TISTATE OF LEWIS

STATE OF HERMAN MILLER, LATE

The Destruction of Game Food. So long as America continued in the occupation of the aborigines, the order of nature was apparently but little disturbed. The buffalo and deer, the wild fowl and turkeys, furnished abundant food to the savages without serious encroachment upon the fertility of nature. In savage life there appears to be no wanton or unnecessary destruction of the natural means of support. It was reserved for the civilized white man to carry on a wanton war against the bounty of nature, and to kill and destroy, without thought or study of those imperative laws under which nature holds in trust the food supply of man. From the first settlement of the country, the process of eradicating and annihilating the useful animals, birds and fishes natural to the country has been carried on with an energy and success but too characteristic of the Saxon race. Large tracts of land have been entirely depopu-lated of their animals and useful birds. The buffalo on his native plains has be come an object of rare curiosity. Deer

are limited to the remoter mountain range or extensive tracts of barren woods. The wild fowl, which swarmed in New England during the first settlement of the country, and for a long time afterwards have almost disappeared. The last wild turkey was killed in Massachusetts nearly half a century ago. There is probably no sportsman living who has killed a grouse on Martha's Vineyard, the last refuge in the northeast of that most valuable bird. Plover still migrate, though in diminished numbers, from their breeding places in the far North to their winter home in the South, but they carefully avoid the no:th-NERVINE, OR TONIC SPECIFICA. eastern coasts. No one in this generation has seen a wild swan alighting on the waters of Massachusetts. They once abounded there. Even the wild geese find no resting place here, but are expelled as if they were tramps and vagabonds. Man Destroys, Nature Economises.

A BOON TO BOTH SEXES.

A REMEDY WITHOUT A RIVAL for all diseases arising from Nervous Debility, Sexual Disorders, over Indulgence of Vicious Habits, as well as from the prostration of old age. Its curative properties in violent and chronic forms of the following diseases have been attested to by the most Eminent Physicians:

Dyspepsia, Self Abuse, Headache, Dizziness, Sexual Exhaustion, Spermatorrhea, General Debility, Impotency, Premature Decay, &c.

It has been in use for over torty years, and is to-day the most popular remedy for the diseases above mentioned in the WORLD. It can be used without regard to diet, is pleasaut in taste, and better than all, it is a sure, sale and certain cure. It is no quack medicine, but stands upon its own merits, as any trial wil amply demonstrate. Since 1836 this remedy has always been sold for a much larger price than that for which it is now sold; but owing to the act that the time for the payment of an enormous royalty upon its manufacture has expired, it is offered to the suffering of both sexes at one dollar per package, so as to be within the reach of all; at which price it will be sent to any address free of further charge. Mr. Marsh, in his most interesting and instructive book, "Man and Nature," shows how spendthrift man has, by his ignorance and neglect of the laws of nature, ruined for the purposes of habita-tion large portions of his fair inheritance on the surface of the earth. The shores of the Mediterranean exhibit to-day, in many places, desolation not due to political or national decay, but to man's reckless abuse and wanton destructiveness. Although this may be excused to some extent by the ignorance of former days-for study of the relations of nature to man is of very recent date-there can be no excuse, in our more enlightened time, when knowledge of all kinds is so accessible, for not only abusing inanimate nature, but for expelling from the earth so many of our living fellow inhabitants. We are not only forewarned by our present knowledge but we have reason to believe that earnest study would in a few years reveal to us many of the now secret and hidden operations of nature. We know, for example, little of the mysterious arrangements by which nature disposes, after their brief life, of the countless birds and animals born into the world. Mar y ERS millions are born annually; as many millions must annually die. We see the BIT smaller birds occasionally seized and de-ERS voured by the birds of prey; we know that the fox, the weasel, the wildcat, and the HOP mink live largely on birds; but this does ERS not account for their mortality. How rarely we come across dead birds or animals in our walks through the woods and fields! Nature is the most decorous of sextons. She lays her countless dead to rest in the bosom of the earth noiselessly, and with no trace to offend our senses or our feelings. Perpetual birth, youth and renovation are her monuments in her everlasting cemetery. Man lives surrounded by her living forms; she gives him little or no hint of the mortality of her children. It is from his own lot and his imperfect dealings with his own decay that man derives his sad lessons and painful associations

As we rarely know individuals in animal or bird life, these races seem in nature's arrangement immortal. The spring brings them to us with the certainty and freshness of new leaves and flowers. We see the leaves and flowers decay; but, as a general rule, we have little conciousness EES and scarcely any knowledge of the death power of dealing with an animal race, with every probability of increasing their numbers and the average duration of their lives. - William Minot, in International Reciev for August, 1880.

