentiful harvest in this section. On Thursday the estimable wife of Isaac B. Martin, aged 48, died of dropsy; also Lizzie, little daughter of Samuel Binkley, of Rothville; John Leib, of Pine Hill, aged 69, and a child of Samuel Carpenter, of Earlville.

Mr. I. N. Weidler, of Rothville, early in the season planted an acre of ground with tobacco. It lay between two wheat fields, wherein the grasshopper feasted. When the wheat was cut migration was necessary and the hopper-grass jumped the fence and calmly chewed the tender "weed;" nor did he stop until there remained not a decent chew for an old printer. What was once a tobacco patch is now a barren field. Mr. Weidler has plowed under the tobacco stalks-or what remained of them-and given up tobacco

to hear both sides of a political controversy and in order to do that he should read representative papers of each of the great political parties. The Lancaster INTELLI-GENCER is now offering special inducements to those desiring to take the paper during the campaign and we would advise everyone to take it. It is decidedly the ablest conducted Democratic journal in the state, and contains more bright, sparkling and original matter than other paper in the county.

Arm Crushed.

Frank Dailey, 13 years of age, stepson of Hiram Dailey, residing on East Madison alley, had his right arm badly crushed by having it caught in machinery which he was cleaning in the card room of No 2 cotton mill this forenoon. Immediately after the accident he was removed to his home and was afterward taken to the office of Dr. Davis where the arm was amputated near the elbow.

Excursions.

We call the attention of our readers to the advertisement (in another column of this paper) of the Young Men's Christian association excursion to Cape May, on Friday, Aug. 6. The time fixed for this excursion is the height of the season, and those taking advan tage of it will have an excellent opportunity of seeing this famous watering place under the most favorable circumstances. The temperature of the water, for surf bathing, is much more agreeable than would be the case earlier in the season, while the past experi ence of this association in running excursions, gives ample assurance that nothing will be left undone that will add to the pleasure and comfort of the excursionists.

The Pennsylvania railroad company have also advertised an excursion to Niagara Falls and Watkins Glen, in which they offer some fine attractions to those who may desire to take such a trip. Their route is somewhat difterent from the one announced by the Reading railroad company. This excursion will take place on August 3, 1880, and tickets will be good for 15 days.

On August 19 Clark & Schmid will close the eason by running a grand excursion to Atlantic City. Tickets will be good for two days. This will be the first excursion to Atlantic City from this city over the Pennsylvania railroad. Tickets for round trip, \$2.75. The Philadelphia & Reading railroad con pany will run an excurson to Niagara Falls Watkins Glen, Elmira, Buffalo Geneva, Tuesday, August 3, 1880. Tickets, \$10 tor round trip, will be good for 15 days and good to stop on the return trip at Buffalo, Elmira, Wilkesbarre and Mauch Chunk. Reduced rates have been secured at all the leading hotels. The route over which the excursion passes (the Lehigh, Wyoming and Susquehanna valleys) has been the theme of admiration of tourists. The rugged magnificence of the region in the Lehigh valley, the picturesque beauty of Wyoming valley and the other scenes combine to make it a most desirable route. This will be the most enjoyable of all

As will be seen by an advertisement else where, Zoon's Lutheran church, of this city, have made arrangements to run an excursion to Hartman's Island, on the Susquehanna, on Thursday next, July 29, 1880. Fare for the round trip \$1.25.

On Thursday, July 29, an excursion will be run over the Quarryville road to Quarryville in order to give persons an opportunity to atend the grand woods near Quarryville on that day. Fare for any other in its mellow juiciness, richness of round trip including admission to picnic, only | flavor and brilliancy of color. Physicians say On Tuesday next an excursion will leave and in summer it is more agreeable and re-

here over the Reading railroad for Atlantic

A New Elevator.

Mr. A. U. Welchans has just completed for Frank Mettfett, a new and very excellent elevator to be used in raising and lowering provisions, oysters and vegetables from the base ment of the Farmers' Northern market house to the pavement. It has a carrying capacity of 2,500 pounds, and is arranged with ratchets, so that if anything should break it would be impossible for it to fall. It is easily raised and owered by an endless rope passed over a large hive wheel. The framework of the elevator s very substantial and is entirely exposed to view, being placed in the open area outside the front wall of the market house. The work is a credit to Mr. Welchans, who has built several of these elevators, and will prove of great convenience to Mr. Mettfett, whose largely in creasing trade makes the handling of his provisions by hand a very laborious business.

A Card. Having resided only a short time in Lancaster, I consider it not only my right, but even my duty, to correct the false impressions which certain unscrupulous person and his congenial alders and friends have been circulating, that my charges were exorbitant and unjust. The laudable purpose of these good and honest people is to force me to leave town. As I teel no inclination to gratify their kind desires, I wish to inform the public of my rates, which will be found the same as those of all other physicians. In ordinary cases I charge for a visit or consultation from a half to one dolar, according to circumstances; for a full examination \$5, &c. A large number of persons are without means or at least property, and physicians have often to furnish advice and ometimes medicine without receiving any pay There is also a class of diseases which no physician will treat at the above named rates, and no one can justly expect me to do so. DR. N. LEWIN.

An Old Man's Blessing. The following letter has been addressed to a writer for this paper:

Holly, N. J., June 1850. DEAR SIR-I am an old man, seventy-seven years of age, and for three or four years I have had Diabetes, which kept growing worse and worse. I di-charged an enormous amount of water, the quantity seeming to increase week after week, and my strength growing less and less, forced me to think that I must soon die, which I certainly should have done had I not taken Warner's Safe Diabetes Cure, which I was induced to try upon recommendation of a friend who had used Warner's Safe Kidney and Liver Cure, and was cured by it. I have used the Safe Diabetes Cure, it has cured me, and I think it is the best thing in the world.

Pumping Out the Shaft at Jersey City.

JERSEY CITY, July 24.—Work at the tunnel was resumed at an early hour this morning. The water in the shaft was up to within a few inches of the engine which was working to keep the water from overflowing it, the water in the shaft being higher than at any time since the accident. Work was resumed on the cribbing and all the men who were discharged yesterday were put to work again and will be kept at it night and day until the crib work is completed Mrs. Bagley, the wife of one of the men Mrs. Bagley, the wife of one of the men in the tunnel at the time of the accident, and Miss Broderick, of Philadelphia, a sister of two of the men now in the tunnel, were at the works this morning and created quite a scene by crying and making vain efforts to get near the mouth of the shaft. Three divers are now preparing to go down to try and close the door of the air lock, the one who went down last night finding it impossible to do anything. He was unable to say whether there was a body between the outer door of the air lock or not.

TANNER.

Weaker and More Irritable. NEW YORK, July 24.-Dr. Tanner was somewhat weaker and rather more irritable to day. Early this morning he complained of a burning in his stomach and was given two mouthfuls of hot water, which stimulated the gastric follicles, relieving the distress. His physicians think this an unfavorable sign, but he says that during his fast at Minneapolis he often experienced the same sensation. He enters on the twenty-seventh day's fast with no other marked change in condition.

LABOR TROUBLES.

Prospective Lockout Among English Cotton London, July 24.—An interview between the masters and cotton operatives of Bolton yesterday resulted in the operatives declaring their intention to strike on Wednesday next unless an advance of fire per cent. in their wages is conceded. The masters said they would in such event enforce a general ockout. The dispute directly effects four millions spindles and ten thousand opera tives. Two thousand operatives are now out on strike at Rochdale. A strike is also

probable at Old Hall.