PHYSICIANS RECOMMEND IT .- Your Thomas Eclectric Oil commands a large and increasing sale, which it richly merits. I have always found it exceedingly helpful: I use it in all cases of Rheumatism, as well as fracture and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot and in two days I was extincted year. the foot, and in two days I was entirely re-lieved from pain. Jos. A Fool Once More. "For ten years my wife was confined to her bed with such a complication of aliments that

no doctor could tell what was the matter or no doctor could tell what was the matter or cure her, and I used up a small fortune in humbing stuff. Six months ago I saw U. S. flag with Hop Eftiers on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W., Detroit, Mich. jy15-2wd&w

BETHANY, ONTARIO. GENTHEMAN.—I feel it my duty to say a few words in regard to the great benefit I have re-ceived from the use of one of the wonders of the world, that is Dr. Thomas' Eelectric Oil. I the world, that is Dr. Thomas' Eclectric Oil. I was one of the greatest sufferers for about fifteen months with a disease of my ear similar to Ulcers, causing entire deafness. I tried everything that could be done through medical skill, but without relief. I continued using it, and in a short time, my ear was cured and hearing completely restored.

I have used this wonderful healer successfully in cases of inflammation of the lungs, sore throat, coughs and colds, cuts and bruises, &c.; in fact, it is our family medicine.

HOP BITTERS FOR SALE AT LOCH er's Drug Store, 9 East King Street. Brandy as a Medicine.

The following article was voluntarily sent to Mr. H. E. Slaymaker, Agent for Reigart's Old Wine Store, by a prominent practising physician of this county, who has extensively used the Brandy referred to in his regular practice. It is commended to the attention of those afflicted with

Indigestion and Dyspepsia.

BRANDY AS A MEDICINE. This now much abused Alcoholic Stimulant was never intended as a beverage, but to be used as a medicine of great potency in the cure of some of the destructive diseases which sweep away their annual thousands of victims. With a purely philanthropic motive we present to the favorable notice of invalids—especially those afflicted with that miserable disease Dyanensia. a specific remety which is

ease Dyspepsia, a specific remedy, which i nothing more or less than Brandy. The aged, with feeble appetite and more or less debility, will find this simple medicine, when used properly.

ITN NUBSCRIPTION PRICE REMAINS THE SAME.

A Sovereign Remedy or all their ills and aches. Be it, however strictly understood that we prescribe and use but one article, and that is

REIGART'S OLD BRANDY,

Sold by our enterprising young friend, H E SLAYMAKER. This Brandy has stood the test for years, and has never failed, as far as our experience extends, and we therefore as our experience extends, and we therefore give it the preference over all other Brandies, no matter with how many jaw-breaking French titles they are branded. One-fourth of the money that is yearly thrown away on various impotent dyspepsia specifies would suffice to buy all the Brandy to cure any such case or cases. In proof of the curative powers of Reigart's Old Brandy,

In cases of Dyspepsia, we can summon num bers of witnesses—one case in particular we A hard-working farmer had been afflicted with an exhaustive Dyspepsia for a number of years; his stomach would reject almost every kind of food; he had sour eructations constantly—no appetite—in fact, he was obliged to restrict his diet to crackers and stale bread, and as a boverage he used McGrann's ftoot Beer. He is a Methodist, and then, as now, preached at times, and in his discourses often declaimed carnestly against all kinds of strong drink. When advised to try

Reigart's Old Brandy, In his case, he looked up with astonishment, but after hearing of its wonderful effects in the cases of some of his near acquaintances, he at last consented to follow our navice. He used the Brandy faithfully and steadily; the first bottle giving him an appetite, and before the second was taken he was a sound man, with a stomach capable of digesting anything which he chose to eat. He still keeps it and uses a little occasionally; and since he has this medicine he has been of very little pecuniary benefit to the doctor.—A Practising Peysician.
